

THE DEMOCRATIC CONVENTION.

No little interest was manifested in the Democratic Convention which assembled in the Court House on Tuesday. It had been an open secret for some time that it was not harmonious, and the different clans were busy for a week past in arranging programmes for the occasion; but as we have all long notified the "Young Democracy," all their plans notwithstanding. This result was foreshadowed by the defeat of the anti-Prolet delegates in this borough. The Convention was called to order at 1 o'clock, and Col. MEANS called to order. Just how the Colonel got the Prolet probably ordered the young Irishman who was chosen from the Second Ward, to "step down and out" to make room for a suitable presiding officer. They it as much as they may, PROLET was in Democratic law in the county. WILS BUCK and BURTON DODD were elected Secretaries, and Major TRASK appeared to be a sort of "prompter" for them, as he took his position directly in the rear and frequently directed them what to do.

The first resolution after organization was one declaring Judge Parsons to be the choice of the Convention for Congressman. This motion was speedily squelched, and the Convention proceeded to select a county ticket. After considerable turmoil, the Chairman, decided that J. E. PROLET, L. VAN HORN and I. H. SMITH were nominated for Representatives, but on objection being raised by some, overruled himself, and announced that another ballot would be had in the case of Mr. SMITH. After several ballots, Mr. E. HORTON was declared nominated. It was rather amusing to hear PROLET or other delegates how to vote, and in one case compelled JOHN S. MADDEN to change.

The balance of the ticket was made up as follows: Sheriff, H. B. MORGAN; Prothonotary, ELIAS PARK; Register and Recorder, E. O. WILLEY; Commissioner, M. F. RANSOM; Treasurer, H. McCARTY; Coroner, Dr. LEWIS. After a "brother Joe" was nominated, PROLET took special pains to forestall the Greenbackers, and selected men who have been favorably mentioned by that organization. Time will develop how far the trick to capture them after refusing to fuse with the Greenbackers, will prove successful. When the largest portion of the delegates had departed, the PARSONS resolution was again taken up and passed, not so much as a compliment to our neighbor as a rebuke to DeWitt.

WHEN BURLINGAME made his famous treaty with China, by which secured commercial privileges for the people of the United States, in dealing with the Celestials, which no other nation had acquired, he was recognized as one of the ablest diplomats in the world, and the event hailed in this country as one of great importance. And so it is that will be, if not disturbed by the upheaval of the political passions of the hour. The people of China have become weary of the Chinese, and therefore the President is beseeched daily to take steps for the abrogation of the BURLINGAME treaty. It may be seen by this that it is difficult in times of conflict and rivalry such as those in which we are now involved, to make anything of this character permanent. No wonder, therefore, that the industries are subjected to great fluctuations.

An ably written paper printed in the New York Tribune discusses with powerful argument and facts of great interest the progress of the colored race in the Northern States, reaching the conclusion that all attempts at isolating the race is injurious to it, and invested with great danger to civilization. It is also shown that the condition of the colored men of Indiana is superior in point of cultivation, morals, business development and general qualities essential in well organized men, to that of the race in any other State in the Union. It can with truth be stated that no race of emancipated slaves ever conducted themselves with propriety equal to that of the freedmen. The page of history which describes that epoch will be one of great interest to the student of the future.

The delegate elections come off on Saturday next, and we most earnestly urge upon every conscientious Republican the duty of attending. Much faith is sometimes found with delegates because they do not vote in convention as some of their constituents desire. It cannot be expected that every one will be satisfied, but he constantly, and to all comes, held the same tone, saying on this subject precisely the same thing to his most intimate friends and to casual callers, may be found in the testimony of Major BURKE and Colonel ROBERTS, who swear that in their interviews with him, President HAYES made no promises; but pointed to his letter of acceptance, and said that he did not want the Presidency unless he was fairly elected. Hereafter, the person who imputes fraud to President HAYES in that matter will only brand himself as a wilful falsifier and slanderer.

With the land filled with unemployed labor—the Democrats say three millions, but that is a great exaggeration—the free-trade Democracy propose to import more laborers, or which is the same thing, to bring the products of foreign labor to supply our market free of duty.

OUR FOREIGN TRADE.

The report of the foreign commerce of the United States for June, and for the twelve months ending July 30, is an exceedingly interesting document. The marvelous growth of the exports of domestic products, and the not less remarkable decline of imports, are shown in the following table, in which the exports and imports of merchandise only are given in specie values for 12 fiscal years, ending June 30:

Year.	Exports.	Imports.
1860	\$331,518,192	\$334,812,093
1861	277,631,688	305,753,481
1862	269,600,000	477,436,440
1863	275,000,000	417,505,370
1864	376,614,073	433,938,948
1865	492,283,008	620,228,650
1866	428,477,131	625,593,077
1867	506,235,400	642,130,210
1868	567,427,493	677,697,343
1869	625,484,100	623,005,436
1870	535,382,247	509,741,100
1871	573,807,224	573,825,120
1872	680,838,788	487,051,533

The increase of exports of domestic merchandise since 1868 has been \$111,293,898, or nearly 153 per cent, and since the same year the increase of imports has been only \$79,515,093, or 22 per cent. Excepting the years 1875 and 1876, the increase of exports has been continuous, but more rapid during the last year than in any other except 1870. The imports nearly doubled between 1868 and '73, but since 1873 the decline has been \$205,044,777, or nearly 32 per cent.

