

Bradford Reporter

Towanda, Pa., March 17, 1881.

THE WHITTAKER trial is slowly progressing.

SECRETARY BLAINE has appointed his non private secretary.

The veto of the Funding Bill was the tenth exercise of the power by President HAYES, and he was sustained in all.

Two prisoners against five lawyers in the Cabinet, BLAINE and JAMES, to WINDOM, KILPATRICK, LINCOLN, HUNT and MACVAUGH.

HENRY GEORGE PEABODY, Assistant Postmaster, and son-in-law of Mr. JAMES, has been appointed as Postmaster of New York.

PRESIDENT GARFIELD has nominated Senator Matthews for Associate Justice of the Supreme Court. The nomination will probably be confirmed.

The President gave a reception to the Army and Navy officers last Friday evening at the White House, which was a very brilliant affair. The members of the Cabinet and ex-Cabinet officers were also present.

This Illinois Legislature by resolution has thanked the President for putting Lincoln into the Cabinet. This is a little formality that the Pennsylvania Legislature has neglected in the case of MacVeach.

WILLIAM M. EVARTS, of New York, ALLEN G. THURMAN, of Ohio, and TIMOTHY O. HOWE, of Wisconsin, have been appointed commissioners on the part of the United States to the International Monetary Conference at Paris.

PROPOSALS will be received by the Department of State, Washington, up to May 1st, for the erection of a monument to mark the birthplace of GEORGE WASHINGTON. Plans and specifications may be inspected at the Department.

The policy of the administration for the management of the Indians will be to disarm all who seek shelter of an agency, and compel them to earn what they eat, and for the future to put the title in a position where they must earn what they eat and wear.

The failure of the Funding bill to become a law may fairly be said to terminate the Democratic war upon the national banks. That was the real purpose of the measure, though artfully disguised by means of a popular pretense to reduce very considerably the rate of interest on the war debt.

The czar of Russia was assassinated last Sunday night returning from a ride. A bomb was exploded which shattered both legs, causing his death in a few hours. Two nihilists have been arrested for the crime, and the greatest excitement prevails in St. Petersburg.

SECRETARY KIRKWOOD held a conference last Thursday with the Uncomphagore (the chief) relative to the selection of lands for their tribe under the new treaty. They were assured that if enough lands of an agricultural and grazing character cannot be found in the valley of the Grand river they will be selected from the required class of lands in Utah.

A RUINOUS warfare has been inaugurated between the English and German steamship companies, and it is possible now for persons in this country to purchase a steamer passage for friends in Europe for \$12. Of course this sort of thing cannot last long, but there is no doubt that while it does, it will have the effect of largely increasing the tide of immigration.

SINCE the re-establishment of the Republic in Mexico in 1867, one hundred and one acts have been passed by its Congress or initiated by the President under general legislative sanction, for the encouragement of railroad construction. The various charters, agreements and contracts embracing 14,830 miles of road, for which subsidies amounting to over \$171,000,000 were granted.

THERE is a contrast between the passage of Washington of ABRAHAM LINCOLN in 1861 designed for fear of the Pug Uglies of Baltimore who lay in wait to kill him, and that of General GARFIELD who went in a palace car and was greeted everywhere with shouts of applause, though he represents the same principles which triumphed in the election of LINCOLN. The contrast shows the mighty changes that have meantime been effected. Slavery has been abolished, rebellion subdued and peace restored. The world moves.

It is asserted that within eighteen months two and a half miles of the proposed channel tunnel between England and France will have been excavated, and that the work will be completed in about four years. Still another scheme, however, for crossing the channel is contemplated, namely, a line of steel tubes, sixteen feet in diameter, ballasted so as to make it weigh one and a quarter tons to the foot less than the water displaced, and held at a depth of thirty-five feet below the surface, so as not to impede navigation, by chains attached to calissons sunk to the bottom.

THERE now seems to be a probability that Great Britain will be represented at the forthcoming international monetary conference. Such is evidently the desire of the government, and the form of the invitation, to which objection is at present made, will hardly be allowed to stand in the way. The interest which the European nations are taking in the question is in striking contrast to the indifference which was shown when we unsuccessfully proposed to them their attention two or three years ago, and it warrants the hope that some understanding mutually beneficial to all concerned will be reached.

