Arrival of the Steamer Africa.

HALIFAX. Jan: 30th .- The chief news of interest centres in the proceedings of the Cougress of Vienna. There are sangune hopes of peace, yet fears are still entertained that the

war will continue. The French and English ministers at Vienna received the necessary power to re-open negotiations. Gortschakoff is understood to have received written instructions from his government-which is rumored to be anxious for peace.

There are conflicting statements, as usual, about Austria; but they generally lean towards the opinion that she sides with the Allies. Efforts are being made, especially by the Prussian cabinet, to obtain the consent of the Allies to an armistice.

The approaching Congress of Nations is more and more talked of ; and good results are anticipated if the United States takes part in it. Bavaria has almost completed her preparations for war; and letters say that the Swedish army will immediately be placed on war footing, reinforced by 65.000 troops.

Russia is preparing for the Spring campaign by re-organizing her army.

The latest dates from the Crimea are to the 10th inst. Affairs are the same as before. -Reinforcements are constantly reaching the \_\_Allies. The Turks in the Crimea are to be increased

o 60,000 troops, during January. Russian enforcements are advancing at forced marches. It was weather is frosty; and the snow has retarded the besiegers in their operations. Private Vienua letters say that Gortschakoff is instructed to accept any terms, except a re-

duction of the Russian fleet, or occupation of the Russian Territory.

HOW THEY SOUND A FIRE ALARM IN STOCK-HOLM.—An American, writing from Stockholm, Sweden, says:

"Fire is a rare occurrence here, almost every house, even the very poorest, being built of Additional tax from Estate of stone; consequently when it does occur there is great excitement. Along every street a man goes beating a drum violently, and every house is obliged by law to send a barrel of water, which stands ready in each court-yard. This rather slow and primitive method of extinguishing conflagrations would scarcely answer in our tinder-box towns."

DROWNED WITLE SKATING .- A lad named Francis Lyman, went out skating in Adrian, Michigan, a few days ago. Just before the boys started for the ice, the mother of little Frank called him to her, and cautioned him to be careful and not break through the ice. The little fellow promised he would; and, stopping a moment, he told his mother "if he should wel drowned, not to let any of the boys disturb his playthings, and to have them sent to his little cousin in Cincinnati." He then kissed his mother and went to play. In a short time he was brought home a corpse.

The New Hampshire Patriot has reliable information from different sections of the State, that the Democrats in the Know Nothing order are withdrawing rapidly, and that many Whigs are doing the same—all disgusted with the corrupt doings of its managers.
