REPUBLICAN STATE TICKET.

FOR STATE TREASURER, HON. SAMUEL BUTLER, OF CHESTER COUNTY.

REPUBLICAN COUNTY TICKET.

FOR JURY COMMISSIONER, VOLNEY M. WILSON, OF ALBA BOROUGH.

FOR CORONER, DR. VOLNEY HOMET, OF WYALISING.

WHEN the shot-gun was used to persuade the voter, it caused a waste of ammunition, as satisfactory results can be obtained more readily and economically by disposing of the candidate.

The Ohio Democrats are not taking any longer whether they can carry the State, but how much majority FORNEY will be satisfied with. BLAIR says, "I feel in my bones that we are going to sweep the State"—and he knows as well as anybody how matters stand in Maine.

The Grand Jury of Dauphin county found four true bills against the Lancaster New Era people for libel on complaint of Messrs. ZIMMERMAN and BROWN. A continuance was asked for by the defendants, and allowed by the Court, against the protest of the District attorney.

The efficiency with which the shot-gun is handled down South, probably brought about the recommendation of the Board of Officers, that the cavalry shall be furnished with smooth-bore revolvers and buckshot cartridges. The shot-gun with buckshot is an efficient weapon, while the revolver as now used is apt to discourage bystanders.

DISSENTS WITH THE "Crawford" constitution is being expressed by the most intelligent Republicans of Susquehanna County. A Meyersdale letter says: "The perversion of the primary system has become an evil of such magnitude that a convention has been called to adopt some better method of making nominations."

The Chairman of the Democratic State Committee has issued a lengthy address to the Democracy of Pennsylvania. It recites the wicked doings of the Republicans from the date of the repeal of the tonnage tax to the riotous business developed in the present Legislature, with a careful omission of any share of culpability that should rest on Democratic shoulders.

PETER HENRIC, charged with obtaining money under false pretences, was tried last week, at Bellefonte, the jury bringing in a verdict of not guilty. After the verdict was declared, Henric made a short speech, in which he protested that he never intended to wrong any man in that place, that he would again return to active pursuits and endeavor to make just settlements with those to whom he was indebted.

THE TRIDEN cause is booming. The Franklin county delegation in the next State Convention is solid for the sake of Gramercy Park. By the time the Democratic National Convention assembles, the haul of money will settle the question. The average democrat will not fail to remember the fact that the elevated railway cost million from the Elevated Railway, which would buy several electoral votes.

The tea dealers of New York, have been raising a "tempest in a tea pot," or rather creating a disturbance with the dealers in tea pots. The tea men have been presenting their customers with history; and in retaliation the crockery dealers have commenced supplying their customers with tea at cost price. Altogether it is a very pretty game as it stands and those who indulge in the "cup that cheers but not inebriates," are the gainers.

GENERAL GRANT says he does not again desire to be President. He sold his Presidency, but CONGRESS AMEX, who attended the Canal Congress as the representative of the United States has assurance from the General that he will accept the Presidency if any responsible intercorporate ship canal company, which would be a much more agreeable place to hold than the dispensing of offices at Washington.

The *Miner's Journal* has discovered that a number of the members of the Pottsville School Board have been presented with \$10 dictionaries by an agent for school books, who thereby induced them to buy of his stock. It would be well, if occasionally those interested in education, might investigate the means employed to change school books, and to introduce the books of other publishers. It would be found that sometimes arguments more powerful than dictionaries are used.

Fraud complaints of TRIDEN that he is a member of the Elevated Railway at \$14 per share and while he was trying to keep up the price, in New York, and was on his way to London to promote the interest of the stockholders, the sage of Gramercy Park sold at figures nearly up to \$30—pocketing a cool million. It is one of those operations which might be called "smart" in Wall street, but which common people would consider as a little "off color."

