One is apparently somewhat more robust than the other, and it is evident that in many of the characteristics of their constituents they are different. As one is capable of suffering while the other is unconscious of pain, it follows that their nervous systems are several, from which it is inferred that in case they should survive, each will possess a character and individuality of

This strange phenomenon is the offspring of respectable parents at Lancaster. Although delicate, it is thought the chances are in favor of its surviving. The case is in the hands of Dr. Boestler, one of the ablest physicians of the State, whose skill in its treatment is spoken of in terms of high commendation.

One Week Later from Europe. HALIFAX. Feb. 14.—The Royal mail steamer

Asia arrived here this morning, with Liverpool dates to Saturday, February 3d, being one week later than previous advices.

The news by this arrival is quite interesting, and politically highly important:

As predicted by the last arrival, the resignation of Lord John Russell has been followed by that of the entire ministry, and up to the latest moment prior to the sailing of the steamer, no new cabinet had been constructed. Lord Derby had been sent for and invited to form a new ministry, but he was unsuccessful.

Lord Palmerston, Russell and Lansdowne are all spoken of in connection with the formation of the new cabinet. The greatest anxiety prevailed in reference to the matter. From the Crimea the accounts represent that

no fighting of importance had taken place, but supplies were arriving and the condition of the troops improving.

A slight triumph has been gained by the diplomacy of Prussia over Austria, the former's proposition to prevent the mobilization of the Germanic army having been carried against the efforts of Austria in the diet. England has made a loan of £1,000,000 to

Sardinia. The Russian army is to be placed on the

war footing. Prussia refuses to permit the French army to march through her territory

The French force to guard the Austrian frontier is composed of 80,000 men. The Greek difficulty has been arranged.

Reports from Spain represent Mr. Soule, the American minister, as being seriously ill.

Important from Havana-Supposed Allempt to Murder Capt. Gen. Concha-Arrest of Concha's Secretary and Two Americans.

NEW ORLEANS, Feb. 14.—The steamer Empire City arrived here to day from Havana, with dates to the 9th instant. It was rumored that an attempt had been made to take the life of Concha. At night the palace was illuminated for a public reception, but at eight o'clock the gas was suddenly turned off, when it is supposed the conspiracy was discovered. Eighty arrests were made, including Concha's secretary and two Americans.

The Cubans are extremely apprehensive of a descent of fillibusters.

NEW ORLEANS, Feb. 16.—Advices from Havana state that a squadron of Lancers had rev lied at Pinar del Rio, and the Island was in g eat excitement and confusion. Numerous a rests had been made and bodies of troops were moving in all directions.

ORIGIN OF THE FRENCH SPOLIATION CLAIMS. -There is still much speculation affoat as to whether the President will or will not veto the j ty, Illinois. French spoliation bill passed by Congress. The historical facts upon which these claims are founded are stated to be as follows:

In the years 1788-'9 the United States were in a state of quasi war with the then Republic of France. Privateers cruised and made captures; national vessels met and fought on the high seas; and on land there was the array of armies, in anticipation of a formidable war. Then came the revolution which placed Bonaparte at the head of the French government. The United States urged upon France indemnity for the confiscation of the preceding years.

It was answered that they were made under authority of a government that had passed

A SNAKE IN THE SNOW .- It is no unusual thing, we believe, to discover "a snake in the But a snake in the snow is a rarity worthy of Barnum's consideration. Nevertheless, we learn from the Reading Adler, that on the 29th ult., Mr. Israel Ruth, as he was going along the road near the residence of Daniel Billman. Esq., in Penn township, found a black snake, 4 feet 14 inches long, lying in the snow, and killed it. The reptile forsook its winter quarters too soon.

The local Editor of the Buffalo Republic has made himself one of the immortals by the publication of a discovery which he has recently made, of great importance to mothers. It is an infallible means of keeping habies, from two to ten months old, perfectly quiet for hours. The modus operandi is as follows:-

"As soon as the squaller awakes, set the child up, propped by pillows, if it cannot sit alone, and smear its fingers with thick molasses. Then put half a dozen feathers into its i hands, and the young one will sit and pick the feathers from one hand to the other, until it drops asleep. As soon as it awakes, more molasses and more feathers, and in place of nerve astorn ling yells, there will be silence an i cojoyment unspeakable!"

INDIAN HOSTILITIES IN THE NORTHWEST.-Prospect of War with the Sioux .- The last mail brings to the delegation, in Congress from Iowa tidings that indicate a war with the Sioux Indians.—The immediate scene of hostilities is near the mouth of the Big Sioux river, in the northwestern portion of the State; but, from a letter received from the Governor of Iowa, it appears that about 500 warriors of the Yancton and Siston Sioux have also encamped near Fort Dodge, on the Des Moines river, in the central part of the State. The

Washington Union says:
It is represented that the Sioux Indians are claiming that they still own the land lying between the Little and Big Sioux rivers, and that they intend to occupy the same, and plant corn there during the coming season, notwithstanding that portion of the State was long since purchased by the United States, and is now occupied by white settlers. It will be recollected that the Black Hawk war originated under a precisely similar state of affairs, and experience in our intercourse with the Indian tribes of the Northwest teaches the importance of providing means for the immediate suppression of these difficulties."

MELANCHOLY CASE OF CRIME. -- In the Bucks county (Pa.) Court of Quarter Sessions on Tuesday week, Henry Carver, a wealthy farmer, of nearly sixty years of age, and the father of a family of grown up children, was placed upon his trial for the alleged petty larceny of stealing corn from his own tenants. The offence was fully proven upon him, and the jury returned a verdict of guilty.

Too TRUE TO BE QUESTIONED!! DEAD HORSES.—The Turks in the Crimca have a curious way of accounting for dead horses. It is Oriental, but satisfactory. One of the men left in charge of horses at Varna came down to Scutari to render up his accounts to the Commissariat officer of the department. The first thing he did was to produce a large sack which was borne into the apartment of the functionary by two men. "Two hundred of your horses have died," said the Turk. "Behold! what I have said in the truth;" and, at the wave of his hand, the men tumbled out the contents of the sack on the floor, and lo! 400 horseears, long and short, and of all sizes and shapes, were piled in a heap before the eyes of the astonished officer.
