

The Military.

Mr. KILLINGER, of the Senate, has offered a resolution in-structing the Committee on the Judiciary to inquire into the expediency of re-organizing the military commission of citizens of foreign birth.

This system has been adopted in Massachusetts. The Governor of that State has issued his order disbarring all such companies, and directed the Adjutant General to receive all the State arms belonging to such companies, and place them in the State arsenal.

We have no doubt if such a law would pass, it would prove a great relief to the foreign born citizen. To be exempt entirely from military duty in peace as well as war, is what many native borns would like, and we think they would have no serious objections to a war for their special benefit.

Every political faction that has ever sprung up in the State of Pennsylvania, says the Hollidaysburg Standard, has invariably fallen into the arms of the Whig party.

The K. N's. The Whig party, in the present instance, matters appear reversed—the K. N's, have swallowed the Whigs, tooth and nail.

A Man of Extraordinary Enterprise.

Our readers have no doubt heard of Professor HOLLOWAY, for whether we go to the confines of India, the diggins of Australia or California, the wilds of Oregon, the empire of China, or in fact, to any other part of the world, "Holloway's Medicines are known."

Holloway's establishment, in the Strand, is one of the lions of London, and should be visited by every sojourner in the modern Babylon. He has now one in Maiden Lane, New York, where his medicines are manufactured.

As a proof of the great celebrity of the Professor, we may add, among other things, that he has been a great traveller, and last year visited St. Petersburg, where he had the honor of being presented to the Emperor, and obtaining permission for the sale of his medicines throughout the Russian Empire.

A similar honor was conferred upon him by the King of Naples and the King of Sardinia. He has been to all the courts of Europe, obtaining almost every where special privileges for the sale of his medicines.

It must be admitted that Holloway is the greatest advertiser that ever lived, and has made by far the largest fortune in that line of any other man.—New York Sun.

CONGRESS.—A Washington correspondent of the Baltimore Sun, in a letter dated the 23d, says: The Pacific railroad was to-day finally referred to the select committee of thirteen, who, if they choose, may report in a week or so, and then there may be another fight on the bill, but it is not likely that there will be time to pass it.

The news here to-day from Albany is that Gov. Seward will undoubtedly be re-elected to the United States Senate, in spite of all the opposition the Know-Nothing can bring to bear against him.

The French spoliation claims were at last, on motion of Mr. Bayly, of Virginia, taken up and considered. So much has already been said on this subject that it would be a work of supererogation to attempt to make it clear.

The Legislature has taken another step forward in "reform" by electing some eight or ten additional officers—the precise number we don't see stated, but altogether the employees of the present Legislature outnumber those of the last by at least a dozen.

This is not a very important matter, it is true, as the additional expense will not much exceed \$3,000, but it exhibits a principle which, if not promptly checked, will soon become the fruitful mother of a hundred more. These officers are created for the sole purpose of making places for the idle followers of "Sam" to loaf at the public expense.

QUEER MATRIMONIAL BREAK.—A letter from a citizen of Livingston county, Kentucky, to the Danville Tribune, relates the following bit of family history in that neighborhood: "A widow lady took an orphan boy to raise, quite small, and when arrived at the age of eighteen she married him, she then being in her fifth year. They lived many years together, happy as any couple. Ten years ago they took an orphan girl to raise. This fall the old lady died, being ninety-six years of age, and in seven weeks after, the old man married the girl they had raised, he being sixty-eight years old, and she eighteen."

GUNS MADE TO ORDER.—A queer expression, to be sure; but it only describes a line of business carried on extensively in heathen lands. Here is the translation of a Chinese advertisement: "I will execute to order idols from two feet high to the size of a warhorse monkey, or the biggest and most hideous monster that can inspire the human mind with awe and reverence for religion. If the idol is the size of an orange outang, the price will be \$700; one of a sphinx size will be turned out for \$400; one the size of a bull-dog, with horns and hump, \$650; a buffalo size \$800; a dog size \$200; and the size of an ass, in the attitude of braying, \$1,000."
