#### One Week Later from Europe. NEW YORE, April 23 .- The steamer Nashville, chartered by the Collins company in place

of the steamer Pacific, arrived here at noon to- of Cleveland. exploded her boiler this morning, day. The week's news may be briefly summed up men were killed, among whom were W. J.

thus: Political affairs are just where they were at the period of the closing of previous | Donnelly, the second engineer : Edw. McBride accounts, except that the feeling becomes strong- and Wm. Reid. The names of the others are er that nothing is left but to fight out the diffi- unknown. culty. The adjournment of the Conference until the 9th was to await the Russian ultimat-, and five or six others were more or less woundum and the arrival of the French and Turkish Ministers of Foreign Affairs at Vienna.

little hope of an early peace. The Emperor Alexander is evidently preparing for a desnerate struggle-one hundred and forty thousand men have been marched to the reighborhood of boiler. the Baltic. Two fortified camps of sixty thousand are established between Riga, Narra and Revel. The approach to all the northern sea- of lime and sand, which appears as though it port towns are being blocked up with sunken vessels. Heavy batteries are erecting at Dan- altogether. It is very smooth and hard. It amunde. The Grand Duke Constantine has is larger than the common brick, and a vacant gone to Cronstadt to inspect the coast of the Gulf of Finland. Russian reinforcements to materials used in the manufacture of these the number of fifteen thousand arrived at Scbastopol on the 18th.

Previous to the adjournment of the Vienna conference the Russian Plenipotentiaries re- our common clay brick. The bricks can, of fused to admit "that in accepting the third point they have to acknowledge the principle of a diminution of the Russian power in the Black Sea ; asserting at the same time that the -demand for the reduction of the Russian fleet is contrary to the dignity and sovereign rights of the Emperor." Nesselrode will attend the conference during the discussion of the third point.

It is rumored that the allies will, for the purpose of meeting this difficulty, propose to exclude all ships of war from the Black Sea. Austria differs with the allies regarding the Black Sea question. It is reported that she will remain neutral should the allies demand the destruction of Sebastopol, and she declares that she entered upon the present arrangements with the allies for the purpose of checking, not crippling Russia.

It is almost certain that Russia will refuse the third point.

ambuscade which the French attacked unsuc- twenty-four hours, put them into a coarse cessfully. On the 18th the allies expected to cloth, and squeeze the oil from them. This commence operations.

Omar Pasha on the 3d had 24,000 men re-Alma.

are ordered to Sebastopol.

The Austrian army of observation is drawing closer to the Pruth and the Danube.

#### One Week Later from Europe.

HALIFAX, April 25.- The Royal Mail steamship Africa arrived at this port last night. She sailed from Liverpool April 14th, so that

her intelligence is one week later than was received by the Nashville. The news by the Africa is interesting, though

going on, but the condition of affairs had undergone no change.

The allies report themselves as ready and fully prepared to open the general bombard- that he would be a good boy in the future .-ment of the city.

The Russians have constructed two new batteries, and converted their ambuscades into advanced parallels, in despite of all the combined efforts of the allies to prevent their progress. Every day seemed to add to the energy, perseverance and skill with which they

conducted the defence of the place. The position of Omar Pasha and the Rusthe former had enlarged his line of defence to receive his reinforcements. This proves the report about the death of Omar Pasha, &c., to have been unfounded. ] Canrobert's dispatch estimates the loss on the night of the 22d. during the great Russian sortie, to have been as follows : Russians, 700 and 400 wounded. The English loss is not given. The ninth session of the Peace Conference was held at Vienna on the 8th inst., and lasted but one hour. The Russian Plenipotentiaries had not received their instructions, from the new Czar, and were therefore unprepared for discussion Everything seemed at a stand still, and the prospects of peace were deemed very slight. The question relative to an indemnity for the war is to be deferred. and not allowed to interfere with the prospects of peace. The British Government advertises a new loan, the amount of which was not known, but sterling.-Almost immediately after its announcement the funds fell to 91 a 913.

Steamboat Explosion-Ten Men Killed and Six Others Wounded.

DETROIT. April 20. - The propeller Oregon, when about four miles above this place. Ten Chapman, the first engineer of the boat : Thos.

Capt. Stewart had one of his legs broken ed.

The propeller was completely shattered, and A careful reading of the accounts exhibits sunk shortly after the disaster. The loss, there is no insurance.

The explosion was caused by a defect in the

NEW MATERIAL FOR BUILDING .- We were shown yesterday a "specimen brick," made would take the place of the common clay brick space in the center. We are informed that the bricks are simply lime and sand, the proportion being about eleven parts sand to one part lime," and they can be manufactured at less cost than course, be made of any form or shape, according to taste. It is fully equal to sand stone. The advantages are the facility with which they are manufactured : lathing and plastering becomes unnecessary, and the outside and the inside of the wall is made at the same time.-The chemical change which takes place in the manufacture of bricks hardens them so that they are not more affected by the action of the atmosphere than stone. It is not affected by frost, and experiments which have been tried to test its strength and other qualities have resulted satisfactorily. Scientific men have examined the material and have arrived at the same conclusion.- L'incinnati Guzelle.

The perfume of Flowers may be gathered, according to the Scientific American, in a very simple manner, and without apparatus. Gather the flowers with as little stalk as possible, and place them in a jar three parts full of The Russians in the Crimea still occupy the olive or almond oil. After being in the oil process, with fresh flowers. is to be repeated according to the strength of the perfume desirconnoitering the position of the Russians on the ed. The oil being thus thoroughly perfumed with the volatile principle of the flowers, is to All the allied ships of war at Constantinople be mixed with an equal quantity of pure rectified spirits, and shaken every day, for a fortnight, when it may be poured off, ready for use. As the season for sweet scented blossoms is just approaching, this method may be practically tested, and without any great trouble or expense. It would add additional interest to the cultivation of flowers.

to the cultivation of flowers. A New SECRET ORDER.—A young man was arraigned on yesterday before the officials of Hamilton, charged with being a member of the Boiled Egg Club, a society whose main object was avid to be utbe dependent of Memory with the Memory of Market A.
