TO MAKE CLOTH WATERPROOF.—Any kind of cloth may be rendered waterproof by the following simple and inexpensive mixture: To one ounce of melted white wax add one quart of spirits of turpentine. When thoroughly mixed and cold, dip the cloth in it and hang it up to dry.

CURE FOR INGROWING NAILS ON TOES.—Take a little tallow and put it into a spoon and heat it over the lamp until it becomes very hot; then put it on the sore or granulation. The effect will be almost magical. The operation causes very little pain if the tallow is perfectly heated.

SNOW CUSTARD.—Beat eight eggs, leaving out the whites of four; add them to one quart of milk and five ounces of sugar; have a shallow pan of hot water in the oven; set the dish into it, and bake till the custard is thick; then take it out and set it away to cool, beat the remaining whites very light; add a half pound of sugar gradually, and a teaspoonful of lemon juice. When the custard is cold lay the whites over the top in heaps, but do not let them touch.

SWEATBREAD PIE.—Parboil a couple of sweatbreads, lay them in cold water, and remove the skin carefully. Fry them in butter with a few shallots, minced fine; when a nice color cut them up in pieces. Have ready the following forcemeat made into balls: Breadcrumbs soaked in milk, three yolks of eggs, a little lemon-peel and lemon-juice, a few sardines and parboiled oysters, all chopped up. Fill your pie with layers of sweatbreads and forcemeat-balls and bake one hour.

HONEY-COMB PUDDING.—To one pint of molasses add one cup of brown sugar; beat them well together. Melt a piece of butter the size of an egg in a teacup of milk; add one teaspoonful of saleratus and pour it into the molasses. Beat the whites of six eggs to a stiff froth; add the yolks to the molasses; stir in one teacup of flour; add a little mace and cloves. Stir in the whites, and bake one hour in a moderate oven. Serve with a rich sauce.
