

REPUBLICAN STATE TICKETS. JUDGE OF SUPREME COURT, Hon. HENRY GREEN, Northampton, ADJUTOR GENERAL, Hon. JOHN A. LEMON, Blair County.

Russia and China are having trouble, and a war between the two nations is imminent. DENNIS KEARNEY was committed to the House of Correction at San Francisco, Monday, when, after being shaved and clothed in convict garb, he was placed in a cell.

L. B. STURTEVANT, of Wilkes-Barre, whose name the President sent in after the rejection of JADWIN as census supervisor for the Luzerne district, was rejected by the Senate.

Eleven hundred bills on the House calendar, of five thousand more in the hands of the committee, do not give much encouragement for an early adjournment of Congress.

SAN FRANCISCO is bragging about another earthquake, which was experienced there on Wednesday last. It was no earthquake after all, as no damage was reported, although the buildings rocked so that the motion was plainly visible.

MR. KEMBLE left the sea-shore last week, and appeared at Harrisburg, and entered bail for his appearance on the 25th to await the sentence of the Court. He came voluntarily, and declined any intention to evade the penalties of the law.

JUDGE EDMUNDS says he is not a candidate for the Presidency, and does not desire his name to go before the Chicago Convention, which does not prevent a good many people being in for, nor does his prominence as the possible dark horse.

SEAFARER RANDALL has written to a prominent Democratic politician of Pennsylvania, expressing opposition to the creation of a new form of the coming State Convention. He says that its operation is to fetter and partially disfranchise the minority.

SPECULATION is fine respecting the composition of the new English Ministry, but there has been no formal announcement from the Liberals. The general impression is that GLADSTONE'S Premiership is inevitable, unless he should refuse to accept it, which is not expected.

At the Central Music Hall, Chicago, Thursday, a massing of some three thousand persons was held in strength for the GRANT boom. EMORY A. STORRS, STEPHEN A. DOUGLASS, J. E. C. LARSEN, General LOGAN and others, made speeches, warmly urging the claims of General GRANT as a Presidential candidate.

DR. TILDEN sends H. T. Secretary of the Treasury Friday received an envelope postmarked New York, in which was enclosed the sum of \$1,000 in United States and National Bank notes, with a tag attached, on which was written the words "income tax." The money has been deposited in the Treasury on account of conscience.

The "lightning calculator" is abroad and active. When he is not figuring out majorities for Presidential candidates at Chicago, he is giving the Democratic situation in Pennsylvania. The last gives the State to TILDEN and WALLACE's friends are quite sanguine that they will be able to control the State Convention and start a HANCOCK boom.

A COMMITTEE, consisting of the Governor, Auditor General, Attorney General, State Treasurer, three Senators and five Representatives, appointed by the Legislature to prepare a new general revenue bill, will meet in the Executive chamber, at Harrisburg, on Tuesday, May 18. They will hear any and all persons familiar with the subject, or who have any suggestions to make.

The example of the Towanda editors has been imitated by a lawyer of Annapolis, Md., who approached the editor of the Daily Record, in reference to an allusion in that paper, only in this case, several blows were struck, and the lawyer received a cut over the eye. Lawyers and editors are becoming altogether too belligerent and blood-thirsty.

A HORRIBLE and revolting story which came from Barnum, to the effect that several hundred persons had been buried alive under the walls of the capital, to cure the reigning sovereign of disease, is now denied. Whether the story or the denial is the truth is uncertain. The ruler, THERIAULT, is said to be a cruel and merciless tyrant, capable of any act of barbarism.

SENATOR WALLACE's friends say that that the bar is on top in Pennsylvania, and that TILDEN has been trying to buy up the State in his interest. It certainly looks like it, but then it's not our row, and we won't interfere. There will be lively times at the Convention the 27th, and it isn't certain which will be the upper dog in the fight.

