THEIR SEASON, &c. AT All goods delivered free of charge. MYER & DEVOE. Men Abvertise ments.

To the Readers of the Reporter : It is well known that hot weather by ings sickness and that the greatest care is necessary to prevent slisorders even on the part of those most healthy. What there is in the heat that should cause disease cannot certainly be known, but cholera, dysentery, debility, lassitude, vertigo and many other suciden and dangerous maladies come every season and cause great suffering and thousands of deaths. Few people go through the summer without unpleasant symptoms. The mouth becomes dry and parched, the tongue furred with white, the pulse irregular, the head feverish, the body cramped and the limbs swollen and, tired. Ladies especially, with their natural delicacy and tendency to female troubles, find the hot weather almost unbearable; while little Children are dying every day from exhaustion and because Parents neglect precaution and care. A prominent and well known physician of New York asserts as his positive belief that more than three-fourths of all so-called Summer complaints arise from disordered secretions, and that these secretionary organs, which, by being out of order cause so much trouble, are the kidneys and liver. The brain controls the life, but the lower part of the body rules the health.

There is one, and only one known vegetable that will absolutely regulate and control the Kidneys and Liver at all times and thus prevent the many dangers of the Summer. That vegetable (a West India leaf,) is used as the basis of Warner's Safe Kidney and Liver Cure. It is pure, pleasant to the taste and absolutely certain in its results. It keeps those who intelligently use it in perfect health, and cures those whose secretions are derauged. For all urinary complaints of either sex it is infallible. For all billious troubles it is certain. For the hot season it is invaluable and every person of care and intelligence should not fail to keep Warner's Safe Kidney and Liver Cure near at hand, and use it upon the approach of the slightest symptoms. It may save your life or that of some other friend; it will certainly prevent much suffering. It is for sale by druggists in all parts of the world; we careful and take no other. "A word to the wise is sufficient."
