Hoelm. THE PARMER'S WIFE. The farmer came from the field one day; ills languld step and his weary way, His bended brow, his sinewy hand, all showed his work for the good of the land; For he sows, And he hoes, And he mown. All for the good of the land. By the kitchen fire atood his patient wife, Light of his home and joy of his life, With face all aglow and busy hand, Preparing the meal for the husband's band, For she must bell, And she must broll, And she must toll, All for the good of the home he bright sun shines when the farmer goes out sing sweet songs, lambs frisk about The brook babbles softly in the glen hile he works so bravely for the good of men. For he sows. And he mows, All for the good of the land. low briskly the wife steps shout within he dishes to wash, the milk to skim; he fire goes out, the fles buzz aboutor the dear ones at home her heart is kept There are ples to make, There is break to bake, And steps to take All for the sake of home. hen the day is o'er, and the evening is come, he creatures are fed, the milking done, rom the labor of the land his thoughts. Though he sows, And he hoes, And he mows at the falthful wife, from sun to sun, akes her burden up that's never done; e is no rest, there is no play, or the good of the house she must work away; For to mend the frock. And to knit the sock, . And the eradle to rock, All for the good of the home hen autumn is here, with its chilling blast, lis barns are full, his fields are bare or the good of the land he ne'er hath care While it blows, And it snows, Till winter goes, He rests from the work of the land ut the willing wife, till life's closing day, is the children's guide, the husband's stay; from day to day she has done her best Until death alone can give her rest; For after the test Comes the rest, With the blest, In the farmer's heavenly h Miscellancons. A Collector's Story "Good-bye, dear," I said, after had put on my coat and gathered up She took hold of my wrist and dereat Newfoundland dog; he came from her, jumped into the sleigh and curled himself at my feet. ble dog; but it never occurred to me girl. The dog will only be a botheration to me, and ten to one you'll want him here before I get back." "Now, John, please do take himor me! Please do take him, John -take him, just/because your silly. little wife is afroid to have you go filling in the roadway to the depth of found the sleighing excellent. Chevalier's hoofs glanced nimbly over the snow, and in two hours I had made more than twenty miles, and had stomers. He received me with a carty welcome, and when I told him what my mission was, he invited me to make his cabin my headquar ters while I remained in the neighporhood. I thankfully accepted the invitation, stayed all night, and the next morning, under the guidance of Dick, my host's youngest son, a clever boy of about thirteen. I started out to make my first experiment in collecting. It does not concern my story to describe everything that happened to me during my stay with poured out the money on the floor.

Or, one will think of a musical air, and the other at once begin to whistle or hum it. Women have the

faculty of divining the thoughts and feelings of those with whom they associate in a more marked degree than men, or, as it is said, the have more tact than men. * * * *

It is worthy of note, too that all

the stories of apparitions indicate that they were produced by impressions from within and not by objects from external space. They are described as appearing and disappearing instantly, and in disregard of vsical laws. The angels, in the Biblical record, do not come flying through the air, and approach gradually, as, if from a distance, but manifest themselves, as we are expressly told in the case of the shepherds of Bethlehem, "suddenl"." Thus the eyes of the young man who was low color. Red, another favorite with Elisha are said to have been opened in compliance with Elisha's prayer, and he saw the mountain full as red lead and vermillion are also of horses and chariots of fire round about Elisha, which previously be did not see. So St. Stephen and St. Paul had visions which were invisible to their companions, and St. John &c., all of which must be classed as prefaces his Apocalyptic utterances by saying that "a door was opened in heaven." The supposition does very dangerous substances. These colors can be obtained by using vegnot detract from the truth, of which and although the tints are then less these visions were symbols, but by brilliant, this fact is certainly no ex- rendering them creditable to the sci cuse for resorting to poisonous pig entific minds, adds to their practical ients. In regard to the detection of value.—North American Review.