The scientific fellows and medical experts don't give a suspected man any chance of escape now-a-days. To be sure, they don't always agree, and are apt to be mistaken in their conclusions as any body else, but nevertheless they advance their theories and state their conclusions so readily and positively that if a jury would be governed by them, criminals would never escape the gallows. The latest discovery of the case of Rev. Mr. HAYNES, of Connecticut, accused of the murder of MARY STANNARD, whose death wound was a stab in the neck. The muscles of the neck, near the stab have been resolved to their original elements, to discover any foreign matter, such as a speck of steel. (When that which had been MARY STANNARD's neck became the microscope was put upon the clean white paper that would catch any foreign substance and hold it. To the naked eye there appeared on the paper nothing more than a speck, like dust, that a whiff of wind might have blown there. But upon it the microscope placed a glass that made one hair seem resolved into a rusty little piece of steel, with clearly defined form. It must have come

from the blade of the knife that killed MARY STANNARD. Now the glass is run along the blade of the Rev. Mr. HAYNES's knife, on which Professor WHITE found blood. There are one or two little nicks easily seen in it, too large to match this blade piece. The last defect is discovered; it seems as though the little speck on the white paper, if applied to this defect, would exactly fit it, and by the most delicate manipulation the fitting is successfully done, and the prosecuting officers are informed that the savants have discovered a speck of iron that dropped from the bloody parts around the wound that just fits in the blade of the Rev. Mr. HAYNES's knife.

THE fuss made about the over-issue of State bonds, seems to have been a great cry with a small amount of wool. However, it is not a peg on which to hang a Legislative Committee, who have been visiting the watering places at the expense of the Commonwealth. Now Chairman DAVIS says the Committee will meet in Philadelphia in September, and report that no bonds have been lost, and that the mystery was cleared up by the examination of the book found containing the bond numbers.

WHILE this country is rejoicing in the prospects of immense crops, all accounts represent the outlook in Great Britain as very gloomy. Consistent wet weather has caused a failure in most of the agricultural productions, which will be very large and cause a deficiency estimated at over a hundred millions of dollars. Fortunately we can feed the old world if necessary, and there is every reason to anticipate a demand for our breadstuffs and provisions which will add greatly to the tide of prosperity which is beginning to manifest itself here.

GEN. GRANT is expected to arrive in San Francisco about the 15th inst. Meanwhile we do not see any indications of the monster delegations which were to greet him on the western shore, and the General will be greeted by a few personal friends, and welcomed on his return by the mass. It is said by a gentleman who is in correspondence with the General, that as soon as he arrives in the country he will, in some authoritative way, deny that he is or can be a candidate for Presidential honors. Don't believe it. That's not the General's style. He is not in the habit of declining honors before they are offered.

OUR Elmira friends, who never do things by halves, anticipated a big time at their New York Centennial. But what was expected to be a shower, turned out to be a deluge, and it proportions grew beyond the control of the managers. Excepting as to numbers, it was a lamentable failure. It is the result of the attempt to bring up things which were not intended to be brought up, and the next Centennial is so remote that it need have no terror for the present generation.

GOVERNOR TRIVY has promised to deliver the address at the opening of the Agricultural State Fair at the Permanent Exhibition Building, Philadelphia, on Tuesday next. The occasion will be one of great interest to the agriculturists not only of Pennsylvania, but to their neighbors of New Jersey, New York, Delaware and Maryland. The *Ledger* says the Governor in his address to call attention to the fact that there are ample lands in Pennsylvania, available to those who think of going into agriculture, without going to the far West. The advantages offered to settlers who conclude to emigrate in their own State, and to those of other States and from Europe, who come here to settle, are such as to make it need have no terror for the present generation.

A cow belonging to Mr. Abram Quay, of Glenloch, died. It was feared with pleuro-pneumonia. On opening the chest, there was found imbedded in the heart a darning needle, between three and four inches long. The needle, to all appearances, had been swallowed some time ago as it was very much discolored and looked as if it had been in the stomach.

On Thursday evening of last week, the congregation started for a stream of water, about half a mile distant, to witness the ordinance of baptism administered in the moonlight. Three children were present, and were baptized in the water. The house was discovered to be on fire, and two of the children were saved, but the third perished in the flames.

The Grand Jury of Dauphin county have filed fourteen bills of indictment for corrupt solicitation in and about the Legislature, for perjury and for conspiracy to promote legislative corruption. The names and politics of the persons indicted, are as follows:
