PENNSYLVANIA STATE SUNDAY WHAT SHE SHOULD DO. SCHOOL CONVENTION. The Seventeenth Annual Convention of the Pennsylvania State Sunday-School Association will be held in the Presbyterian Church in the city of Johnstown, com- A Few Suggestions of Importmencing Tuesday, October 1st 1881, at 2.30 r. v., and continuing Wednesday and Thursday, October 19th and 20th. Each county association is entitled to serd six delegates each, and cities of 20,000 inhabitants' three delegates each in addition to the county representation. All delegates will be entertained. Application for entertainment must be made to Mr. John Fulton, chairman of the

local committee. Upon their arrival at Johnstown, delegates will report Mr. D. L. Jones in the Presbyterian church, where homes will be provided for them. Special railroad rates are being prepared from all parts of the State. Orders for the same may be procured by addressing the chairman of the Railread Committee, Mr. JAMES M. GAMBLE, Williamsport, Pa. The orders may be had by all parties who desire to attend the convention, but entertainment will be provided only ally attracted no little attention, and has, we learn for duly accredited delegates. Special rates at the hotels are made for all persoms attending the convention. Sunday School superinterdents, teachers, workers, and all others interested in the cause are invited to attend. An instructive and attractive programme of special helpfulled with considerable care, additional facts bearing ness to Sunday School workers is being prepared, and eminent speakers from all parts of the State will participate. It is ear, e-tly recommended that Sunday Oct. 16t , be observed as a day of prayer for the divine blessing upon the approaching

e eiventien, and upon the Sunday School work throughout the State. By Order of Executive Committee. H. WARNER HARE, Acting Ch'n.

BETTER THAN EVER. Ennicus Futhion Quarterly for the Pall season of 1881 is before us, and mer-Its a word of commendation. The num ber is the largest ever issued, containing 12: large quarto pages of original and in- ical frames are far inferior in comparison with teresting matter, illustrated with hundieds of excellent engravings. The magamne is divided into two departments both interesting to ladies; either of which, alone, is worth the trifling subscription price. Of these, the first is devoted to literature, pure and simple: and contains an agreeable melange of interesting, amusing, and instructive articles. A special department, entitled "Our Easy Chair." is conducted by Hone Leb-YAND, who discusses home topics in her well known chatty style. An illustrated "Lesson in Dressmaking" is another useful feature; and tales, sketches, and lesays, original and selected, abound.

The second division of the magazine is devoted to the illustration and description of the current fashions; and so far as we care competent to judge, the work is faithfully performed. Every article needful to the dress of ladies or children is illustrated and described under its appropriare heading; and the current retail price in New York is given for every articl described. With this magazine as a guide, it is difficult to see how a lady can fail to do her shopping in the most thorough and economical manner; since it tells her, heat only what to buy, but also what price to pay for it. SPRING AND SUMMER! 1881 = 1881

The Jointer can be shifted so as to take more or less land, and it can always be kept on a line with the Plow.

The wheel will run under the beam or one side of it as desired, and always keep in line.

The beam is adjustable for Spring or Pail Plowing, and also for two or three horses.

The handles can be adjusted to accomodate a man or boy on the same Plow.

It is the Lightest Draft Plow ever made.

Wooden beams are going out of use because they shrink, swell, and warp, and never run two seasons alike. Iron beams are too heavy.

Malleable beams become demoralized and bend, which is worse than to break.

A steel beam is the necessity of the day. It is three times as strong, and very much lighter than any other style.

When we say a Moid Board is chilled, the Farmers know it is so.

We do not pain off on them a composition of various metris and call it chilled metal.

We want agents for this new Plow in every town in this state.

We gropose to place this Plow in the hands of the Farmers as near the cost of manufacture as possible.

It is the best Agricultural Implement ever sold. It is the chapeat.

Persons, therefore, who are not willing to act as agents on the principle that "a nimble sixpence is better than a slow shilling," need not apply for an agency.

No Plows on commission. All sales absolute.

We make Right and Lett Hand Plows of all sizes. Also Side Hill Plows.

This is the only Steel Chilled Plow in the World.

Steel costs several times more than Iron. But this Plow, full rigged, by giving small discounts, can be sold for Seventeen Dollars. Compare this price with that of any Iron Plow ever made.

Where there are no agents, we will, on receipt of Seventeen Dollars, send a Plow to any Eufscad set in it. the State, and pay the freight. Address

It drew its first inspiration from the fire of liberty which God has lighted in every man's heart, and which all the ery man's heart, and which all the powers of ignorance and tyranny can never wholly extinguish. The Republican Party came to deliver and save the Republic. It entered the arena when the beleagured and assailed territories were struggling for freedom, and drew around them the sacred circle of liberty, which the demon of slavery has never dared to cross. It made them free forever .\_\_\_
