## RANSOM COTTAGE RANGE,

WITH THE

Patent Expansion Broiling Chamber and Smyth's  
Patent Duplex Grate.

WITH OR WITHOUT LOW CLOSET, RESERVOIR OR ORNAMENTAL ELEVATED SHELF.

**The Greatest Combination of Valuable Improvements ever presented in one Range.**

After the flattering experience of the past year, having had a very large and extended sale, we find that THE RANSOM COTTAGE is universally conceded to be the most desirable Range of its class in the market. Its general features are the same as in the celebrated Ransom Range, which has for years been considered the finest Range made. It contains the Patent Expansion Broiling Chamber, which is universally acknowledged to be the only successful and practical broiling attachment in use. It is also furnished with Smyth's Patent Duplex Grate. This celebrated Grate is extremely simple in its construction. It has now been in a five year use for more than five years, and in view of the universally successful experience of its operation and durability during that time, as well as the highly satisfactory results obtained by us in our own thorough trial of its qualities, we have no hesitation in pronouncing it the only complete and successful arrangement for removing clinkers and refuse from the fire-box instantaneously, thoroughly and cleanly, while the degree of combustion has never, in our opinion, been equaled with any other style of grate.

THE RANSOM COTTAGE is a thoroughly first-class Range in all its proportions and appointments, while the price is extremely low. It is so constructed that it can be changed from a Low Closet to a Single Oven Range by merely lifting the upper part of the Range from the Low Closet and placing it upon a set of ornamental legs. All sizes can also be furnished with the Ornamental Elevated Shelf. The large Baled Ash Pan is taken out at the end of the Range instead of the front—a much more convenient and cleanly arrangement—and the capacious Warming Closet extends underneath the whole Range. The Hot Water Reservoir is heated entirely from the bottom, and is of a larger capacity than will be found on any other Range of this class. All the minor details in the construction of this Range have received the closest attention. It has highly burnished edges, nickel-plated knobs of a new and beautiful pattern, nickel-plated panels, nickel-plated Towel Racks, and the mounting and fitting is in the best style.

**SEE THEIR EXHIBIT ON THE FAIR GROUNDS.**
