Sale of the Main Line.

We agree with the Pittsburg Post, that the bill for the sale of the Main Line of the State Works, which is now before the House of Representatives, at Harrisburg, is so grossly absurd and unjust toward the State, that it cannot be scarcely regarded as worthy of a moment's consideration.

First. It discriminates in favor of the Pennsylvania Railroad Company, by proposing to repeal the tonnage tax, provided that Company shall purchase. This tax now pays the interest on nearly three millions of the State debt.

Second. The Columbia Railroad has in the year just closed, paid into the Treasury \$115,520 of net profit, after paying working expenses and necessary yearly repairs.

Third. Because it will be necessary to levy further burthens on the people in the form of a direct State tax, to make good the deficiency which will be occasioned by a sale at the price named in the bill.

Fourth. The bill imposes no obligation on the purchasers to keep the works open to public use. Nor does it place any limit on the rates of toll, nor does it protect the trade of the North and West Branch canals against oppressive exactions.

A sale under this bill amounts to giving away a clear, proper, solid and rapidly increasing revenue, amounting at minimum to \$580,000—and the whole of the Main Line from Columbia to Pittsburg—to save the payment of \$350,000 for interest.

Is it wise to sell on such terms? Is the State Treasury in a condition to suffer so large a loss of revenue? Are the people prepared to submit to further taxation, merely to put money into the purse of the Pennsylvania Railroad Company, which even now earns more than 9 per cent. on its stock?

The Vacancy.

There appears to be some difference of opinion about the vacancy in the United States Senate, one side contending that Governor Pollock has the right to appoint, and the other that the place must remain vacant until the next Legislature assembles.
