THERE is an ex-rebel soldier out in Gineinnati, named SAMUEL V. REID, who is not satisfied with the result in Ohio and Indiana. He thus shows his disgust : "I am for revolution. I fought them before and I am ready to march out and fight them again. The musket will have to rettle this business at last. The whole country has gone to hell."

WE are only fighting the old fight over again... and once more will we whip them badly. The only difference between 1865 and 1880 is, that this time we will whip out our enemies entirely, and, subsequently, give the Republicans of the South an opportunity to regain their manhood and secure the rights that have been wrongfully taken from them.

The alarmed manufacturers of the country showed such a disposition to support the party of protection and vote for GARFIELD, that the Democratic managers have attempted another fraud. HANCOCK's declaration that

the tariff was a "local issue," was unfortunate for him, and the October elections brought forth his famous ante dated tariff letter, which was the most transparent fraud of all. The demonstrations of the businessmen and operatives throughout the country has made a wonderful change in the views of the Democracy. They are now the only reliable tariff party. THE JADWIN WHO HAD THE as will not help the election of HANCOCK CONTRACT EXPLAINS.

The following letter will appear n the Honesdale Citizen, of this week The Bradford Argus published the article from the Patriot referred to in its issue of last week, knowing it to be a lie. The Argus will undoubtedly publish the forged letter on the Chinese question this week, knowing it to be a forgery. The following is the text of Mr. Jadwin's letter:

New York, October 23, 1880. An article which originally appeared in the Harrisburg Patriot, and has been copied in various other papers, in relation to C. C. Jadwin, the Republican candi date for Congress in the Fifteenth Con-gressional District, contains several errors. It states that C. C. Jadwin, through he influence of Congressman Overton tained "a contract from the Interior Department for supplying the Indians of he frontier with his subdaing liniment."
The truth about this is that the Indian contract here spoken of is like the cele-brated Roorback letter. First, that let-ter was not written by Roorback, but by

another man of the same name; second, it was a whacking lie. In the present case, the contract was not obtained by Jadwin, but by another man of the same name. That man was myself; a brother to the Jadwin spoken of. I am the party who supplied Mr. Lo, his sisters, his country with reddings, under created by the elections." a contract with the Indian Commission ers. Next, neither C. C. Jadwin, or Mr. Overton had any influence in the matter that I know of, and used none to my knowledge. C. C. Jadwin knew nothing of my contract until after it was made and so far as I know Mr. Overton never heard of it. Next, the contract did not include a drop of Jadwin's limment, nor

liniment bottle, or a liniment label. The facts about it I will rise to explain. I am a wholesale druggist, doing business at 63 Cortland street, New York The government, it is well known, quently advertises for proposals to fur nish supplies and stores for the different departments. In 1878, in response t such an advertisement, in common with numerous other dealers, I offered a bid for medical supplies for the Indian Department, consisting of quinine, cinchoni dia, alcohol, anesthetics, cathartics, plas ters, chemicals, surgical instruments and appliances, etc., etc.; the bid being made on blank forms furnished for the purpose by the government. It contained no proprietary or patent medicines. In July al bids were opened and read by the Com missioners, in presence of all the bidders vho chose to attend. My bid was found to be the lowest; and for this reason, and this alone, it was accepted, and the contract awarded to me. The supplies I fur nished under it were tested by a govern-

ment expert, and found to correspond with the specifications and samples; and or this reason, and this alone, they were accepted and paid for at the contract price. I neither employed or attempted to employ, directly or indirectly, the in-fluence of any man in securing this con-tract. I had no reason to suppose that such influence was necessary.
