In Burnside township-there are three "Councils," one held at New Washington, one near Patchins, and one called the "Crooked Run Council." Dr. James M. Bunn is the "Deputy Instructor" under Swoope, for the New Washington Council, and those who know that individual best, can judge of the character of the instruction he would be likely to impart. I am sure they will not charge him with much moral instruction or many long prayers. In a recent instance in our township, after a regular nomination had been made and ratified by a vote of the Councils for township officers, these instructors, H. Bucher Swoope and Dr. Bunn. (a pretty pair.) ordered a new nomination to be made, and the Councils as in duty bound had to obey. How humiliating to the old inhabitants of the county, who were "pioneers" in its carly settlement. and who have had heretofore a voice in its political welfare, to be obliged to bow before the dictation of one who has not resided two years in the county. Let those who are opposed to "foreign influence," condemn at the same time this kind of "foreign interference" and I am with them. No matter how great a profligate, or how corrupt the man may be, the "Council" must yield implicit obe-dience to their "Instructor." He may be a gambler, a drunkard, a blasphemer of religion, and fresh from the scourges earned by his infamy, and yet the by-laws of this secret oathbound society require better men to surrender, not only their own judgment, but their sense of right and wrong, to blindly follow such a leader. Such is Know Nothingism, and such

its votaries know it to be. The meetings so far as I attended them, were generally occupied in initiating members. They have no object so far as I can learn, but that of controlling the politics of the country, and grasping the offices. The President for each Council calls the meetings together by a written notice, unintelligible to any except the initiated. He takes the chair and presides during the evening. The general topic of disland. cussion in the Council before the election last fall, was how to best decoy the Democrats into their ranks, and generally how to augment 'their forces, and gain the ascendancy. Their hope is to ride into power on the popular preindice against the Roman Catholic church, and indeed they are making rapid strides towards effecting their object. I could go with them in an honest effort against any political power attempted on the part of that church, and with that object in view many joined their ranks. But when I saw that bad men of all parties had joined them, and were willing to prostitute the association to the basest political purposes to obtain power, I could no longer see any hope of accomplishing the original object. They are now composed very largely of the ignorant, who-are-to be pitied ;- the bigoted sectarian, who is more designing than foolish ; the broken down and disappointed politicians of both parties; the demagogues, who love spoils more than party, and who fancy they can see a glimmer of hope ahead ; a part of the clergy in some of the Protestant churches, who are longing for power, and who carry=with them more or less of their members, the floating population of the country, with no fixed principles either moral or political, usually denominated "majority men," or men who vote on the strong side if they can find it. If these classes of men combined have the numerical strength, they will succeed. The order hopes to be able in 1856 to hold in their hands sufficient power to secure the election of a Know Nothing President, and by obtaining the reins of government to perpetuate their power. A desperate effort will be made ; perhaps such a one as this country never witnessed. In my opinion, if virtue, intelligence and honesty of purpose is in the as-cendancy in this country, they will be defeated; if not, they may triumph. For my own part I have heretofore been a Whig, and have always gloried in the triumph of Whig principles, but even to accomplish that object the sacrifice is too great. The following is a copy of the oaths and examination which every member must undergo, and subscribe to before becoming a member, as nearly as I can recollect. That they are substantially true. I pledge myself to prove in a court of justice if opportunity be afforded me. They are contained in a book, one copy of which is furnished to each Council. The "Instructor" has possession of it, and administers the oath from it, but the members are not allowed to have it. I suppose for the same reason that Roman Catholic Priests do not let their members read a bible ; because they are too ignorant to read and understand. it. I thought it strange that they as an order should adopt a course they so much disapproved in others. The candidate is first proposed by a member of the order to the Council, without his knowledge. Three negative votes black ball him.-If elected, he is secretly requested to present himself in the ante-room of the Council, when an officer appears from within and administers to him the following oath : [The Oath is precisely the same as the Oath published in the Compiler a few days prior to the last Election, so that we deem it unnecessary to re-publish it here.] I have thus given the forms as far as the second degree. I never went further. It will be a matter of regret all my life that I ever went so far as I did. I have now, however, done all I can to atone for it. I may add, before closing this communication, that the exposure published in the Pennsylvanian last summer is substantially correct, - and was so considered at that time in the Council. I was then a member, and heard it discussed.