POSTMASTER GENERAL JAMES vacated his position as Postmaster at New York city on March 6 and became Postmaster General on the morning of the 7th instant. His accounts as Postmaster at New York were forwarded to Sixth Auditor, McGraw on the morning of the 6th instant. They were at once audited, adjusted and settled, and found to be correct to a cent, and his sureties have been notified that their responsibility has ceased. This prompt settlement of the accounts of one of the entire postal revenue of the government, is unprecedented in the history of the department.

HARRISBURG LETTER.

Special Correspondence of THE BRADFORD REPORTER.

HARRISBURG, March 15, 1881.—The eighth week of the session of the Legislature has just closed on Tuesday the 14th inst., with sessions in both branches, convening at 10 o'clock A. M. The statements after their inauguration, held, attacked the routine work of legislation rather vigorously, manifesting a tolerably fair disposition to get down to business, two sessions being held in the Senate in the morning, and the introduction of a number of bills, a resolution to print 3,000 copies of the report of the managers of the State Agricultural College was referred to the Finance Committee.

The bill to provide for the organization of the State Hospital for the Insane, at Warren, created considerable discussion, the question being as to whether it was proper to appoint a female physician, the amendment was finally adopted and the bill laid over for printing. A number of bills were then passed second reading, and some routine business transacted, when the Senate adjourned until 3 o'clock. The afternoon session was devoted to passing bills on first reading.

In the House on Tuesday the 15th inst., after going through some preliminary work, bills on third reading were reached, with the following were passed finally: An act relating to advertising of sales of unenclosed lands by County Commissioners.

An act to authorize the Commissioners of the several counties of the State to discharge from prison all persons confined in jail without proceedings under the Insolvency Law.

An act requiring owners of coal mines opened by slope to provide attachment, drag or cars passing over the same.

The bill to relieve building and loan associations from taxation was discussed at considerable length, amended and laid over. The indications are that it will pass the House finally.

An act introducing in the Senate on Wednesday the 16th inst., was one by Mr. COLE, the new, conscientious, Democratic Senator from Luzerne County. This act provides that no person who shall hereafter be a candidate for the nomination or for election to the Senate or House, or to any office of the Judiciary, or to any State, municipal or county office, shall pay or contribute either directly or indirectly to any campaign or other valuable thing, or knowingly allow it to be done by others for him, either for the nomination, election or appointment, except necessary expenses, which shall include all usual and proper expenses incident to a fair election, and not simply for traveling and traveling expenses, dissemination of information to the public, political meetings, etc. The new act is evidently intended to enlarge the facilities for using this cash when he shall be a candidate for office.

The bill to permit defendants, their husbands and wives to testify in criminal cases, was not agreed to.

The bill to extend the time for the completion of railroads already commenced, on second reading, elicited much debate, the discussion being on amendments requiring the company to complete the road within one year and a half instead of three years. The former amendment was adopted. An amendment extending the time for the completion of the road to five years was not agreed to. The bill then passed second reading.

The Senate concurred in the House amendments to the joint resolution authorizing the Governor to appoint commissioners to inquire into and investigate the present condition of the proposed penitentiary building at Huntingdon. Under the resolution the commission are to visit Huntingdon and the House of Refuge at Philadelphia, with the object of making reformatory institutions out of the same. This commission is to report to this session of the Legislature.

In the House on Wednesday, after reading of bills in place and other routine work had been gone through, Mr. McKee, of Philadelphia, made an unsuccessful effort to get up the Recorder repeal for that city. After considerable circumlocution, participated in principally by the city members, Mr. McKee's motion to suspend the rules for the purpose of taking up the bill was lost (yeas 21, nays 93), and the reformer sat down squelched.

A lengthy, exciting debate, lasting until the hour of adjournment, came next, on an act providing that all employees shall pay their laborers in lawful money of the United States at least once every two weeks, under penalty of imprisonment. Numerous amendments were offered and debated, during which considerable feeling was manifested, but no definite action was taken. The House adjourned pending consideration of the bill.

In the Senate on Thursday the 16th inst., a number of bills were reported from committees, and others read in place when Senator Smiley, of Perry County, introduced a concurrent resolution that it is the sense of this Legislature that if any hospital for the indigent insane shall be destroyed by fire or other accident, the Board of Public Charities should transfer the patients to other hospitals of like character, the cost of the same to be borne by the State, and the cost of maintaining the same in the passage of the act. Messrs. Craig, Core, Jones and Emery also spoke in favor of the bill. Messrs. Newmyer and Greer addressed the opposition.

