absolute control of the Government. by removing all obstacles in the way of illegal practices at the polls and by returning boards, forced the issues in the late Senate, which are now to be renewed, making the conflict between Congress and the President. The programme as now announced is to pass bills repealing the obnoxious laws, and if the Presidential veto is interposed to attach these re pealing clauses to the appropriation bills. What the restrictions are that the Democracy demands shall be removed, has already been shown in these columns. A portion perhaps

might be acceded to, with safety, but the measure repealing the clause of the Federal election law, providing for the appointment of Supervisors and Marshals, cannot be; granted. without surrendering the right of the Government to prevent violence and fraud at Congressional elections by the exercise of an effective supervision. To forego the exercise of this

right, is to open the doors to every species of violence and fraud in the Convention is received with great South, and not only to virtually dis- enthusiasm by the Republicans of franchise the colored voter there, but | the District, who may well congratualso every man who desires to cast a late themselves that they have the Republican vote.

This is the true issue now forced upon the President. The attempt to standing and character for intellicoerce the Senate having been partially successful, the struggle is now between Congress and the President. There is no question as to what the action of the President will be, and

the importance of the contest and the necessity for unity of purpose and concert of action between the Republicans in Congress and the Administration is already producing good effects. There is every prospect that in a very short time there will be entire harmony in the Republican ranks, and all the personal grievances and petty dissensions the depreciation of property, which will be forgotten and obliterated by must necessarily follow an era of exthe great danger that threatens the
