Tunkhannock Republican.—The Elmira Free Press has the following account of a gentleman well known in this place: "Mr. GEORGE C. HILL, of Burlington, Pa., is visiting his son, Mr. J. S. HILL, Carroll street, of this city. He is on his way to Lake La Moka, near Weston, Schuylker County, where he expects to pass a week or more in fishing. Mr. Hill, in spite of his seventy-two years, is as vigorous in his movements and as youthful in his longings for outdoor sports, and his appreciation of them as a youngster of twenty-five. As a hunter and fisherman—in all the physical activities and requirements required by those terms—he is as sound as a stripping of one-fourth his years. He is one of those fishermen who, wedded to that patient sport, find excitement in fishing a whole day without a bite. Mr. Hill would the same old but that he were on his wedding day forty-seven years ago, and he carries the same gun which he brought from Connecticut forty years ago."

SUDDEN DEATHS.—JOHN C. BUCK, Conductor of the State Line & Sullivan Railroad, suffered a stroke of paralysis on Saturday last, which resulted in his death on Monday afternoon. At three o'clock P. M., on Saturday, Mr. B. started with his train for Bernice, in apparently the best of bodily health. When the train stopped at the Barclay depot, in the southern part of our village, he stepped off, as was his custom, spoke cheerfully to several who were standing on the platform. As the train was about to start, he gave the usual warning for passengers to get on board, and starting forward suddenly fell to the ground. Several gentlemen immediately went to his assistance, during the pasting him up, it was discovered that he was apparently unconscious. He was at once conveyed to his residence on Main street, and physicians immediately called. But nothing that medical skill could suggest, or loving hands do brought him relief, and he passed away at about one o'clock P. M. Monday morning, leaving a young son, recently graduated from the State Line and Sullivan Railroad office in this place.—C. C. C. E. ANDRES.

Local Correspondence.—MR. EDITOR:—Our people are proud of the prospective County Poor-house being located in our village. It is a source of just grounds of complaint on the part of competitors, as we believe the Commissioners have acted wisely in choosing the most central and best location, all things considered in the county. The Hon. Gen. McKean farm is eminently a suitable property to be owned and controlled by the county for poor house purposes. It is one of the best farms in the valley between Troy and Towanda, containing the largest amount of flats and the lowest upland. From East to West it is watered by Sugar Creek, while from North to South flows through it, mill creeks from which, by means of pipes, may be conveyed water to any part of the town. It is situated on the corner of the Erie and Pennsylvania roads, and is well adapted to afford suitable material for the bricks, stone, wood, and timber for the buildings, and for all practical purposes. Burlington for many years has seemed to be emphatically the paupers' home; they have been supported in large numbers incomprehensibly by the citizens, with the hope or prospect of obtaining relief. Providence seems about to ward their paths, not only an equalization of taxation in this respect, but by the benefits, if any, of having outstripped all competitors in bidding for the Poor House.

MR. H. D. GIBBS is now occupying his new dwelling which is, as was expected, a very comfortable one. It is a well built and finished building, and is well adapted to afford suitable material for the bricks, stone, wood, and timber for the buildings, and for all practical purposes.
