I came to Kansas about the Mik of August, 1875—came as far as Topoka, where met with some old friends from Bradford;-Mr. Thomas Ryan, Chet. Thomas and Dolph Thomas, and others. I attended the County Fair, and became satisfied that the grasshoppers had not destroyed everytning that year; so after staying for three months in Shawnee County, I concluded there was too much sickness there and their prin cipal grop was corn ; wheat did not do well there I then set out for Wichita, passing through nice valleys and along streams of clear running water, I soon came to Wichita, the present terminus of a tiful town, nearly as large as Towanda, and situated on the Arkansas river. It being dark when came to Wichita, I could not see much of the town omewhat surprised in the morning about 10 o'clock to see about three hundred wagons all loaded with day, but could not hardly believe my friend when he fold me that it was an everydays' occurrence with the honest farmers for blockading the street

> reached the great producing country of the West. Finding was no siekness, and the climate warm and pleasant, the prairie just as nice as could be desiried, mostly rolling a little to the south or east, and everything beyond my imagination, thought it was not worth while to go any farther, so I took a claim on what is called the trust lands, (160 acres), it costs \$1.25 per acre. There is lots of good claims to be taken yet, and lots of 'railroad lands; the railroad land is held at from \$5 to \$5 pe acre. The land is just as nice as the celebrated Towarda Flots, and very productive, almost everything that is put in the ground is bound to make crop. Especially wheat and corn, and sweet potatoes, cotton, tobacco, and peanuts, etc., are cultivated to some extent, but there are no manufacte ries to encourage the culture of cotton.
