Local Correspondence. NORTH ORWELL.

Plenty of rain. Winter grain looks finely. Farmers in this vicinity are looking for a heavy hay crop this season. Those who have waited to plant their potatoes "in the meon!" are in trouble owing to the wet weather and the moor

won't wait for them.

During a violent thunder storm on the morning of the 11th instant, Mr. A. Tuttle's residence was struck by lightnings the chimney was hadly shattered, otherwise no serious damage was done. The symptoms are moisture, like perspiration, intense itching, increased by sersiching, very distressing, particularly at night, as if pin-worms were crawling in and about the rectum; the private parts are sometimes affected; if allowed to continue very serious results may follow. "Dr. Eucyne's All-Healing Ointment" is a pleasant, sure cure. Also for Tetter, Itch. Salt Rheum, Scald Head, Erysipelas, Barbers Itch, Biotches, all Scaly, Crusty, Cutaneous Eruptions. Sent for 50 cents, in 3-cent stamps; three boxes for \$1.25. Address, Dr. Swaynyk & Soy, 330 North Sixth Street, Philadelphia, Pa. Sold by all enterprising druggists. One day last week Mr. Judson Rock well, while fixing fence was sunstruck for some time he was partly deranged. Dr. G. Conklin was called, who administered the proper treatment, and we are happy to learn that Mr. Rockwell has re-

covered. The Grangers have opened a co-operative store, with a large and well-selected stock of goods. Mr. William Sibbly has charge of the store. We feel confident it will prove a success. . The Good Templars have resolved to

hold a public meeting in the Church once a month. Rev. W. R. Netherton will speak on temperance for them, on Sanday evening, June 5th. All are invited to come and hear him.

One of our promising young men. Mr. V. L. Rockwell, has gone to Elmira to resaid). We dislike to part with him, but what is four loss is Elmira's gain. We wish him success in all his undertakings. May 16, 1881.

ASYLUM. The peach and apple crop will be light this year along the river, but heavy the hills in Asylum township, Wilson Kerrick is erecting a new and

I indsome dwelling house near the site of his present residence. The trustees of the Asylum Grange Hall are putting a large and commodious cellar under the building, which will be of great service to Mr. George Fox, the no rehapt who uses the first floor as a store; dwelling house, and post office. The commissioners of Asylum town whip have thus far been unable to find any one from this township to go to the new home at Builington. Asylum has been burdened for many years with from ten to twenty panpers, but on the 20th of April, the thirteen paupers that were then on the town, some of whom have

been kept for thirty years, refused to move or be moved, and have now gone to work and are doing well. Athring the storm last Thursday morn ing, the lightning lif on B. Laporte's Lorse barn. It first came in contact with the red on the highest part of the lains after fusing the point if ran down the roll until it reached the tin cave-trough, here it divided-a part of the destructive third physing on to the ground over the care-trough and down the corner posts, which were badly shattered. A large give, which was hung to the corner of the barn, was also injured, the lightning following down a brace rod to the middle of the sate, and then breaking the gate almost into. A horse which stood within

four years ago, which stood near where his-present horse barn stands. Strange to say, our Sabbath School was organized this year with only four weeks' contention as who should hold the honor ed offices. Mr. F. H. Hagerman is our Superintendent, and we expect an excellent LE DIABLE BOITEUX. school:

the barn, and about eight feet from the

corner, was crazed for several hours. Not

a slate on the roof was broken. Fortu

nately the barn was not secon fire. Mr

Laporte liad a barn burned by lightning

May 16, 1881. THE earth's eastward rotation, togeth-. cr with the increase in rate from the poles to the equator, has a tendency to throw the waters of streams against their Westcin banks sufficient to produce quite marked effects in many parts of the world. It is noticeable in large rivers where the deposits are earthly, and the pitch of the water is small and in the direction of the stream; the bank against which the water strikes the more forcibly being high and steep while the other side is low. The affect has been observed in many streams of Europe and Asia, and on the rivers intersecting the low land of the Atlantic border of the United

A RECUST investigation has led to the discovery of the remarkable fact that in-4cuse cold may deprive magnetized steel bars of nearly all their magnetism. This fact has an important bearing upon observations of the magnetic candition of the earth taken in high latitudes; for what appear to be daily and yearly changes in the earth's magnetism may be due in large part to conditions of temperature, which affects the magnets used in the observations.

