A GLIMPSE BENEATH THE ETER MAL CITY. Charles Warren Stoddard, writing of Under Rome, says: "Fancy a narrow subterranean walk, varying from two to seven feet in width, twisting into a thousand angles and three hundred and fifty miles in length. Such were the ancient entacombs. They were filled in, walled up, and left to their eternal night,

and years since but St. Calixtus is still a marvel, full of romance, mystery and horror. No one at present ventures into its labyrinths without an expert guide, and the number and extent of the wax tapers necessary to complete a successful undertaking is simply alarming. In the midst of a meadow we found a pathway into the bowels of the earth. The guide inlocked a door at the foot of the stairs, and our party entered; the door was locked after us, the lights were lit, and our guide led us into a dark alley that felt warm and earthy one after snother, in silence, we tracked that guide through alleys that seemed endless, for the shadows. crowded in upon us oppressively, and our tapers burned but feebly. Up stairs and down stairs, to the right and left we wandered, like a band of lost spirits. We held on to each other's coat tails, and grew more and more intimate. as we felt burying us alive increase. What if the earth should fall—the soft turis rock that you could scratch with your thumb-nail? It grew uncomfortably hot; it was not pleasant to have the whole party crowding on your heels, nor pleasant to be in the midst of it with no chance of an escape in case of a panic; but it was he worst of all to be the last man, who was half the time around the corner in a black darkness, and liable at any time to drop off into chaos or oblivion at a moment's notice. There were several small chapels, with remnants of altars, and several half-obliterated frescoes to be inspected. They were soon at the house, the ladder was again placed, the lady remounted while the ill natured lover waited below. But she delayed to come, and so he gently called: "Are you coming?" when she looked out of the window and said: "Perhaps I may, and perhaps not;" and then shut down the window, leaving him to depart alone.

VALUE OF ENTHUSIASM .- Life is au inconceivable beautiful thing so soon can look out upon it through a clear conscience and a character well buffeted by experience. The one diffuses a pure, heavenly light over all the strange and complexion mass the eye, the other tones down our enthusiasm without destroying the vigor. Enthusiasm is to the character what blood is to the physical life-without it lassitude, and finally

death, would ensue. Upon its quality, however depends the beauty or deformity of the life it nourishes. Ideality is at the bottom of the true enthusiasm; the striving after per-fection makes the great artist, the noble pilanthropist, the self-sacrific-ing. The idealist soon discovers how easily it is to appear civil, corteous, respectable, virtuous; how diffcult to e truly benevolent, tolerant, and charitable; but is never satisfied unless earnestly engaged in acquiring
