THE House Committee on Elections, Thursday, voted to unseat WASHBURNE, of Minnesota, and declared the seat vacant. They couldn't stomach DONNELLY. A new election will be recommended.

- Ex-Governor Boutwell, Alexander H. RICE, N. P. BANKS, HENRY J. WASH-BURN and other prominent Republicans of Massachussetts, have issued an address: favoring the nomination of General GRANT.

Seven women, confined in jail at Ithaca, were allowed to have a trunk to hold their "fixins." Instead of using it to store their dry goods, they make a hole in the wall with the poker, and put the bricks and mortar in the Saratoga. THE House Committee on Foreign Af fairs Friday, heard arguments and considered petititions from commercial bo dies in favor of a reciprocity treaty with Canada. Mr. Bates, of Boston, present ed statistics to show that the late treaty with Canada was beneficial to both coun tries, and also to prove that the present Canadian tariff is particularly prohibitory of the importation of many articles produced in this country.

Mansfield, Ohio, on Wednesday night last, accepted the nomination for the Presidency, under the condition that if the the State Convention, his name would not be submitted to the Chicago Convention. Following this declaration, he delivered a masterly argument for the continuance of power in Republican hands.

THE fact begins to dawn upon some of his country. But, if when the people that after all, President HAYES National Convention meets, there rould be as acceptable a candidate as the Chicago Convention could present to the country. Lis administration has been satifactory, as it has elevated the public service, introduced honesty, efficiency and conomy into all the departments, and avoided all the complications and scandals which are so apt to attach to every ac ministration. When he closes his Presidential term he will at least go out carrying with him the confidence and respect f the country.

THE exciting and bitter struggle now zoing on in Pennsylvania between Speak er RANDALL and Senator WALLACE, for the control of the State Convention and the capture of the delegation to Cincinnati, is receiving an unusual amount of attention throughout the country, from the important bearing it is supposed to have in the solution of the Presidential question. Both sides are figuring out a najority in the State Convention, but probably the result will turn upon the admission of the delegates from Philadelphia. Should the RANDALL delegation be admitted, it will give the Speaker the control of the Convention, and the machine will be run in the interest of TILDEN.

A WITNESS before the exedus commi tee Friday explained some of the pleasing methods by . which the Democrats in Louisiana manage to keep control of a State in which they are in a minority: Just before the election last year they rode through Madison Parish in bands of twenty-five and fifty, whipping and threatening the negroes. And when election day came there were cast only 360 votes by both parties, but from these the ingenious Democrats managed to figure out a nice litttle majority of 2,300 for their party. The witness said that these outrages had persuaded negroes who had never thought of emigrating to resolve to leave the State during the coming