A POSE went from St. Marys, Elk county, to California, on a bill hauler, after a noted forger and outlaw, named HARRY ENGLISH. They found him, when he shot Constables WRENTH and VOLWERT, and escaped to the woods. As he was running, the District Attorney shot him in the leg. A company of the State Volunteers has been ordered out to capture him.

TRIBLE's tale comes from Malden, Mass., of the finding of a four-year-old daughter of JOHN ADAMS, dead, on a railroad track, Saturday morning. Her hood, with blood-stained axe, and several bags, stained with blood, similar to one found near the body, were discovered in the cellar of Mrs. DUSCOLO, a neighbor. The latter was arrested, and denied all knowledge of the crime.

The forest fires in South Jersey have caused great loss of property. The fire, which started on Monday, and spread rapidly, had left the woods in a sad condition, a conflagration, which a spark from a locomotive started, and the flames ran over all wide extent in Orange and Monmouth counties. In Pike county, this State, the mountains have been all ablaze, causing the destruction of timber. The rain of Friday stopped the progress of the devouring element.

ARRANGING is not a good substitute for baking-powder. It has been often tried with unsatisfactory results. The latest attempt was in a family near Cumberland, Md., last week, where bicarbonate was made with arsenic accidentally placed in bottles labeled "baking-powder," and half a dozen persons brought to death's door. Fortunately remedies were applied in time, and the sufferers have a fair chance for recovery.

The Superior Court at San Francisco, on Saturday, decided against DENNIS KEARNEY in his appeal, confirming the decision of the lower court. The judge ordered a writ of habeas corpus, which would send KEARNEY to the House of Correction, but the agitator was not present in Court, and it was rumored he had absented himself from the city. His counsel announced that they would apply for a writ of habeas corpus to the Supreme Court, now sitting at Los Angeles.

The report just sent to Congress by Secretary SHERMAN of the operations of the revenue service in suppressing illicit distilleries is rather startling. Over 3,000 stills have been seized and destroyed, and 6,153 persons have been arrested. Twenty-five revenue officers were killed in making these arrests, and 49 were wounded. These seizures and arrests were made in the South exclusively—all of which may go to prove that Southern moonshiners love the United States less and live whifky more.

The Giant Powder Works in the district of Columbia, across the bay from San Francisco, exploded on Friday afternoon, killing 12 white men and 12 of color. This is the third explosion this company has sustained, all attended with loss of life. The explosion occurred in the packing-room, and all the men at work there were killed. There were about 6,000 pounds of powder in the room. All the victims were blown to atoms. A large portion of the skull of a Chinaman was found with the gunne attached.

The Republican State Convention of Iowa met at Des Moines on Wednesday last week. Eight hundred and sixty-five delegates were present, every county being represented. The name of BLAINE as a Presidential candidate was greeted with cheers, three times repeated. In selecting delegates to the Chicago Convention, the BLAINE men carried every district. The resolutions adopted endorse Senator BLAINE as the choice of Iowa, and they also instructed the delegates to vote and use all honorable means for his nomination.

It is difficult to account for the course of the New York Tribune upon any other ground than that it is preparing to re-nact the role of 1872. Certainly its conductors cannot be animated by a desire for the success of the Republican party in the coming Presidential election. The Tribune, of course, has a right to express a preference for any candidate, but it has no right to assail a prominent candidate in a manner calculated to work mischief should his advice not be followed. That paper has been singularly unfortunate in politics. It manages generally to get on the losing side. It has a chronic propensity for being wrong. It gets outside of the Republican fold with singular facility. Witness its bolt in 1872; its acrid spirit during much of GRANT'S second administration; and its perversity in fighting the Republican leaders in New York, which injured it so greatly that it lost caste, and was obliged to make strenuous and humiliating efforts to get back into the party. It has never quite succeeded in regaining public confidence, and is now losing what ground it had regained. In the present canvass for the Presidential nomination for a time it acted impartially, but its instincts and prejudices were too strong, and it is now rancorously opposing the nomination of GRANT. Were its spirit candid and its arguments fair, it would be no objection to any opposition to GRANT it might display—but it uses the argument of prejudice and seeks by exciting fears to weaken his cause before the public. The course of the Tribune, if it had any effect upon the popular mind, would be to weaken him, after a nomination, and contribute towards his defeat, and there is nothing which can justify such conduct on the part of a professedly Republican journal.

