fish to handle and to land. Hence Reed, the resident proprietor of Reed City, a gentleman of wealth more or less must be lost in bushy and leisure and a first-class fly fisher- streams, but in cleared streams nearman for the grayling, having had as ly every one may be saved with a limmuch experience with them and their habits as any man in the country. Mr. Recd informed me that they habits as any man in the country. were in much better condition in To him I am much indebted for his kindness and attention during the July and August, and were also fifteen days we were there, as well as quicker and stronger, and took the fly much better than in May or the and intent upon the general beauty for the valuable information he gave

first part of June, when I was there. The Hersey is full of them now, but I think they will become scarce in a "I suspect that it is a little higher Mr. Reed informed me that the river was too high to fish with comfort, or for sport, but we would go down in the morning and try them My largest fish was thirteen inches

The morning was cold-48 degs.hooked one of about one pound the same as the evening before; the weight, but he was among the floodwater the same as yesterday, 49 degs. -too cold for flies or to fish with him, and had to pull him right out comfort; but about ten o'clock we by main force, but his month was too went to the upper end of the cleartender to hold him. They were in ing above described-the warmest size from two to twelve ounces genpart of the clearing-Mr. Reed act-ing as pilot, but without his rod. erally, in the Hersey. They are slimmer than the trout, very round They soon commenced to rise to the and muscular, handsomely marked fly, and the first one that struck it I with small black dots along the sides hooked, weighing about six ounces, with a round well-shaped head, and and measuring ten and a half inches very large, bright, prominent eyes-making a very handsome fish, as well long. I handled him just as I would as a very powerful and gamey one. Fred. Mather, of Honeoye Falls, N. Y., had given a very good description a brook trout with my six ounce bamboo rod, light line, leader and reel, the same as for fine trout fishing. I soon found he was amazing of this fish during spawning time, in "forest and stream," in one of the smart; as quick as a flash and as strong as a young Samson. As soon April or May numbers, to which I as hooked he darted down stream for would refer the reader for a fuller some roots by the side of the .bank description: Those taken in a warm in the water, but the spring of the day have a very peculiar, pungent smell, said to resemble the thyme, which with their three colors, I supspeed, and he turned up and across pose, gives them their scientific name the stream for a bush in the water of Thymalus Tricolor. Their flesh is white, fine-grained and tender. like the white fish, and about the same in quality, not quite equal to the brook trout. Their bones are like the trout their ribs and back bones clearing tender flesh very free from bones, and nian Institute has received specimens easily prepared for the mouth. It is common to weep without like the English." much suffering, and equally common to suffor keenly without shedding

tears.

## A STRONG WITNESS.

There are human crocodiles who could pour forth eye-water enough to swim in, without experiencing a single pang 

ife brings with it its lamps. One who meriteth esteem need never lack a friend. A strong mind may be tempted,

but will not yield. We all have enemies, and all have need of friends.

A proud heart and lofty mountain are never fruitful.

Man who man would be must rule the empire of himself. If thou hopest for mercy in Heaven,

show justice on earth. Each word of kindness, come whence it may, is welcome to the

poor. So long as you are innocent fear nothing. No one can harm you. Good company and good conversation are the very sinews of virtue. Unbelief is the confidence of all sins, and binds them all down upon

us. 'Tis God like magnanimity to keep. when most provoked, our reason calm and clear.

Laws, like sausages, would fail to inspire respect if all people knew "No. I didn't count rem ; but I'll how they were made.

Wilson had a witness on his side

August on the average once, in from for Wilson's interest to make the
