	Vegetable Balsamic	1
	ELIXIR	44
	This valuable medicine is purely vegetable: the discovery of which was the result of many years close study, in order to discover the cause, the symptoms, and the cure—viz:	
	Consumption, Coughs, Colds, Catarrh, Croup, Asthma, Pleurisy, Hoarseness,	
Į	and overy species of oppression of the Chast	
į	and Lungs. In all cases where this Ellair has been duly administered its officacy has been invariably manifested, convincing the most in- credulous that	
i	CONSUMPTION	Ž
	is not incurable, if properly attended to.— Consumption, at its commencement, is but a slight fritation of the membrane which covers the Lungs, then on inflamation, when the cough is more observable, but the	8

cough is more observable, but rather dry; then becomes local fever and the pulse more frequent the checks flushed and chills more common. This Elizir in curing the above complaints, operates so as to remove all morbid irritations and inflamation from the ungs to the surface, and finally expel them from the system. It facilitates expectoration. It heals the ulcerated surfaces strong opiate and astringent articles, which are of so drying a nature as to be in great danger of destroying the patient; whereas this modicine never dries or stops the cough, but, by removing the cause, generally destroys the bettle before the cough is entirely gene. Consequently, when the cough is curred the patient is well. Send address for pamphlet giving full directions for cure of pulmonary diseases. Price 35 ets., 50 ets., and \$1.00 per bottle, SOLD EVERYWHERE. DOWNS' ELIXIR.