Know-Nothing Misrepresentation Corrected

A Democratic friend in a neighboring Southhis region, in order to bring odinin upon the thirty are of foreign birth ; and he requests us the name, rank, place where born, and date of appointment of every officer in the service. It will be seen from the abstract below that the number is screnty-six instead of sixty-five. and that, instead of there being thirty of foreign birth, there is not one foreigner in the entire corps-every officer having been born in the Inited States. This is a fair specimen of the reckless misrepresentation which Know-Nothings resort to for the purpose of exciting prejudice against the administration as well as

against our naturalized populatiou : Revenue-Culler Service Corrected to the 31st of

The Fruits of Know-Nothing Rule ! A CITY BANKRUPT .- The city of Philadelphia has applied to the State Legislature for the passage of an act authorizing a temporary loan, s an immediate and pressing necessity to save t from insolvency. The Pennsylvanian says, the amount required by the City, to place her finances in even a respectable condition, is Fone million and a half of dollars ! - And all this in a little over nine months' rule of Know-Nothingism-the party which was so vociferous in its promises of retrenchment and reform before the election. The tax-payers of Philadelphia, we apprehend, have got more than they bargained for when they elevated Mayor Conrad and his band of midnight condear, very dear, for their whistle."

How it will turn out in the city of Lancaster and in the State, under the same kind of rule with Philadelphia, remains to be tested. We shall see what we shall see. in due time.--Lancaster Intelligencer.

SERIOUS COLLISION WITH UNITED STATES **FROOPS.**—Advices from Great Salt Lake City to the 7th of February have been received. The news of the appointment of Col. Steptoe as Governor of the Territory, vice Brigham | the city, of the faith of those who built it. It Young ; Harris, Secretary, vice A. W. Babbitt, and some other changes, took the Mormons by surprise, but it is not thought any serious opposition will be made to them.

On New Year's day quite a serious collision ing Quaker as a resident of Boston for several took place between the United States soldiers and the citizens, at a drinking-shop. Steptoe. The three companies of United States troops were quickly paraded House of Representatives of Wisconsin, by a under arms-they strengthened their position, and waited for the assault of the "Legion," which was every moment expected. This state of quasi warfare lasted for three days, when calmer counsels prevailed and hostilities ceased. As the affair grew out of a drunken fight, an order was issued by the civil authorities forbidding the further sale of ardent spirits in the city. The Territorial Legislature of Utah, at their late session, passed an act called the "Gift Law," by which the faithful are to vest all their real and personal estate of every kind in Brigham Young! It remains to be seen whether Congress will tolerate such outrageous egislation in one of the National Territories. On the 1st of January the wall of the city of Manti was completed to the height of eight feet, and is three feet thick at the bottom, and will form quite a barrier to Indian depredations. It surrounds an area of 100 rods square, the Temple Block being in the centre, and in addition to the dwellings, &c., encloses the grist and saw mills.

From the Frederick Citizen Acquittal of John Morgan.

We understand that John Morgan, who ern-State-informs-the Washington Union that it will be remembered was arrested in this it has been stated by the Know-Nothings in county, and held to bail on a charge of kidnapping and persuading slaves to run away administration, and to increase the prejudice - from their masters, and who moved his trial against our adopted citizens, that out of sixty- ' from this, to Carroll county ; was acquitted on five officers employed in the revenue-cutter, Tuesday last. The evidence of John Shaw service attached to the Treasury Department, was decided to be inadmissible. It will be remembered that John Shaw is the same indito inquire into the truth or falsehood of the vidual, who was convicted at our last Court statement. A Patriot after his Bounty Land.

The following is a copy of one of the two thousand letters applying for bounty land under the law of the last session of Congress, which were received, yesterday, at the Pension Bureau. The "frog sticker" referred to which was sent along, carefully done up by way of circumstantial proof of the applicant's service as claimed, is an old-fashioned half butcher's knife and half cut-and-thrust sabre, and looks as though it may have gone through all the wars of our country, from the old French war to the very last encounter with the Sioux on the great overland route to Oregon." -Washington Star.

WASHINGTON, March 27th. Mr. Commissioner of Pentions :

I send you my frog-sticker. I was in the war at bladensburg, and used this saber like a true solger. I want you to give me land, as they say you am the man for that business, and I want you to send my land to me by the rale rode, so that I can git it, and I want you to give the frog-sticker to the Congress of America, for I see that old president jackson had his sord give to that benevolent asilum, or you may give it to the Washington monument.
