PEOPLE who suffer from hay fever have an unusually bad time this year. Those who inhale camphor will have temporary relief, but they will acquire dyspepsia. The use of the galvanic battery has been recommended. Quinine, arsenic, ammonia, and cod-liver oil, have been prescribed, and the man is always to be found who has at home a "specific" for the expiring disease, but, so far, medicine has not done much good, and frost is the only thing that the person who has hay fever can long for with any degree of faith.

It is the Germania Band boys who give the excursion to Watkins on the 26th. That will be Friday of next week.

ROBBERT AT TROY.
The Troy correspondent of the Advertiser furnishes that paper with the particulars of a robbery that took place in that place on Sunday night, as follows: "Some time during Sunday night some thieves broke into the office of the Enterprise Manufacturing Company, on Railroad avenue. They effected an entrance by breaking open the front door of the shop. They then went into the office where the safe is kept and drilled two holes in the door of the safe and blew it open, blowing off all the inside of the door. There was about \$75 in the safe, but by an oversight it was not taken, as it stood between two books. About \$4,000 in notes were taken, part of them bank notes. The robbers then went to the restaurant of C. E. STAUDLING, on Canton street, and got in by prying open a back door. Hoisting themselves promiscuously to eatables, they went into the grocery and got four boxes of cigars, \$3 in money, five pounds of chewing tobacco, and other things, which they carried away a coal and vest of Mr. STAUDLING, which was afterwards found in the Enterprise shops."

\$2.00 will take you to Watkins and back again, on Friday of next week. For twenty cents additional you can view the wonders of the world of Watkins, on the ferrying it, you may, for the same small amount, enjoy a steamboat ride of thirty miles on beautiful Lake Seneca.

SAYS THE DUSHORE REVIEW of last week: In conversation with BENJAMIN VACUUM, Esq., of Colley, who is a stockholder in the enterprise, we learn that a test oil well will be put down within a short time, in the edge of Wyoming county, about one mile south-east of the residence of Mr. VACUUM. The timber for the derrick will be cut on the ground and men are now at work preparatory to erecting it. Whether oil exists in this section can only be told by boring, and the gentlemen engaged in putting down this well are certainly entitled to credit for their enterprise. The well will be put down 2000 feet unless oil is found before that depth is reached, and whether oil is found or not will determine whether coal, iron or other metals will be sought. The result will be watched with much interest.

THE GERMANIA BAND EXCURSION TO WATKINS GLEN, FRIDAY, AUGUST 26th, 1881.

FARE ONLY \$2.00. THINK OF IT!

FOUR-SCORE YEARS AND TEN.

Upon the 4th of the present month, at the home of his daughter, M. E. HENRY, of Orwell, occurred the 90th anniversary of the birth of Hon. AMBROSE CHUBBUCK, so long and well known to many of the citizens of Bradford County.

Owing to the feeble health of the Judge only his three brothers, Dr. H. B. and Rev. A. E. CHUBBUCK, of Elmira, and Rev. FRANCIS CHUBBUCK, of Nichols, N. Y., together with his grandchildren were present. A few appropriate and timely remarks were made by the Dr., upon the life now near its close—of its value as a true christian character, and above all for the deep, consistent and uniform piety, so long known to have been followed by prayer in which was heard to mingle, perhaps for the last time, the well-known voice of the elder brother. It awakened quick memories, and when it ceased, all felt their lives ought to be nobler and better for having heard it.

Those who have once visited the famous Glen at Watkins will be anxious to visit it again. Those who have never visited it ought to. The excursion there on Friday of next week will offer to not only an excellent opportunity to view, not only the beauties of the Glen, but the matchless scenery in its neighborhood. The fare for the round trip will be but \$2.00.

GERMANIA BAND EXCURSION Friday, August 26.

PASTE THIS IN YOUR HAT.

To discover spurious greenbacks or national bank notes, divide the last two figures of the number of the bill by four, and if the remainder is one, it will be B; if three, C; and should there be no remainder the letter will be D. For example, a note is registered 5,461; divide 61 by four and you will have one remainder. According to this rule the note will be A. If the rule fails you may rest assured that the bill is either counterfeit or has been altered.

DANIEL O'NEAL.

"The sword of God is small and great."—And we sincerely feel that Almighty God has seen it best, through His kind Providence, to cast an address throughout this vicinity by calling from us a truly noble, great and virtuous citizen. DANIEL O'NEAL, the subject of this sketch, was a model man, and will ever be remembered as such. He was a kind, conscientious, whole-hearted being—pacific in his nature—where he was, peace was. He was a Christian, and his noble influence, always having some kind word, advice or precept for the young, whom he captivated by his pleasant and impressive ways. His greatest aim was to do good. He was a Catholic by creed, but not bigoted or hostile. His neighbors who have known him longest and best, have loved him longest and best. With them he never had a quarrel in any respect. His noble example is worthy of emulation, and were I to write his epitaph, I would inscribe as the highest eulogy on the stone which shall mark his resting place: Here lies a man who never tried once to deceive his friends. Directed by his great, good common sense, he was never harsh or cruel. He taught his children to love and fear God, and by thus constantly setting moral principles before them, seldom if ever recanted to the red. His children are now grown to manhood, and how appreciable is the effect of their early christian training! They are gentlemen and conscientious. Two are lawyers and one an editor. D. L. O'NEAL, located at Wilkes-Barre, is a lawyer of celebrity and worth.

DANIEL O'NEAL, a noble type of his race, was born in Ireland in 1800; came to this country in 1820, and was engaged in farming, upon which he has lived and toiled until the time of his demise, which occurred Tuesday, August 9, 1881. Although Mr. O'NEAL had been a sufferer for many years, his death was sudden and unlooked for. He leaves an aged widow, who has the kindest wishes and sympathies of all his intimate friends. His interment took place at the McGOVERN burying ground on Thursday. The funeral exercises were conducted by Father Egan. A large number of friends of all denominations, from this vicinity and Sullivan county, were present to pay their last respects to their sleeping friend.

Overton, Aug. 19, 1881. C.F.H.

A LONG BRIDGE.

Crossing the Susquehanna, about three miles from Waverly, is the longest bridge of the new Delaware, Lackawanna & Western Railroad. It is called the State Line, and crosses two channels of the stream with a trestle between of eight hundred feet. The total length is 1,863 feet. One section has three spans of 150 feet to each span, and the other four spans with 150 feet to each span. It is a deck bridge, and is built to stand until the water is so high that it will be necessary to place a man power instead of being demolished by high water. It is the next longest bridge in the State. It is 1,000 feet in length. The Willow Point bridge is 900 feet long, including abutments.

FOUND IN THE RIVER.
The body of a dead man was found in the Susquehanna river, near Waverly, on Monday. The corpse was notified and held an inquest. The jury returned a verdict of accidental drowning. No marks of violence were found upon the body. The corpse was that of a man about five feet ten inches in height, and apparently about thirty-five years of age; smooth face, light complexion, dark hair, and dressed in a laboring suit, with a white shirt and a pair of trousers. In his pocket was found one dollar and a half in money and some tobacco, but not a scrap of paper or scratch of pen by which he might be identified. It is thought he had been intoxicated at the time of his death. He had apparently been in the water three days.
