COODRICH & HITCHCOCK, Publishers,

VOLUME XL.

Lie in my attic, all alone,

Foetry,

A MORNING DREAM.

From tranquil shade or woodland lawns,

And dream the while the morning dawns.

I, far removed from meadows green,"

About my brain there flit, like birds

I hear old, unforgotten words,

Old odors, o'den sorgs, perhaps-

Come back, and all the long clapse

I know I'm dreaming ; if I waka

My daily labor, hard and stern,

Gives me such wages as I carn,

In duty done to find content :

Half garden, half a desert bright,

I see you as you stood, I hear

Where list I saw you face to face.

And all the sounds far off and near,

Making a prelude to your words,

Its giant arms, that turned and rolled

In dizzy motion, quickly whirled.

Above our heads ; the golden hees,

freasured with honey-laden thigh,

I look beyond, acress the world,

I see the older us wheeling high

Likewing d insect argostes. I see it all; it fados and dies

Into the gray of waking hours,

Ob, weary hght ! that comes to glad

As rainbows fade in summer skies, Wh'se brilliant color, mocked the flowers

A han lred Learts no smile you being

To tae, whose heart, though now so sail,

Was once as light as swallow's wing,

Oh, fields ! where actor more my feet

In dreams 1 smell your fragrance sweet.

And see the corn flowers sway and blow.

-William Geoghegan in Celtie Monthly

Selected Tale.

The Right Man After All.

Will thead, as in the long ago,

I shall descend to narrow days

The time I'd spent he other ways.

Gives me so little, takes so much ;

But chills my life with ley touch.

There's nothing left. Values I thick

Each dawning day wakes me to shrink

From life, irom which the soul seems rent

Whose tall starks swayed in that still place,

Your voice that rab gled with the birds',

To where the windmill stood and hurl'd

anxiously.

Thoughts of a past successing fair ;

Remembered footsteps on the stair.

Sleep seems to melt them into en-

Of time rolls back to days long gone.

such an aversion to bloodshed as I have; and yet I've had more ques-It has of late grown to be an axiom tions of life and death to settle in that the larger the gun the larger four years than all the men who ever must be the grains of powder. A sat in this chair put together. But I've managed to get along and do large grain of gunpowder burns slow because the fire is sometime reaching my duty, as I believe, and still save most of them; and there's no man the centre, and a slow-burning powknows the distress of my mind. But der is what artillerists require for there have been some of them I rifled guns. In a smoothe bore weapon the cannon ball fits loosely, and ouldn't save-there are some cases may be expelled at a bound; but in where the law must be executed. There was that man _____, who rifled cannon the shot, so to speak, moves upon a sort of railway, and it was sentenced for piracy and slave would never do to get the shot into trading on the high seas. That was motion too suddenly. An undue a case where there must be an ex-

strain would be exerted upon the ample, and you don't know how many followed and pressed to get gun, while the velocity of the shot would not be increased. For a rifled him pardoned, or his sentence comgun, therefore, a slow burning charge muted; but there was no use of talks absolutely necessary, and this is ing. It had to be done; I couldn't to be secured only by reducing the surface to be kindled. In the case who was caught spying and recruitof the prismatic powder, the grains, if they may be called by that name, are so closely packed that no fire can get between them, and hence the action of kindling is still further reduced. Not only is the shape and density of powder grains now attracting puticular attention, but the perentage of moisture contained in the material has also lately been under study. The amount of water in gunpowder to the minute extent existing in ordinary, samples is found to influence-combustion in a very marked degree, and nothing but an exhaustive series of trials can give sufficient

data for practical application for so important an element in the science of explosives. In the meantime chemists are pointing out yet another source of uncertainty to the combustion of gunpowder, to-,which, notwithstanding their repeated warning, but little attention has hitherto been given.' We mean the composition of the charcoal. According to the manner of preparing this, the

Mrs. Mornington was dead. The thought of saying no to such stately piece of oratory as that had spent all her money. So Viola rightened and fluttered her. But she was not an heiress, after all. did say it, very sweetly and And the neighbors said, "After gracefully, but also very decidedly, she found she could not get either and Mr. Nicholson went away very of those city fellows, and that old Viola had been out for a walk. On red in the face and a good deal crest- lady disappointed her about her money, she came back here and took fallen. She went up stairs to Mrs. Morn- John Ellsworth.
