Grand logic this, that wriggles a dispolitical party that deliberately upholds slavery, and another is the crime of the political party that turns against its country in time of war. Of both these atrocious crimes has the Democratic party been emphatically and persistently guilty. Hence though it may ever so humbly seek our forgiveness, we have a two fold reason for withholding it.

I have not mentioned by name the negro-murderin. "White Leaguers." Like the Ku-Klux outlaws they are simply Democrats. Both are fired with the spirits and aims of the Democracy, and "it is set on | fire of bell."

JOTTINGS ABOUT TOWN, BY A SOJOURN-EB. AN INQUISE INTO THE MEANING OF THE Terms Politics, Politicians, etc., as made use of BY THE INDEPENDENT (?) PRESS, AND A DE-PRESSED DEMOCRACY. We have been so bewildered as to the correct meaning of the words 'rolitical" and "politician, of late, particularly as they are made use of by the papers claiming to be independent, that we have been compelled to seek anew for a definition that had the stamp of authority.

Wensten defines a politician to be "a man

verted in the science of government, and in the art of governing." We always supposed that government, and all that appertained to goverdment, was entirely respectable, until these independent papers inform us, with an air of supernal sanctity, that they are not "political papers." We are still farther confused the conviction of anything as that, according to their own estimate of the word, they were attaches to a time-serving policy, is so openly apparent in their conduct, as to fix the attention irresistibly. They invite covert enmity to strike through their columns, in the form of ent, at least in theory, and with the "free discussion." They announce that they of ail men.
