MORRIS J. COOLBAUGH, of Wysox, is a son of the late SAMU-EL COOLBAUGH, one of the oldest citizens of the county. He has several brothers who are, like himself, influential, active business men. Mr. C. is a sticcessful farmer, and is peculiarly fitted for the intricate and responsible duties devolving upon the office for which he has been nominated. His celleague,

CAPT. GEO. W. KILMER, also comes of an old and respectable family, and like Mr. COOLBAUGH, has never held any office. He was a brave soldier, and earned not only promotion, but the confidence of his superior officers and the esteem and respect of his men. For the past ten years he has given his attention to farming, and has proven himself successful. The interests of the county could be entrusted to no more wor-

thy or prudent officers. In connection with the Commissioners, upon the County Auditors. fall most important duties, and the the requirements of the position.

DANVERSE BOURNE, the successful teacher, business man and farmer, has for years been a leadmentioned in connection with impor-tant offices, but he has never aspired to any political position. It august in this country, and probably none in the ligence will show this to be unnee for Auditor is

BLOOMSBURG NORMAL SCHOOL. Destruction of a Portion of the Buildings by Fire-BLOOMSBURG, Pa., September 5,-About four o'clock yesterday afternoon smoke was seen issuing from the roof of the boarding hall of the Normal School buildings at the south-west corner. Immediate alarm the rescue. Before anything could be done the fire had progressed in the yond all control. The wind was blowing strongly to the southeast, carrying slate, cinders and coals off from the town, which alone saved it the Republican party passed such laws as from destruction. The fire followed were deemed beneficial to temperance, around the roof and timbers and around the roof and timbers and cornice, which fell in and out, increasing the burning and making access perilous. Most of the furniture and clothing of the students were saved : also a part of the valuable libary and apparatus. Last night a large portion of the walls fell in. mainly on the south and north wings. pensive, as well as where they were pro-hibited. Read the article from the Blair The origin of the fire is a mystery; The building seems to be a total loss. AND THEN ON THIS. William B. Reed's New York World seems to be forgetful that there is such a thing as enlightened and patriotic public opinion on most public uestions. That it should now justify and rejoice at the destruction of property by the torch in civilized warfare, as was done by a vandal command in Chambersburg, will create little surprise when it is remembered that Mr. Reed, its editor.

openly justified rebellion in every way not demanding manly courage in support of his teachings. That he was a traitor was of little indirent, for the country had enough to spare and without him: but when he added the cowardice that made him shun the people whose cause he espoused, and remain with those whose government he wished to destroy, and whose homes he even yet boasts were reduced to ashes, he flung himself beyond the pale of pity, and distanced contempt in his race for infamy. We give Mr. Reed and his World, both villing slaves of the corrupt political control of this city and State, the gentle reminder that the independent ress and honest people of all parties n Pennsylvania will take ample care of our debauched public officials, and in due time will hurl them from power with all their hireling dependents; and when they go in search of public defaulters they will not take their key-note from a fugitive thief. who hates the State that once honored him because her peeple are just. -Philadelphia Times (McClurc). ber 23d, 1874, by direction of Superintendent Walling, he accompanied Westervelt to Poughkeepsie and had a consultation with the prisoner concerning Mosher and Douglass. In this conversation Westervelt had detailed a trip he had taken with Mosher and Douglass in September. proceeding to Rondout and Eddyville, and it was manifestly regarded as of considerable importance by

the New York detective force. He

testified that on the night of Decem-

counsel on both sides. The witness testified that in answer to his question as to wether Charlie Ross was with the party on that occasion, Westervelt had answer, "no, he was not with us that was given, and the citizens rushed to time." Another point of interest and importance was Westervelt's declaration to the witness that if Superintendent Walling had him, Westervelt, reappointed on the police force he would have brought to light Mosher Douglass and Charlie Ross; but he was not going to do the work and let somebody else get the credit. Other wittnesses were examined but nothing new elicited. A number of anonymous letters written to Mr. Ross, offering to deliver Charlie to his parents for re-

ward, were indentified as being in

the hand of William Mosher who was

The construction of new Hestoriville. At all events, he was apparatus for the practical working not at home. The rebel commander of the vapor has been attended with announced his intention to burn the difficulties which even Mr. Keely did house, and, on being remonstrated not foresee. As an instance of this with, and told it was not the usage may be noted the fact that at one of civilized war to destroy private time it was impossible to use the property, he grimly admitted the power wite a less pressure than 1,000 rule, but dehied the application to pounds to the square inch. To obvi-Colonel Alexander McClure, whose ate this difficulty, Mr. Keely has had vapor with any pressure from one pound to 30,000 pounds to the square inch. The force, however, leaves passed through these various receivers. Another difficulty was the propact to withstand the enormous pressure. Most metals are useless because they permit the vapor to pass through the pores. It is stated that when the multiplicator was completed and put under the hydraulic press to

be tested, several ruptures were caus-

perfect, and is ready to take oath

to the accuracy of the force it regis.

ed through which the water passed. The material at first was wholly of Austrain gun metal. The rupture occured in two of the upper drums or spheres. It was necessary to recast them. This time the material used was phospher bronze, a new metal, said to possess most excellent qualities, and to be perfectly compact. The manuer of testing the multiplicator is to put it under the hydraulic press with a pressure of ten thousand pounds. It is allowed to remain in the press from twenty four to forty-eight hours, during which time, however, careful watch is kept of the machine. Whenever a leak is discovered, men are im mediately put to work to hammer the metal a: that particular spot. This is the only way it can be secured. Sometimes the leak is discovered by small drops of water similar to the condensed vapor on the outside of a pitcher on a warm day; at other times it oozes out in fine spray. Th testing and hamering process is sta going on, and, until the multiplicator s perfectly compact in all its parts. nothing can be accomplished. When this end is gained it will be taken into Mr. Keely's new shop; where a limited number of members of the press will be admitted. There is a constant stream of visitors to Mr Keely's workshop, but they are only experts, and such as have an interest in the affair. "We shall be glad to

admit such representatives of the Mr. Collier, "but we want to first perfect our apparatus so we can give ry to every one. When we are once ready, we shall show you something that will astonish you." It is possible this will be inside of a month. SCRANTON, Pa., Sept. 1.—A duellis- Mr. Keely is more elevated in spirits ereditors of that institution. "LET NO GUILTY MAN ESCAPE."

The President has again given to the country a few ringing words that are destined to take their place by the side of those terse expressions which have already become famous to the Secretary of the Treasury, he made an endorsement of his views on whisky frauds. | No one can mistake the closing words. "Let no guilty man escape, if it can be avoided. B specially vigilant, or instruct those engaged in the prosecution of fraud to be against all who insinuate that they have high influence to protect them. No personal consideration should stand in the way of performing

These words indicate the Presi dent's policy toward those who prove unfaithful or dishonest. Secretary Bristow reflects this policy in all of his official acts. The Republican party has made it a plank in its platform. The best devised system of Government cannot secure perfection The best intentions on the part of those intrusted with authority cannot keep men from proving unfaithful. The best that can be done is to exer cise good judgment in selecting med for responsible positions, and make an example of those who prove dihonest. This the President has done in the past—this he will continue to do in the future. No guilty man can hope for exemption under the admin istration. No innocent man will be condemned because his enemies clauleading trait in the President's character, and no personal consideration could tempt him to dim its lustre by

compromising a wrong. " Let no quilty man escape if if car be avoided." These words should ring from the stump and forum; they should be written in letters of gold
