The advantage is in having one general While the Grecian mind was wrestling with Geometry, it could cope with all the rule of obvious application, instead of powers of the earth, but when literature became the absorbing theme, the fire died Solution by Prismoidal Formula of away from Grecian thoughts and deeds, and the fairest of lands fell into the pow-PROBLÉM. How many feet of humber, board meast er of the more stury and resolute Roman. But the captor was here led captive. The softening influences of cultivated manners and literature again worked SOLUTION. the rain of a prosperous people. The $(122 \pm 4 \times 11^2 \pm 10^2) \times 16$ -6ths $\times 1$ -12th = barbarian swept Rome and her literature from Italy, but while the people perished 161 and 7-9ths feet. Inc. This is correct theoretically, but practhe language was preserved. Through the gloom of Medizeval darkness, we may tically the stick would cut to waste. PROBLEM. discern the faint glimpses of Christianity. There seems to be some discussion of Perverted as it was, torn in pieces and the following problem : If a cable 3 inches put together to suit the caprice of those in circumference supports 2,500 bounds, who assumed to control it, there still re-

mained the impress of the Master. The Latin and Greek had done a noble work The strengths of cables, rods, etc., vary | in preserving the Scriptures, but priest-

Buyers than into the reason of things, and to reject Pennsylvan such propositions as defied judgment and reason. The principles of truth were triumphant, but the worn-out soil of Europe Address real before the Bradford County, Teahers' was hardly cultivated to give them a high

practical development, and the wilds of America became peopled by men who had learned to think for themselves, and to reason for definite conclusions rather than

Mathematics is not the only branch of science for which we may claim great usefulness in the promotion of truth. Based upon it are those closely-allied sciences: Botany, Geology and Chemistry; while

Natural Philosophy applies our Geometry to nearly every use for which we may desire it.

Time forbids us to follow in detail the carious ways in which the study of the sciences develop true manhood. All have AS AYER'S CBERRY PECTOBAL. It has been seen in the opening flower and the perfected fruit, that nature rerformed her known to the public about forty years, by a long work by an unerring plan. She makes no blunders, and fails in no particular, ; To won for it a confidence in its virtues, new her we may safely go for instruction, for by any other medicine. It still makes the most efdevelopment, for education. Here we fectual curos of Coughs, Colds, and Consumptio may find moral culture; here we may
