BRADFORD COUNTY AHRAD. Says the correspondent of the Advertiser, writing of the Mansheld, Tioga County Fair, last week: "Among the stock exhibited none attracts more attention than a heard of Short Horn Durhams exhibited by A. H. THOMAS of Troy, Pa. They are seven in number. The cow called 'Highland Mary' gave forty pounds of milk per day. The milk of two cows tested made one pound of butter to twenty-five pounds of milk. A young calf six months old named 'Royalists Fourth' attracts a great deal of attention. He is a decendant of the celebrated bull Royalist,' formally owned by Gov. CORNELL, and bears a remarkable resemblence to that animal. Mr. Thomas is President of the Troy Farmers' Club. He has also on exhibition a short horned Durham, fifteen months old, a grandson of 'Treble Gloster, who took the premium at the New York-State Fair, a few years ago." "C. B. STRAIT, of Sylvania, Pa., has

on exhibition a herd of thoroughbred Jerseys. There was made from the cow named-Sylvania Maid' the second week in June fifteen pounds and eleven ounces of butter in seven consecutive days. There are three beautiful calves six months old, and they attract the admiration of all lovers of good stock. On the light-head he took seven premiums, six first and one second. Mr. STRAIT takes the front rank among breeders in Bradford county. He also took first premium on wheat, barley, first and second on bronze turkeys, first on print butter."

"F. P. & A. M. CORNELL, of Altus, Pa., exhibit a fine herd, twelve in number of thoroughbred Ayrshires, which attract a great deal of attention. One cow namtil 'Lizzie' has made fourteen pounds and fourteen ounces in seven consecutive days. There are five calves from five to six months old. They are all entered in the Ayrshire herd book. The Messrs. Con-NULL have attained a fine reputation as breaders of first-class stock."

OBSERVER AT THE TROY FAIR. The Norman and Clydesdale horses were in the same class, which was proper, as they are both draft horses and mould compete against each other for merit. The Norman stallion, "Gambetta," got first premium over Wood's Civdesdale, of Smithfield, Burlingame's Clydesdale, and Besley's Clydesdale, of Reseville, Tiega County, Pa., and Gambetta's coits got all the premiums over Clydesdale colts of same age. Good judge , say they hever saw as good colts as the Forman horse of Milan is showing. We believe the judgment of those New York men is correct, when they say the Norman horse far excels all draft stock. OBSERVER.

A serious accident happened to O. D Goodenough, of the Blossburg Register, hist Monday night. He had just stepped from a moving train at Blossburg, and in crossing the track to get out of the way of a detached caboose, which was coming rapidly down grade, stepped into an unnoticed culvert, and being caught between the ties was smable to get out. He the caboose to stop it, which they did, but not until he got badly squeezed across the shoulders, causing much pain through the chest and lungs. It was a through the chest and lungs. It was a very narrow escape from instant death. He was kindly cared for by Ascistant Suemployes of the Company. His injuries were attended to by Dr. S. E. PALMER of Blossburg. He is now at his home in this place, where he will probably remain with thoroughly well again .- Wellsboro

An exchange truthfully says: "A. great many people think a newspaper s would have about a page of local news, whether anything happens or not. Deinded mortals; local editors cannot make people-break their necks, commit suicide. run away with their neighbor's wives, or coany other exciting things which go to make up the material out of which the loeal reporter-delights to weave paragraphs, to be served up each week. Furnishing comestic news when there is none, is turnip. It is no more than fair, however, that those persons who grumble at the

quently at two hundred yards. Has also been Justice of the Peace for many years, builds the best wagons in this section, and on the above birthday turned two hand-springs, a custom which he has performed on each succeeding birthday since he was a boy. We trust Mr. GORHAM may be able to follow up his long continand practice each year to come for the next sixty years .- LeRaywille Advertiser.

