PENSION ARREARAGES.—Soldiers entitled to pensions who fail to make their applications previous to January 1, 1880, may secure their back pension money after that date.

The above paragraph is going the rounds of the public press. This may be apt to mislead some who may be deterred from trying to get in their claims for want of time, and it may tend to hurry up the claims of those who are waiting for their money. This is a mistake. The facts are: In all pension cases filed before the first day of July, 1880, the pension, if allowed, will commence from the date of discharge or death. Those commenced after that date will, if allowed, draw from the date of filing the claim. However, do not delay any just claim—the sooner the better.
