ATHENS' INDUSTRIES—No. VII.

CAYUTA WHEEL AND FOUNDRY WORKS, an important indusity very conveniently located between the G. I. & S. and Pa. & N. Y. Railroads, and convenient to each; N. Y. Railroads, and convenient to each; also to the Cayuta creek. This industry was established in the fall of 1872 for the purpose of making car-wheels and doing other casting and work in this line of business. The buildings consist of a main foundry 60x120 feet, a wing 30x40, a machine shop 40x60, a blacksmith shop in it. The lamp, so it is reported was chine shop 40x60, a blacksmith shop 40x28, and an engine room 20x20.

We give a few notes upon their special work, viz: car-wheels. The iron used is from Saulsbury. Conn., and of a superior quality; and being unloaded from a switch of the Pa. & N. Y. road, is very convenient to the charging room, and twenty feet or so above the switch of the G. I. & S. road, where finished work is loaded.

The iron and coal is placed in a stack or could not be satisfied until the bear had blast furnace of a capacity sufficient to received six charges, and it is reporte turn out twenty-four tons of metal per day, two being in use so that no time ed for the day, two being in use so that no time ed for the "game" in his box when he need be lost in cleaning out the waste went into the post office for his mail from smelting. One pound of coal to five of iron is the proportion used in melting. Descending to the basement or level done, we enter the foundry near the base serious illness of the proprietor....Mr. Roby, a merchant from Canton has lately done, we enter the foundry near the base of sparks like miniature stars cast off by taken up his residence in Leroy village

busy drawing, upon small trucks, buckets His mother, Mrs. W. B. WILCOX, has ained from the above mentioned tub to the moulds, where by the use of a crank the moulds, where by the use of a crank secure a pension for disability caused they are easily suspended and swung to the proper place and emptied into the Superintendent Ryan visited the schools the proper place and emptied into the moulds, and in a few moments more the death. His remains were interred in the ed, and the Right Rev. Bishop McQuaid wheel is formed. The large tub is hanmade a feelin, address upon the nature died by one man by the use of a wheel or crank, and the small buckets filled in turn as they are backed up to their places; sanctity of the family relation, and drew the stack, and thus the process goes onuntil the required number of wheels are cast. As soon as the metal in the moulds cast. As soon as the metal in the moulds ing last, and punished them severely. Cools sufficiently they are opened, and the still-glowing wheels are removed to vats, several rows being located side by side, that is truly marvelous. Touch not, taste several rows being located side by side, each holding five or six wheels, where they are covered with sand and allowed

to remain until cool, the air being excluded. This is the annealing process, and gives greater elasticity to the iron. Five or six days are required to cool the wheels, after which they are removed and cleaned then the hole for the axel is enlarged by a boring machine, and the work is completed. The axels are turned to fit the wheels, or so that they may be pressed on, the axel and wheels revolving together

and the journals or bearings of the car resting upon the axel outside the wheels. They have a hydraulic press for this use the axels so that a power of 45 to 60 tons power, exerted horizontally. Many are shipped singly, and either are readily

rolled upon the cars, the switch being still lower, so that the platform of the cars and basement floor are upon a level. In baking cores for hollow wheels: they are made of sand and flour, moulded and then baked: these are placed in the centre of

holes left for the purpose. A great variety of wheels are madesolid or hollow, large and small-to suit the ideas of different companies; and in 1870, as the property of Edward Croak. true and smooth. They have patterns for making wheels for the recently invented To Pratt & Co., for one-half of an acre of land in South Creek township. Sold December 3, 1879, as the property of J. they use them upon a road in Texas. In this shop we noticed a novel saw working Timothy, western. Beans, 62 lbs...... a belt of steel 22 feet long, in width, working over two wheels padded with leather, so that by the use of a table dash of gold. MR. EDFTOR.-Your correspondent has endeavored to pick up some items which are fresh and interesting, but we fear our efforts have been a failure. There has nothing of interest_occurred here since our last report....There are still a few have been a few deaths....Rev. A. J. CLARK, of the Disciple church, has commenced to practice medicine. He has treated several cases of the diphtheria very successfully. Preaching and practicing should go hand in hand. Smithfield, December 13th, 1879.

EAST TROY. DEAR REPORTER: - "Procrastination s thief of time." and it is because this pilferer has been very basy stealing away the hours, days and weeks, that you have not been apprised of events as they passed...But with a retrospective glance we notice that our village boasts of two "Ladies' Societies." One is designed to aid the Baptist, and the other the Methodist Church. You know the ladies are indiridually a power, and what may they not trate all their powers of head, heart and purse for a purpose, especially when that purpose is to do good...The New Eng-land supper at the Baptist Church, under the auspices of the Aid Society, was a very pleasant gathering, and notwithstanding it was a rainy evening, was a financial success. Much credit is to duc! the band, who added much to the pleas ure of the occasion.... A series of union revival meetings are being held in the Baptist Church, conducted by the pastor, Rev. S. F. Mathews and Rev. J. W. BARNETT, of the Methodist Courc Both pastors are laboring earnestly and faithfully, and it is hoped that much may be accomplished for the Master...R. E.

ERY is recovering from the effects of his

in it. The lamp, so it is reported, was subject to having "spells" and was not in a safe condition for use. Too much care cannot be used in burning kerosene
....Several hunters of this place went
south of the Schrader last Friday on a
hunting excursion, but nothing of importance occurred until the next day when Sidney Morse discovered a large black bear at which he fired. Bruin felt there was danger and left in great haste, but to such enchanting strains of the "bear dance" as dwelt in the air on the captu closed on Saturday last on account

New Advertisements. THE NEW YORK TIMES.

ESTABLISHED 1851. The political course of the New York Times will be guided during the Presidential year by the same principles which have won for it the position of the foremost Republican newspaper in the United States. The successful issue of the recent contest in New York, and the unbroken series of Republican victories in other Northern States which preceded and accompanied it, have combined to demonstrate the soundness of the position of the Times in regard to the questions with which the Republican party is called upon to deal.

tions while while continue to place fidelity to the ir terests of the Republicon party above the pursuit of personal aims or private ambitions, and will stead fastly insist that the usefulness of any party must be measured by the extent of its devotion to the honor an welfare of the country. In the future, as in the past, the attitude of the Times will be that of, independence with the Republican party.

IT WILL BE LIVELY WITHOUT BEING SEN SATIONAL, AGGRESSIVE WITHOUT BEING

seminated throughout society. It will be in the futt as in the past, a newspaper especially adapted family reading.

The Semi-Weekly Times is respecially fitted to me the requirements of those who seek more simple of current news and fuller installments of current consion than are furnished in the weekly issue. considerable that are transition in the weekly bout. Semi Weekly has a large circulation, abroad as among the professional and mercantile classes outsi of the large cities, as home. At the reduced club rance were supported to the control of the large states of the large states. provide the Weekly Times, containing selected editorion topics of national and general interest from columns of the daily issue, as well as a concise sumary of political, social, and foreign besides of features which recommend it to all classes of read is a paper adulir, bly flitted to circulate in every 1 tion of the United States.
