THE SCHOOLBOY. We bought him a box for his books and things. And a cricket bat for his bat. And a new pair of shoes and best of things. Under his new striped suit.

Rural Economy—Various Hints. The work of the season is now fairly on the former, and it is important that every hour of the farm laborers be economically filled.

Among the smaller items, important to be attended to, will probably be found broken tools, implements out of place, rubbish where it should not be, or rags or boards lying on the ground.

Many of these things may be put right on rainy days, or following rain. It is more permanent and to facilitate the work of the farmer.

- 1. Clean, polish and oil tools. 2. Repair any broken tools. 3. Clean and oil harness. 4. Shell corn. 5. Put all tools neatly in place.

ABOUT REPAIRING BUILDINGS.—The barns are usually empty at this season, and now is the best time to make the necessary repairs. If you expect to have the barns ready to use in the fall, it is better to have them repaired now.

DISPOSAL OF RUBBISH.—In the course of every year there will accumulate on every farm, a quantity of unsightly rubbish, such as broken glass, old tin, and other articles.

DEVILED LOBSTER.—Take a three-pound lobster and pick it to pieces with a knife and fork. Do not chop it up. Put it in a bowl.

PRESENTMENTS.

An investigation of the Cause of the Death of a Young Man. Much apprehension has been occasioned throughout America from the announcement made by Professor Procter.

The recent sad and sudden death of Hon. Clarkson N. Potter is one of the most serious warnings ever given in the long list of innumerable cases of fatal disease.

One of the physicians who attended Mr. Potter here was interviewed last evening. He stated that Mr. Potter's illness commenced about a week ago.

Up to the latter part of last year Mr. Potter was a member of the New York Stock Exchange and everything went on as usual.
