FALLING LEAVES.

They are falling, slowly falling,

Thick upon the forest side-

They are falling in the valleys.

Whire the early violets spring,

And the birds in sunny springtin

First their dulcet music ring.

They are falling, sadly falling,

Close beside our cottage door— Pale and faded, like the loved ones

That have gone forever more."

They are falling, and the sanbeams

Shine in beauty soft around;

Yet the faded leaves are falling-

Failing on the grassy mound.

They are falling on the streamlet

And upon its placid bosom * }

Where the silvery waters flow,

Onward with the vesters go.

They are falling in the churchyard Where our kindred sweetly sleep—

Where the idle winds of summer

Softly o'er the loved ones sweep

When the autumn breezes sigh-

When the stars in benuty glisten

Bright upon the midnight sky. They are falling when the tempest Moans like Ocean's hollow rear-

When the tuneless winds and billows

They are falling, they are falling,

To the snnny days of childhood,

And their faded hues reinind us

Cast upon the lay streams.

Of the blighted hopes and dreams-

UDGMENT OF THE PUBLIC!

ing the past five years the public have care During the just five years the public have carefully observed the wonderful cures accomplished from the use of VEGETINE. From its use many an afflicted sufferer has be a restored to perfect health, after, having expended a small fortune in procuring medical advice and obtaining poisonous mineral medicines.

Its medical properties are Albrative Tonic, Solvent and Durrette. There is no disease of the himman system for which the VEGETINE cannot be used with perfect Agricy, as it does tot contain any metalle, or poisonous compound. It is composed exclusively of barks, boots and, herbs; it is very pleasant to take; every child likes it. It is safe and reliable, as the following evidence will show:

A WALKING MIRACLE. MR. H. R. STEVENS: -

Mr. H. R. STEVENS:

Dear Sir.—Though a stranger 1 want to inform you what VEGETINE has done for me.

Last Christinas Serofula made its appearance in my sy-tem—large running uleers appearing on me, as follows: One on each of my arms, one on my thigh, which extended to the sear, one on my head, which became so had, that two physicians came to amputate the lifthy, though myon consultation concluded not to do 20, as my whole body was so full of Serotular; they decumed it advisable to cut the sore, which was part ful beyond description, and there was a quart of matter run from this one sore.

The physicians all gaye me up to the and said sore, which was had beyond description, and there was a quart of matter run from this one sore. The physicians an gaze me up to die, and said they could do no more for me. Both of my legs were drawn up to my rear, and it was thought if idd get up again! Wou'd he a cripple for He.

When in this condition I say VERETINE adverticed, and commenced taking it in March, and followed on with it until I had used statem bottles, and this morning I am going to phoagh corn, a well man. All my towns more cy, it is a miracle to see me found walking and working.

In density of the will add, when I was enduring such great sufering, from that dreadlind disease, Scrofula, I praced to the Lord above to take me out this world, but as VEGETINE has restored to me the bessings of heach, I destromore than ever to live, that I may be of some scrulees to my fellow-men, and I know of no better way by add suffering bunnanity, than to inclose you this statement of my case, with an earnest hope that you will paidled it, and it will afford me pietsure to reply towny communication which I may receive the efform.

I am, Sir, very respectfully.