M. Dr. Rosst has been led by certain experiments to believe that explosions of fire-damp are preceded by slight undalations and hoises too small to be detected by any mean's except the microphone. He thinks that by the aid of microphonic observations in colleries, the presence of large quantities of inflammable gas in the earth might be dected in season to prevent disastrous consequences,

M. MUNTZ, by means of a test so-delicate as to detect the presence-of alcohol in a million times its weight of water, has found that alcohol exists in all natural waters except very pure spring water. It is found in greater quantity in snow, and without doubt floats as vapor in the air. In soils, especially those rich in organic matter, there is a considerable

THE cranium in giants is usually small in relation to their stature, but often enormous in absolute measure, although their intelligence is generally small. An example was Broca's giant Joachim, credited with a very slight amount of sense Yet this great imbecile had a huge craniun, and his brain weighed nearly as much as that of Cuvier.

A TELEGRAPH wire in India is stretched between the summits of two hillseach hill being 1,200 feet high-across the Kistnah river. The span of wire is over 6,000 feet in length, and it is believed to be the longest in the world. The only engineering appliance used in stretching this cable was a common windlass.

In Sheffield, England, it has been propased to fix a micropone in the tower of T IST OF LEGAL BLANKS the town clock, and connect it with the telephone exchange. Through this means any telephone subscriber may have his wire switched to the microphone wire, and thus be enabled to hear the clock strike at any hour of the day:

ITCHING PILES-SYMPTOMS AND CURE

mas. Lydia E. Pinkham

OF LYNN, MASS.

LYDIA E. PINKHAM'S

The Positive Cure

For all Female Complaints.

This preparation, as its name signifies, consists of Vegetable Properties that are harmle a to the most del-

icate invalid. Upon one trial the merits of this Com-pound will be recognized, as relief is immediate, and when its use is continued, in ninety-nine cases in a hun

when its use is continued, in ninety-nine cases in a hundred, a permanent cure is effected, as thousands will testify. On account of its proven merits, it is to day recommended and prescribed by the best physicians in the country.

It will cure entirely the worse-form of falling of the uterns, Lucorrhota, irregular and painful Menstruation, all Ovarian Troubles, indiammation and Ulceration, Floodings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life. It will dissolve and expel tumors

the Change of Life. It will dissolve and expel tumor

from the uterusinan early stage of development. The tendency to cancerous humors there is checked very

speedily by its use.

In fact it has proved to be the greatest and best remedy that has ever been discover-

ed. It permeates every portion of the system, and gives new life and vigor. It removes faintness flatulency, do-stroys all craving for stimulants, and relieves weakness

It cures Bloating; Headaches, Nervous Prostration, General Debility, sleeplessness, Depression and Indi-gestion. That feeling of hearing down, causing pain,

weight and backnohe, is always permanently cured by its use. It will at all times, and under all circumstan-ces, act in harmony with the law that governs the female system.

For Kidney Complaints of either sex this compound

BEAN SOUP WITHOUT MEAT. Use about a pint of the smaller beans; lentils will do quite as well. Boil the beans until quite tender in two and a half pints of water; when cookedthere will be about two pints of water. Mash the beans thoroughly when taken out of the water, and a half when covered with a cultiva-an onion and brown it in a casserole pass them through a sieve. Take tor. This gives room for tillering, in a tablespoonful of butter. In this casserole place the beans, with the water they have been cooked in; add a little salt and pepper,

CODEISH FOR BREAKFAST .- Shrell

MAKING TREES FRUITFUL .- The question is often asked why thrifty looking trees don't bear fruit, and a desire expressed that fruit could be had from them. Oftentimes there is too much hurry for fruit in such cases. We have known owners of trees discontented, when, in our opinion, there had been no time lost. it is desirable to have fruit even at the expense of growth, or a tree may no other way seems open, root prun-