We doubt the propriety of any newspaper becoming the organ or partizan of any candidate for a nomination. And there cannot be any doubt of the impropriety of an intemperate and uncandid advocacy of any man's claims. It weakens the influence of the journal, and detracts from its usefulness to the party, after the choice of the nominating body has been made. Not that we would deprive a newspaper of the right of fully expressing its preferences and stating its opinions, but all this can be done in such a manner as not to produce bad feeling and disastrous results. Those who favor the nomination of Gen. GRANT have a right to their preference, and are entitled to be considered unselfish and earnest as well as those who favor other candidates. There may be grave and weighty reasons why he should not be nominated, but those who are assailing him and denouncing his friends for supporting him would do well to remember what THURLOW WEAZ admits, that "the public mind, when an extra session of Congress revealed revolutionary designs, turned instinctively to the ex-President." There are those who honestly believe that the peace which has settled upon the country is delusive; that the revolutionary designs have not been abandoned; that the Confederate batteries are only masked; that the voices of the conspirators have been stifled, awaiting the result of the Presidential election, and that when the Democracy shall once come into power, the designs will be renewed with increased vigor. The apprehension causing the destruction of timber. The rain of Friday stopped the progress of the devouring element.

THE REPUBLICAN STATE CONVENTION of Iowa met at Des Moines on Wednesday last week. Eight hundred and sixty-five delegates were present, every county being represented. The name of BLAINE as a Presidential candidate was greeted with cheers, three times repeated. In selecting delegates to the Chicago Convention, the BLAINE men carried every district. The resolutions adopted endorse Senator BLAINE as the choice of Iowa, and they also instructed the delegates to vote and use all honorable means for his nomination.

It is difficult to account for the course of the New York Tribune upon any other ground than that it is preparing to re-nact the role of 1872. Certainly its conductors cannot be animated by a desire for the success of the Republican party in the coming Presidential election. The Tribune, of course, has a right to express a preference for any candidate, but it has no right to assail a prominent candidate in a manner calculated to work mischief should his advice not be followed. That paper has been singularly unfortunate in politics. It manages generally to get on the losing side. It has a chronic propensity for being wrong. It gets outside of the Republican fold with singular facility. Witness its bolt in 1872; its acrid spirit during much of GRANT'S second administration; and its perversity in fighting the Republican leaders in New York, which injured it so greatly that it lost caste, and was obliged to make strenuous and humiliating efforts to get back into the party. It has never quite succeeded in regaining public confidence, and is now losing what ground it had regained. In the present canvass for the Presidential nomination for a time it acted impartially, but its instincts and prejudices were too strong, and it is now rancorously opposing the nomination of GRANT. Were its spirit candid and its arguments fair, it would be no objection to any opposition to GRANT it might display—but it uses the argument of prejudice and seeks by exciting fears to weaken his cause before the public. The course of the Tribune, if it had any effect upon the popular mind, would be to weaken him, after a nomination, and contribute towards his defeat, and there is nothing which can justify such conduct on the part of a professedly Republican journal.

We place no dependence in the rumors of TILDEN'S intended withdrawal. The reports which come from Democrats of prominence to that effect, are started without any foundation. The latest sensation is that TILDEN has made RANDALL his residuary legatee, and will, at the proper time, retire, and indicate his preference for the immaculate SAM of Pennsylvania. A recent gathering of prominent Democrats in Philadelphia, was supposed to have special reference to the arrangements of such a programme. Don't believe the legend that the Sage of Gretna is not in the declining stage. On the contrary he is tightening his anachronia folds about the Democracy, and will draw them closer and closer, until his nomination is secured. The fact of the bar is mysterious and past finding out, but they are effective, and it is not unlikely they will prepare to come down with alacrity and cheerfulness for their defeat is inevitable.

