THE

PHILADELPHIA TIMES

Now stands confessedly at the head of Philadelphia journalism in all that makes a thoroughly complete, general and family newspaper. It is more complete in its news, in its special correspondence, in its varied contributions on all subjects of popular interest, and in all the qualities of a newspaper for the family circle and for the business man than any of its contemporaries, because its facilities and resources are equal to every want of a first-class national journal.

"The Weekly Times" has nearly doubled its former large circulation during the past year. Its contributors from week to week are among the foremost men of the nation, and no department of news or literature is slighted in any number on any pretext. It is adapted as well to women as to men; hence, although its political intelli-gence is full and accurate and its political editorials free and fear-less, liberal provision is made for literary, dramatic and musical matters, travels and adventure, fiction, poetry, fashions and the chronicle of current social events. In all these departments the pens of the best writers are engaged, while selections from other journals are made with care, taste and fullness that are unsurpassed.

THE "ANNALS OF THE WAR"-chapters of unwritten history contributed by prominent actors in the war of the rebellion, are a valuable feature of the paper and have become a recognized depository of such matters, whether from Northern or Southern sources. This department, as well as all others, will be kept fully up to the high standard of former years.