GENERAL HARRY HOYT expresses himself as entirely confident of the success of the Republican party at the ensuing election. He would be a sorry candidate if he did not. But if any portion of the Republican party think that the fight is already won, they are laboring under a delusion from which they had better awake. We did not carry the State last fall, and we will not carry it this work there is an amount and of work put into the campaign which last year was seriously lacking. There is a Republican majority in the State, but it is a very lukewarm one, and not apt to make itself felt unless forced to do so. It is a little early to set the fires of enthusiasm in full blaze, but it is none to soon to be looking after the fuel. And it won't do to cast aside the chips and the kindling-wood that are not of much account when the conflagration is fed by some vast popular excitement.—North American.

THE PLAGUE-STROKEN SOUTH.

Ravages of the Yellow Fever. CAIRO, III., Aug. 19.—The Board of Health adopted a resolution this morning, prohibiting the landing of steamers at this port from any direction, except by special permit. This is the largest sum of \$1,315,373.23. The cost of issuing greenbacks is charged to and becomes a tax upon the people. But when the Government issues national bank notes the cost is charged to and paid by the banks. Those who wish to abolish the national banks should make a note of the fact that the making of these bank notes costs the people nothing, while the printing of greenbacks has, up to date, cost the people about \$17,000,000.

The Republicans of Wyoming county have presented Hon. F. C. BRYNELL, as a candidate for Congress, and Susquehanna has put forward Senator WATSON. It is understood that Mr. W. does not expect the nomination, but is favorable to Col. OVERTON.

The Democratic aspirants for office who staked their chances on a postponement of the convention until after the Greenbacks had met, feel quite cheap but they are saved the greater humiliation of being defeated at the polls in November.

We congratulate brother TAYLOR of the Independent Republican Montrose on his nomination by the Republicans of Susquehanna county for a seat in the Legislature.

The Republicans of this county are as unanimous and enthusiastic over OVERTON'S renomination as they ever were for WILSON, GROW and MENZIE.

A. P. STEPHENS has been nominated by Susquehanna county for the State Senate. We hope he may be successful in the conference.

GOLB, within a few days, has sold as low as 3 per cent. premium, and it is probable it will not gain beyond 4. Within six weeks, at farthest, it is predicted that it will be at par with greenbacks, when resumption will be practically attained. Thus the main plank of the Greenback Labor party will have disappeared. They should now, one and all, support the Republican policy which has brought about this grand financial achievement, and which has also, by its firm adherence to protective principles, sedulously and successfully maintained home industry, upon which alone the country's prosperity depends.

Mp. S. R. MASON, the Pennsylvania Greenback candidate for Governor, addressed a meeting recently at Point Chataqua, New York. If it is reported correctly his remarks on the occasion were those of a first class repudiator.

"When he touched upon the bonds, the Jamestown Democrat says, he got wild, and even to the Greenbackers' soul, he talked treason. He said he never expected to see the bonds paid; he did not want them paid, but he said the government to reduce the interest to 3 per cent, as in England. He thought it would be well enough to keep the bonds for forty years, but he said the government would be paid, and that was the right way. This gave rise to great excitement, and even to the gentleman in the audience, addressing the speaker, in a loud and determined voice, said: 'If that is Greenback doctrine, then I am an Greenbacker.' Thereupon, without any formal adjournment, the meeting broke up in disorder, and the efforts of the speaker to secure a resolution of the president to secure a resolution to other speakers.

A TERRIBLE AFFAIR.

Lightning struck Powder Magazine and Explosives L200 Kegs of Powder—A Party of Business Men—Several Killed and Many Others Badly Maimed—Buildings Torn Down and Immense Other Damage Done—Narrow Escapes. PORTSMOUTH, Pa., Aug. 18.—During a storm yesterday afternoon, the powder magazine of Welly & Co., on the outskirts of this place, was struck by lightning. There were eleven hundred kegs of powder in the building, and a terrible explosion ensued, completely wrecking the magazine, and scattering the debris with terrific force in an easterly direction, making a gap in the woods fifty feet wide. A picnic party was assembled in the woods a short distance below the magazine, and several of the party were more or less injured by flying stones, timber, &c. Mr. J. M. BILKINSKY, aged fifteen years, of Edenburg, Clarion County, recently attempted to commit suicide with a revolver, and was taken to the hospital at Clarion.

A WESTERNLAND County farmer has discovered a process for making sugar from cornstarch at a cost of three cents a pound. The process is simple and the product is of a quality equal to that of sugar from the cane. The farmer, who is a resident of Westmoreland County, has been successful in his experiments, and he is now preparing to put his process on a large scale.