In response to the address of welcome which General GRANT was given upon his arrival at Cairo, Ill., on Friday afternoon, he said: "I have been my good fortune to have just passed through a little bit of every one of the Southern States lately in the rebellion, and it is gratifying to me, and I know it will be to you, that in every one of these scenes, decorations and speeches were made. The Stars and Stripes were floating everywhere. A great portion of the speakers in every instance were men who, in the conflict, wore the gray, and the speeches which they made showed their great devotion to the flag. I am glad to see that you are all well and that you should respect and honor the flag, and become good citizens, and hereafter, if it should be assailed by a foreign foe, that they should unite with us as one people. From the assurances they give, I believe they are sincere, and I hope they expressed the sentiments of the great majority."

The Republican State Convention of Massachusetts met at Worcester, on the 14th inst. HENRY L. DAVIS was selected as permanent president, and an extended address. The name of Geo. F. EDMUNDS, of Vermont, met with much favor, but ex-Governor BUTSWELL made a speech in favor of General GRANT, and somewhat turned the scale, till Hon. C. W. SANBORN, from the Committee on Resolutions, reported a list of resolutions endorsing the present administration, and concluding in the following words: "While we do not instruct our delegates, we commend to their consideration a Republican statesman who possesses in an eminent degree such qualities as Hon. GEORGE F. EDWARDS, of Vermont." The resolutions were unanimously adopted. The Convention adjourned sine die.

BOTH THE TILDEN and anti-TILDEN Democratic State Conventions of New York, met at Syracuse on Tuesday last. The anti-TILDEN assembly was presided over by Mr. DONNICKER, and selected a full delegation to the Cincinnati Convention, and Presidential electors. The TILDEN Convention was presided over by JOHN C. JACOBS, of Kings County. A full set of delegates was selected to the Cincinnati Convention, as also Presidential electors. There was much wrangling in both conventions, on successful days. They

A FEARFUL tornado passed over the Western country, Sunday, being particularly destructive in Missouri, Iowa, and Indiana. In Missouri there was terrible devastation and loss of life. At Marshall, Mo., a furious hurricane struck the place and leveled a great part of the town. The debris immediately took fire, and many persons were burned to death. Resolutions were adopted placing the responsibility upon the Directors to push the Exhibition forward to the highest position; approving the terms of the lease of the Park Commission, provided they renew it for five years longer, and making arrangements for the formal opening of the Exhibition by May 10th.

The active season in foreign fruits has just commenced with a heavy cargo of pineapples, and coconuts are arriving in large quantities. Formerly the greater part of the fruit sold in this market came via New York, but now an enterprising firm here is bringing all the fruit needed. A steamer brings usually 6,500 bunches of pineapples and 25,000 coconuts. The yellow pineapples are of the best quality, and the red ones from Cuba. The yellow pineapples sell the best, because they grow at about the same price, so the retailers can afford to sell the yellow ones for less and still make a better profit than they can on the red ones. The flavor of a banana is a great deal on the soil in which it is raised. They are considered quite green and ripened after being landed, in rooms which are kept at a certain temperature. Pineapples come from the Bahamas, and the trade continues until about the middle of May. Oranges have been plentifully supplied from Florida, but they are not so good as those from the West Indies, and those from the island of Sicily and Valencia, Spain, are taking their place. The West India oranges come in the next two months. Limes later in the season. A leading dealer says that prices that oranges bring from \$3.75 to \$4.00 per bushel, according to quality, as from \$2 to \$3 per bushel, and those from the island of Sicily and Valencia, Spain, are taking their place. The West India oranges come in the next two months. Limes later in the season. A leading dealer says that prices that oranges bring from \$3.75 to \$4.00 per bushel, according to quality, as from \$2 to \$3 per bushel, and those from the island of Sicily and Valencia, Spain, are taking their place.
