Hon Charles Francis Adams, of Massachusetts, a descendant of the old line of Presidents and once a great political leader, has been flecced by banco gamblers to the tune of ~\$20,700. He was once a man of large intellectual power, but for several years has been failing, until now the former Minister to England is a wreck. Taking advantage of his condition some gamblers inveigled him into a cambling house where they beat him out of all the balance he had in the bank; and more, as his account was overdrawn by the checks he gave for his gambling debt.

SENATOR LOGAN recently made speech in favor of a bill appropriating the revenue received from the sale of distilled spirits, to educational purposes. The amount of revenue in 48-1, was \$67,000,000, and a division as proposed on the basis of population would give Towarda nearly \$5,000. The bill makes education compulsory for children be twen seven and twelve years and provides that no part of the fund shall be used in erecting buildings. It will probably not pass Congress as it would divert a large amount of revenue from the ordinary expenses: and it is doubtful whether it is quite time for such an increase of expense but the bill has some good things in -it and deserves consideration.

THE President's veto of the Chinese bill states very clearly his objections to it and from the expression of the majority of the press, his action will generally be approved. The unrestricted immigration of the Chinese we believe to be impolitic treaty obligations; and the time of necessarily long. A reasonable bill, conforming to our treaty, and confinand it should be. Able men are on opposing sides of this question; but the sense of the majority is for some restrictions.

Spring Tooth Harrows

These implements are unequaled for inforong preparation of all plowed ground for crops. They will cover at one operation broad-cast grain nearly as well as a grain-drill will put it in, and should precede the drill in preparation of the soil. These Harrows should, by all means, be used upon Fall plowed ground. They are remarkably a apted to rough, and stony, as well as for smooth, ground. Township Agents Wanted.
