f the beginning of the labors of the Rev. J. S. STEWART, as Pastor of the Presbyterian Church, in this place. A ermon appropriate to the occasion was preached in the morning. Some facts were brought out which are highly credible to the congregation, and which will no doubt interest many of our readers. In the first place, it was stated by the preacher that this church had enjoyed un-Between pastor, session and congregation there had been complete concord. No

to break the quiet flow of church fellowship and church work. Then it was pointed out that this shurch during these years has grown more compact and homogeneous; that doctrinal and denominational unity has steadily advanced. In all respects, it is ow a solid church.

differences of opinion had been suffered

Attention was drawn to the growth of the congregation and the church. Several families who have moved into the town, have united with this church and have greatly strengthened it. There has een a large increase in the number of the children of the church. The Sunday School rooms are now full. There has been a very sound and encouraging in-crease of the membership. One hundred and seven persons have been received on letter, and one bundred and twenty-five on confession of faith; making a total ncrease of two hundred and thirty-two. The present membership is three hundred

and thirteen. Besides a very considerable loss by renovals, due mainly to the hard times, twenty-eight of the members have died. Some of these were among the most liberal and devoted of all the friends of the

ZINC MINE IN THIS COUNTY.

About four miles from the village of

Wellsburg, in the town of Ridgbury, Pa., reputation of being the most successful a zinc mine has been recently discovered. The product has been tested by miners and experts, and pronounced the genuine article. The discovery was made by all sincerely mourn, was a representative house by an attack of rheumatism. And Thomas MacCallun, who detected the farmer and most estimable citizen of this rock bearing metal along the wall of a ravine. The mine is on lands belonging to DICKINSON & BALDWIN. The nearest point to a railroad is at Wellsburg. The vein fissure is seven feet wide. The side lying beside the wall rock varies from two to eighteen inches in thickness. The discoverer has run two tunnels into the vein, one of a hundred and twenty and another of seventy feet. A shaft has been run down twenty-five or thirty feet. During the prospecting twenty odd tons of ore have been taken out. The ore turns out pretty rich under analysis-about seventy per ceut.