Da. W. J. RANDALL, of Forksville, died on Monday after an illness of two weeks, with typhoid fever. Dr. RANDALL was well known in this and Lycoming County, having practiced medicine contimuously in these counties for the past twenty years, residing at Forksville during that time. Dr. RANDALL was one of the most prominent men of Western Sullivan, and his death will be deeply mournby his many friends. He was about nifty years of age, and leaves a widow and several children .- Durhore Review.

J. F. Ovenshine has resigned the Secretaryship of the Athens Township School Board, on account of his duties in the Pa. & N. Y. Railroad Office, Mr. OVENSHIRE is one of the most efficient school officers in Bradford County, and his resignation will be a loss to the school system. - Waverly Review.

Milk Diet. It seems strange that there are so

in the ordinary, would do well to

adopt the suggestion of Dr. J. D.

Trask, who states that warm milk

can be taken without discomfort when

cold milk cannot be borne. He thinks

we should regard milk more as an

article of food than as a beverage.

The saliva plays an important role in

the process of digestion; but bread

and milk eaten together are often-

swallowed before the saliva comes

valuable food if taken at a tempera-

ture slightly above 100 deg. Fahren-

heit. Experience has already proved

Fences.—It is, of course, next to

miles of useless fences exist through-

move, as circumstances will permit.

Jarm and Bousehold.

cept our advice of the past year will find their account in it, and those who have disregarded our suggestions will find that by this time next many persons who say they cannot drink milk without suffering from derangement of the digestive organs in consequence, although it is generally supposed that milk is the most perfect diet known. It is a fact, however, that in some cases milk is not well tolerated in the system-it seems to undergo immediate coagu-

year cows will be very scarce and dear. The number of cows in the country maintains a quite uniform ratio to the number of inhabitants. varying little, if at all, from twentyty-three cows to one hundred inhabitants. For the past ten years the population has increased very rapidlation in the stomach, and to form there a heavy, indigestible mass. For this reason a kind of milk wine, made this reason a kind of milk after the by the fermentation of milk after the from Maine to Texas, independent addition of a small quantity of sugar, of the reduction in numbers by the has been found very valuable in the severity of the winter last year. Beef treatment of some forms of dyspepsia and cows are both scarce, and will continue to be for the next five years. continue to be for the next five years preparation is known as "kumyss," under the most favorable circumstanpreparation is known as known by the following process, which furnishes an excellent product: Procure County Intelligencer. some strong bottles, preferably such

telligencer. PREPARING THE SOIL.—Wheat re quires a fine mellow soil for a seed bed, and should be covered with a soil which, while light enough to re-As evidence see extract from W. B. Yates letter, where the Regulator afforded protection from the worst and most deadly type of Malaria, to wit:

| Soil which, while light enough to retain moisture sufficient for the germination of seed. This will not be mination of seed. This will not be "Sins: I have stood the storm of four epidemics of the Yellow Fever. I had it the first visitation, but during the other three I used your medicine. I was continually in the rooms of the sick and dying, but I escaped. I have had several to ask me how I escaped; I told them it was all owing to the virtue of your Simmons Liver Regulator. If the Fever was to break out again and I had a bottle of your Regulator I would feel as safe as if I was 1,000 miles away.

"Memphis, Tenn., April 17, 1879."

In that told of the soil be lumpy, for while the seed may germinate, the plant will perish for want of sufficient protection should a drought occur soon after seeding. Especial pains should therefore be taken to make the surface soil mellow. It will often the undersigned has per the surface soil mellow. It will often the undersigned has per the surface soil mellow. It will often the undersigned has per the surface soil mellow. It will often the undersigned has per the surface soil mellow. It will often the undersigned has per the surface soil mellow. It will often the surface soil mellow. pay to roll the ground as soon as ploughed. This will only pulverize many lumps that a harmww would not, PREPARED ONLY BY J. H. ZEILIN & CO. but seems to pack the soil sufficiently to retain a proper amount of mois-

of milk in all the dairy districts in
