ULSTER. The past week has been replete with accidents and escapes from serious injuries, as regards our usually quiet village. Thursday last, about 11 o'clock A. M., a team attached to a heavy lumbe: wagou loaded with household goods, came up Main street, on as swift a pace as their heavy load would permit, with no driver to guide them. Several rushed out to stop them with no success, until opposite C. P. Forrest's they ran against a hitching post which retarded them sufficiently to enable Mr. Forrest to grasp them by the heads and hold them until other help arrived. They were uetached from their load and taken to the stables of M. A. Forrest, and search for the missing driver was instigated resulting in the finding of him near Mr. George B. Rockwell's, where he had been thrown out and severely injured in the left side and spine. His name was ascertained to be Reuben LYDIÁ E. PINKHAM'S Bennett, of Towarda, who was taking a load of goods to Waverly for a brakeman on the L. Y. R. R. Mr. B. was taken to the Vandyke House and cared for until his family were informed, who took him to his

house on train 31 the same evening. A coal car jumped the track last Friday evening, a little south of our station, and ran nearly to Milan on the ties before it was discovered, and yet the remainder o the train kept to the track, and the only damage done was the loss of the car, and the bolis, etc., broken from the rails.

Saturday evening, as Mr. John Bow pean was going over the bridge that spans the creek over G. B. Bartholomew's, owing to the darkness, he stepped off and fed into the creek, dislocating his right arm and brui ing him considerably. He was taken to the drug store and physicians called, who soon replaced his arm, and he was soon enabled to be taken

The School Directors of our town held a special meeting in the Town Hall, Satmiday evening, and reconsidered the vote of last June in regard to wages of our teachers, and the wages were increased sufficiently to allow them to hire their board instead of being obliged to "board mound," which in our opinion is just as it should be.

The Sunday School Aid Society met at the Sunday School Aid Society mice the residence of Henry Shaw last Friday evening. There was a good attendance, the weather. emsidering the state of the weather, which was exceedingly damp. The program that had been prepared was nearly all carried out, and another good one was prepared for the next meeting, which will be held at the residence of A. Watkins old week from Friday, or December 2d. The sidewalk sociable will be held at the residence of James Mather, Thursday evening, November 24th, (Thanksgiving)... All are cordially invited to attend. Miss Ida Fairchild, of Waverly, is visiting at Mrs. C. Rockwell's.

Monday morning, as is his custom, Mr. John N. Wolfe, the genial proprietor of the Taber House, Canton, sent his porter to the depot with his watch, to have the same corrected as to railroad time. As the train passed the hotel, the porter jumped on to ride to the depot, and while in the act of getting on, dropped the watch. He did not miss the time-piece, Lowever, until he got to the depot, but remembered something dropping, from hem when he got oh the train. "He hastiig retraced his steps, but the watch could not be found. Parties who stood by when the jo ter get on the train, saw two young fellows stand by, and one of them packed up the watch. They are keeping i in hopes of a reward being offered, but n me will be as Mr. Wolfe knows the parties, and if the watch is not returned forthwith warrants will be issued and the parties brought to justice.
