

ANNOUNCEMENT. THE FRIENDS OF STEPHEN STRICKLAND, of Wysox, will present his name to the Republican County Convention as a candidate for the nomination for the office of County Commissioner.

THE PRESIDENT'S CONDITION. The latest news we have from the President is up to 10:30 Tuesday evening. At that time he was sleeping quietly, and all of the symptoms pointed to a slow but sure recovery. His pulse at the hour named registered 102, his temperature 102.

Mrs. WALKER BLAINE Thursday entered upon his duties as Third Assistant Secretary of State.

Those who oppose capital punishment have very little, if anything, to say on that subject at the present time.

All accounts now agree that Guiteau is an assassin, by instinct a thing, who has been watching and dogging the President for weeks. This puts the wretch beyond the refuge of insanity.

The harvested wheat crop, is so enormous that speculators scarcely know how to handle it. The crop of Iowa, and Illinois will suffice to feed all the people in the country for a year.

This struggle for the speakership of the next House of Representatives has already begun. Messrs. Hiseock of New York, Keefe, of Ohio, Cannon of Iowa, are among the prominent candidates for the position.

During the first six months of the present year the number of immigrants landed at New York was 240,742. At the present rate the United States is gaining in population by immigration at the rate of 1,500 every day of the year.

At a meeting of the Governor and Council of New Hampshire Friday, August 10, C. CARPENTER, of Bath, was nominated for Associate Chief Justice of the Supreme Court, to fill the vacancy caused by the resignation of Judge WILLIAM L. FOSTER.

The usually dodge is discredited in advance by the country. The only question under consideration is, What is the worst that can be done to the villain in case the President survives his evil plot? If it were to be put to a vote the question would be decided on the spot in a vigorous way.

It is suggested that if the President recovers, of which there is now every indication that GREAT skill is indicated for an attempt upon the life of the President, he is to be kept in a hospital for six weeks, in a double-tenement, sixteen feet high, eight in width, and eight in length, for each shot.

The temperance issue of Ohio do not expect to get any votes from the Democratic party, but they note that the measure from Republicans is so much of a gain to ensure Democratic success, a party that never gave the temperance cause in that of any other State an encouragement or support. We cannot understand this kind of mental prostration.

So far as the State is concerned, there has been but little change in Albany. A caucus was held last Friday evening, at which 67 members appeared, and WALTER MILLER and E. G. LARSEN were nominated for Senators. The caucusmen did not attend the caucus and continue to vote for Mr. CONKLING for the long term, and Mr. WHEELER for the long term.

CONGRESSMAN SPEAR, of Georgia, who elected as an Independent Democrat, now says he will act with the Republicans in a diametrically opposite effort. It is stated that the Georgia Legislature has decided to support the government, and that the system under which was established upon a basis so solid to be shaken.

The Supreme Court of Michigan has just rendered an important decision in a case regarding a child. The court held that another money, with agreement to share the profits, in an attempt to get a corner on the market, should be recovered. The court held that such combinations entered into for artificial purposes, and any money advanced in the purchase of such securities cannot be recovered.

A SPECIAL REPORT sent up to the President to ascertain the truth of the reports toward the Government reports that as hostile and determined to resist every attempt to enforce the law against polygamy. The evidence is made that it will require an army of 100,000 men to hold the territory of Utah, and to spend over the territory of Wyoming to New Mexico, and have become self-sustaining in the rich valleys in which they settled.

Since the President recovers, as now seems probable, he will assuredly reap a rich reward from the people, which he is now passing. It will establish him as nothing else would have done in the affections of his fellow citizens. Under any circumstances its tendency would have been in that direction, but the man who has been through the ordeal has increased in a wonderful way the respect in which he is popularly held.

While we rejoice in the progress of the President through the first stages of the danger incident to his wounds, we must not forget that his condition is still involved in grave possibilities. He has not yet fully recovered. He has not yet been discharged from the hospital, and he has not yet been able to take any active part in the affairs of his fellow citizens. Under any circumstances its tendency would have been in that direction, but the man who has been through the ordeal has increased in a wonderful way the respect in which he is popularly held.

While we rejoice in the progress of the President through the first stages of the danger incident to his wounds, we must not forget that his condition is still involved in grave possibilities. He has not yet fully recovered. He has not yet been discharged from the hospital, and he has not yet been able to take any active part in the affairs of his fellow citizens. Under any circumstances its tendency would have been in that direction, but the man who has been through the ordeal has increased in a wonderful way the respect in which he is popularly held.

THE PRESIDENT Steadily Improving

DAILY REPORTS OF THE PHYSICIANS.

Incidents Connected With the Assassination.

The President has steadily improved each day, the past week, and now bids fair to completely recover. Below we give the report sent each day of the President's condition and symptoms by the attending physicians.

EXECUTIVE MANSION, July 12.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 13.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 14.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 15.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 16.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 17.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 18.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 19.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 20.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 21.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 22.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 23.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 24.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 25.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 26.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 27.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 28.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 29.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 30.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, July 31.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, August 1.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, August 2.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, August 3.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, August 4.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, August 5.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

EXECUTIVE MANSION, August 6.—1 P. M.—The President's condition has not changed materially since our telegram to you yesterday. During the afternoon he was restless and again troubled with acid eructations, and the administration of nutriment was again suspended for several hours.

he continues to retain all nourishment prescribed him, and had twenty-four ounces of milk and one of rum during the last twenty-four hours, besides a small quantity of milk toast.