GENERAL NEWS.

News from various parts of the State.

—A bomb exploded in a brick building on the corner of Third and Market streets, in the city of Harrisburg, on Tuesday the 14th inst., at 10 o'clock A. M. The explosion was caused by a barrel of dynamite, which had been placed there for the purpose of testing its strength. The explosion was not fatal, but it caused considerable damage to the building.

—The Illinois Senate has passed a bill making education compulsory. There are seventy-two towns in Kansas with over 500 inhabitants each. The act of the Illinois Legislature in 1880, for the purpose of the census, estimated that there were 2,000,000 people in the United States, of whom 1,000,000 were in the United States, and 1,000,000 were in the United States.

—Georgia, Va., has a lady for town clerk and treasurer, and has just received her. The American Rapid Telegraph Company voted last week to increase its stock \$50,000.

—Virginia claims five of the twenty-eight new steamships built in the U. S. last year.

—The Baltimore Hospital Medical College, New York, last week turned out 117 young doctors.

—Over \$51,000,000 in cash passed through the money-order branch of the post-office department last year.

—The importation into France of mutton, pork, bacon and hams from the United States is prohibited.

—In nine years the Church of England has contributed \$20,000,000 for purposes of religious education.

—The American Bible Society turns out Bibles at the rate of seven a minute for every day in the year.

—Peru asks that England, France and Italy make war with regard to the conditions of peace with Chile.

—The ice coming along the Hudson river has harvested this winter in the neighborhood of 3,000,000 tons.

—An Ohio slave driver voted for Hancock last fall, and when arrested for theft turned out to be a woman in disguise.

—A vigorous war is being prosecuted by the city authorities of Chicago against grocers who deal in adulterated butter.

—By the explosion of a boiler in the Phoenix Boiler Works, Buffalo, last week, six men were killed and seven wounded.

—The largest steamship ever built, the Great Eastern, has been converted into a military hospital.

—John Gilman, of Chicago, will soon begin a fast of forty-five days, under the auspices of the Medical College of that city.

—Miss Mills, the fiancée of Whitelaw Reid, has a dowry of \$1,500,000. There is no further doubt as to the ownership of the 7th Avenue.

—There are 2,800 shoemakers in Chicago. The average of wages is one dollar a day. In the making of a shoe there are sixty-four parts.

—Turkey has ordered 3,000,000 cartridges from the United States, with a view to supplying large quantities of war material.

—The steamship Pathria from Europe, brought \$500,000 in gold, and between three and four millions more of gold in the way from Europe.

—Tobacco leaf goes in hogheads to Germany and Turkey, fancy brands to London, Paris and Hong Kong, and cheap brands to Australia.

—A large fire in Kansas City last Thursday destroyed several leading business, aggregating \$300,000 in value. The losses were nearly covered by insurance.

—The Italian Chamber of Deputies has adopted a declaration that, unless a new monetary treaty be arranged, only Italian silver coins shall have currency in Italy after 1880.

—Western Kansas contains the only chalk beds known to the American continent, and in the neighborhood of Wray, Kansas, it is found in the greatest purity and abundance.

—The last crazy freak exhibited by the King of Bavaria is his refusal to see any one. His Ministers read their reports to him behind screens, and keep away the cameras to witness his signature.

—The town of Rottitz, Sax., was extinguished last Thursday morning, almost every house being burned. The town contained three thousand inhabitants, and in the vicinity are some of the most valuable mines in the State.

—An effort is being made by the friends of Mr. Carlyle's friends to obtain possession of the little house in Scotland in which he was born.

—The design is to convert it into a library for the use of the residents in the vicinity.

—Mrs. Mollie Ute, of New Albany, Ind., a little over a year ago noticed a numbness in her fingers. Since then her hands and arms nearly to the elbows have become apparently solid bone. Her physicians say that ossification will continue until some vital part is reached, when death will ensue.

—The town of Rottitz, Sax., was extinguished last Thursday morning, almost every house being burned. The town contained three thousand inhabitants, and in the vicinity are some of the most valuable mines in the State.
