I mention this charitable Institution, of which I am proud, so that if there be any therefore at best but an indifferent of your readers who, suffering from any and cheaper substitute for animal and dangerous ailment of the eyes or cars, and too indigent to obtain surgical skill at home, they may here find relief without other cost than the price of the passage to and from the Institution.

The Board of Managers are among the most honored of our citizens; among them are Wm. F. Griffiths, George B. Wood, M. D., John M. Whitall, Thos. Wistar, John F. Cope, Alex. E. Harvey, and D. Clark Wharton. I confess I am at a loss to know how the Institution accomplishes so much, as it is without endowment from city, State, or individuals. I imagine, however, that

the bulk of the voluntary contributions which maintains it comes from its own board of management. Of such, I pre-sume, is the kingdom of heaven.

STEPPETH DOWN AND OUT. Four of the Managers of the House of Correction recently resigned suddenly. The last official act they ilid was to request a fellow member of their Board to resign, as his room was better than his company. The advice was unheeded, and Barlow, who was invited to step out, made formal chaages of "irregularities," and City Councils, which elected the