WASHINGTON, July 12.—The dressing of the President's wound to-day was attended by no unfavorable symptoms. A careful examination was made of the entire trunk to verify if possible the directions spoken of by Dr. Bliss yesterday as to the location of the ball.

Dr. Reymann agrees with Dr. Bliss that the suspicion hitherto entertained of the course of the ball have been greatly strengthened. If it is in the anterior wall of the abdomen, it is not likely to give him any trouble at present, and no effort will be made to extract it until it becomes necessary, or the patient has recovered sufficiently to undergo the operation without danger.

The yellow tinge has almost disappeared from the President's face. WHERE IS THE FIRST BULLET? Quite a mystery hangs over the whereabouts of the first bullet fired by the assassin upon the President.

THE PRESIDENT'S BLEEDING. The President's bleeding was largely exaggerated. Newspapers throughout the land were filled with accounts of how the clothing of his excellency was soaked with blood and the floor of the depot splattered with it.

A DAY OF THANKSGIVING SUGGESTED. COLUMBUS, Ohio, July 10.—Governor FOSTER sent the following telegram to the Governor of the States and Territories to-day.

TO HARRIS M. PLAINED, Governor of Maine: Present indications strongly encourage the hope that the President will recover from the effects of the horrible attempt upon his life.

EXECUTIVE MANSION, July 9.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 10.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 11.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 12.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 13.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 14.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 15.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 16.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 17.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 18.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 19.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 20.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 21.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 22.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 23.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 24.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 25.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 26.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 27.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 28.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 29.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 30.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, July 31.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

EXECUTIVE MANSION, August 1.—1 P. M.—The President continues to improve slowly. The medical conditions have not recurred during the last twenty-four hours.

CHARLES J. GUITEAU. The above is said to be a very fair picture of the person who attempted to murder President GARFIELD.

STATE NEWS.

A Catholic church to cost \$10,000 is to be erected at Millport. Oil has been struck at Pleasant Unity, Westmoreland County.

Simon Eichenlaub of Williamsport, was drowned accidentally near Muncy on Friday.

Captain John Grady, a prominent and highly respected citizen of Scranton, died suddenly Sunday morning.

Grand Army Posts at Erie will celebrate the improved condition of the President to-day by a big demonstration.

It is estimated by the Chief of Police of Chester that there were 2,000 drunken men in the streets of that city on Friday.

Rev. Dr. Bopp has resigned the position of Professor of Didactic Theology in the Lutheran Seminary at Gettysburg.

Two hundred men have been thrown out of employment by the recent burning of the stove works at Spring City, Montgomery county.

It is stated that four of the Hungarians who were recently poisoned near Hazleton, from eating Bologna sausage, have since died.

Peter T. Phillips, a machinist of Reading, claims to have a bullet in his liver which he received at Spotsylvania Courthouse in 1862.

The speculative insurance man has placed \$150,000 on the life of Mrs. Eliza Hilder, of Amity township, Berks county, who is 88 years of age.

An unknown mad dog was found wandering about Altoona on Thursday night on a double-barreled shotgun.

George Hildebrand was instantly killed and five other people were stunned by lightning at Rodenburg Station, Westmoreland County, on Thursday.

A blacksmith in Titusville noticed oil in his potato patch and dug several holes in which it could accumulate.

For several days he has been dipping from two to three barrels of oil out of these holes.

John Brown, has been sentenced at Smithport, McKean county, to seven years in the penitentiary for forging obstructions on the railroad track.

The Milton Churn and Novelty Works, of Milton, have decided to increase their capital stock from \$12,000 to \$40,000, for the purpose of increasing their business.

A Pittsburgh dispatch says that small-pox is increasing in that city. There are 167 cases on the health records.

Three deaths occurred on Saturday, and there were eleven new cases reported on that day.

Thomas Marshall, seventy years of age, an old and highly respected citizen of Upper Chesler, Delaware county, was instantly killed on Wednesday afternoon last week by falling from a load of hay in one of his fields.

A German visited Delaware Water Gap a few days ago on a tour of pleasure, and while wandering over the rocks missed his footing and rolled to the bottom, a distance of about ten feet.

When he fell he made a minute examination of his various bristles, after which he took up his line of march for the hotel, with the remark: "I think these bristles of nature was blazed out."

A sad case of accidental drowning occurred in the Chester county on Wednesday afternoon of last week. Miss Ellen Dallas and another young lady went to a dam in the vicinity to bathe, a brother of Miss Dallas being in the water near them.

The girls got beyond their depth, and Mr. Dallas reached them in time to save one, but his sister was drowned, and her body was recovered only after some time after the accident occurred.

A few days ago as a passenger train on the Baltimore and Ohio Railroad was passing the station at Sewickley, the passengers were alarmed at the shouts and gestures of some one standing at the station.

The train was stopped, and six boys about ten or twelve years of age who had been stealing a ride, seated on the car tracks, crawled from under the train and made their escape.

It is supposed that they had taken passage at a station some thirty-five miles distant.

GENERAL NEWS. The German coal mines have commenced conveying coal to the pit's mouth by electric railways.
