HENRY THOMAS, Esq., who will make an excellent Sheriff...

The County Commissioners organized on Tuesday last, by appointing JOHN MCKLEY, Esq., President...

Appointment by the Postmaster General. Wm. OVENBERG to be Postmaster at Bendersville, Pa.

It is an invariable rule with publishers of newspapers, not to insert communications unless put in possession of the real names of the authors.

The Board of Canal Commissioners will meet at Harrisburg on Tuesday, the 14th of November next...

DEAD: On Saturday evening week, at his residence in Shrewsbury, Hon. ISAAC KOLLER, Associate Judge of the Courts of York county...

THE DEATH OF GOV. BURT.—A telegraphic despatch announces the death of the Hon. Mr. Burt, the new Governor of Nebraska Territory...

HON. HENRY A. WISS.—This gentleman is out in a long letter against Know-Nothingism. Mr. Wise is spoken of as the Democratic candidate for Governor of Virginia...

President Pierce's health is now considerably improved.

By a fire in Gateshead, England, recently, seven tons of gunpowder exploded, destroying an immense amount of property...

Dr. Beale, a dentist, of Philadelphia, indicted for an assault upon a Miss Mudge, whilst the latter was under the influence of ether, has been found guilty...

A band of Apache Indians, lately, murdered a party of 50 Texan immigrants for California, and drove off their cattle and horses.

WORKMEN NEEDED.—The Kansas Herald says that a large number of carpenters could find employment in Leavenworth during this fall and the coming winter.

The Mormon Governor of Utah, Brigham Young, whose term is about to expire, says he will be Governor, let President Pierce appoint whomsoever he will.

A correspondent of the National Intelligencer, writing from Baltimore, says: "It is a somewhat singular fact, and one important to be generally known, that the oysters of our waters thus far this season, including the Chesapeake bay and its tributaries, have proved markedly deleterious to health."

The political complexion of the next Legislature we do not think can be determined until after the members assemble at Harrisburg.

Tao Know Nothings in various parts of the country are expending considerable quantities of powder over the Know Nothing Whig victory in Pennsylvania.

The recent Know Nothing State Conventions of New York and Massachusetts were very stormy. There may be two tickets in the former.

One of the evils of Know-Nothingism, and perhaps not the least serious, is that by selecting its candidates in secrecy the public have no fair opportunity of canvassing their character.

The West Chester Republican denies in the most positive terms that JOHN HICKMAN, Esq., recently elected to Congress in the Chester and Delaware district, has any connection with the Know-Nothings.

We beg leave to correct an error we made in giving a list of the members elect to the next House of Representatives...

Full Particulars of the Discovery of the Remains of Sir John Franklin and his Party. MONTREAL, Oct. 21.—The Montreal Herald of this morning has the following:

In our extra of yesterday evening we informed the public that a rumor was current in town that the remains of Sir John Franklin and his crew and their ships had been discovered.

We immediately despatched a special messenger to the Hudson Bay Company's agents at LaChapelle, and through the kindness of the Governor, Sir George Simpson, are enabled to lay before our readers the following outline of a despatch received by him yesterday from Dr. Lear.

Dr. Lear has been absent on the coast since the first of the month of June, 1853, and returned to York Factory on the 29th of August last, whence he forwarded letters by express to Sir Geo. Simpson, via the Red River settlement.

After briefly noticing the result of his own expedition, and the difficulties with which they had to contend, he proceeds to state that from the Esquimaux he had obtained certain information of the fate of Sir John Franklin's expedition...

The foregoing embraces all the particulars as yet known in Montreal.

The Late Outrage at Ellsworth, Me. Several of the P. oestant citizens of Bangor, Me., have presented to Mr. Bapst, the Roman Catholic clergyman—who was recently mobbed at Ellsworth, (but who is not dead, as reported) a gold watch and chain, of the value of \$150, as an evidence of their good opinion of him...

The undersigned learn, with regret, that the lawless portion of the inhabitants of Ellsworth, claiming the proud title of American citizens, on Saturday last made a wanton and unprovoked attack upon a person, destroying his clothing and robbing him of his watch and a sum of money.

Rev. Mr. Bapst, (who resides in Bangor, where he is the pastor of a church,) in his reply, expresses himself as deeply grateful, not only for the handsome present, but also for the kind and liberal sentiments set forth in the letter accompanying it, and adds:

The strong and public rebuke you give to the proceedings of the citizens of Ellsworth is more than reparation to me, as an individual, of the outrage perpetrated on my person, and of the offence committed against the public feeling of this country in favor of toleration and freedom.

THE CHOLERA AT MARTINSBURG.—The Martinsburg (Va.) Republican confirms the rumor that the cholera has re-appeared in that town. It attributes it to the impure water of diet, and the sudden changes of the weather.

Swallowed Whole!—The official return of Fayette county shows that Judge Black, Democrat, received 2,451 votes; Mr. Baird, Know Nothing, 3,777; Judge Snyser, Whig, 73.

EARTHQUAKE IN NEW HAMPSHIRE. KEENE, N. H., Oct. 25.—Shocks of an earthquake were sensibly experienced here at 10 o'clock last night. Many buildings were shaken, but no damage done.

Mr. Verdon:—I have perused with interest your article in the Standard of the 20th inst., in which you have been heretofore devoted to the service of the Whig party.

In Adams County, there are two papers which have been heretofore devoted to the service of the Whig party. How have they regarded the election of Mr. Pollock and the result in the County? Have they justly and fearlessly, as becomes the freedom of the Press, reviewed the producing causes, and hung out honorable and sincere signs of triumph or mourning?

If the Sentinel has not been sufficiently on the alert to arrest invaders, or sound the alarm, or report aloud the danger and wrong, and attempt to save harmless his party, what light will the Star afford?

The abolition test was introduced occasionally, but clearly as in the case of the candidates for Assembly, as a demerit resort, and from the force of habit, the practice of expediency and the love of a lobby.

But a few figures might tend to soften your heart towards the victims of your conservative party—and to bring to your aid a tear or two of sympathy for the political dead.

WHOLESALE MURDER AND SUICIDE.—By the late foreign arrivals, we have the following sanguinary item from Italy: A military man was in love with a young lady, whom he could not obtain in marriage.

IT IS computed that there will be twenty-one thousand miles of railroad in the United States on the 1st day of January next.

To the Editor of the Star. DEAR SIR:—It is impossible for me to bid you a final adieu, until I say a few words more to you on the subject of Politics and Catholics. It seems you cannot get the word Catholic out of your brain.

Your neighbor of the Sentinel has caught the malady from you, and has also become a harper in the furor against your "Catholic Friends."

But a few figures might tend to soften your heart towards the victims of your conservative party—and to bring to your aid a tear or two of sympathy for the political dead.
