A special correspondent of the New Orleans Picayune, at Bolivia, Mississippi, writing under date of July 13th, says :

I learn that there is considerable sickness on the river now, the boats often stopping to bury their dead. I was informed by a physician that seven were put off on Tuesday last at Napoleon. Our country continues healthy. I heard a good story the other day. It is tough, but my informant vouches for the truth of it. On the steamer -----, on her last trip, there were many cases of cholera-many died and were buried. At length all the coffinplank was used up, and the carpenter was compelled to make his boxes out of old flatboat plank. At sundown another case dieda deck passenger. He was thrust into the box, and the top loosely nailed on.

The captain ran into the wood-yard, and not liking to stop to bury the body, bargained with the owner of the yard, an acquaintance, to do it for him. The box was left under the bank alone until morning, when the wood incrchant promised to hide it. In the morning hesent two of his negroes down to dig a hole, when they came liack, their eyes dilated with horror, and their wool standing on end ; swearing that the dead fellow was thumping and Knocking to get out. The master went down and a strange sight presented itself. The corpse had revived, and finding itself in rather close quarters, exerted itself and burst the rather slight fastening, thus releasing itself. The man was soon well, and is now chopping wood at the place. The boat has lauded there since, but although the resurrected will como to the landing and talk with the officers, no persuasion can induce him to go on board. He is fearful of being served another trick. TROOP OF MONSTER GUNS. -Mr. Nasmyth, of Patricroft, who is making the monster guns for the Horatio, has nearly finished the first gun, which, we believe, will be ready for trial in a few days ... It was arranged that this gun Tuesday, the 21st of Jugust inst., at 1 o'clock, should be tested on the North Shore at Liver- P. M. A full attendance is desired. pool, and this. we hope and believe, will be done, as originally intended. Military and scientific men from all parts of the country will be present on the occasion. These guns, with their carriages, will weigh fifty tons each, and will carry a shot half a ton weight a distance of four miles. It will take two and a quarter barrels of powder, or 225 lbs., for a charge. Guns like these must add a new feafure to the destructive engines of modern warfare, particularly against such stone walls as those at Cronstadt and Sebastopol. - Liverpool Times.

LANGE MASS OF SHAFE ORE - A solid mass of silver ore was received in New York by the 71 steamer George Law, last week, weighing 25 pounds, and valued at \$3,000. It is the product of one mine on the Isthmus, and sent on to be coined. The Express says :

It is very curious that silver is becoming abundant, and that at the mint in Philadelphia, HALIFAX. REACTION IN MISSOURI .- A law and order meeting was held lately by the citizens of Ray county, Mo., at which, while denouncing "abolitionism in its true meaning," they declared in favor of abiding by the laws of the State of Missouri and of the United States, as being sufficient to guard their-rights and property. and opposed "to all mobs to drive men either to religious or political measures." A resolution was also adopted to support no man for public office who had in any way proved himself in favor of mobs. There seems to be a teactionary movement taking place in Missouri, vorable indication we have seen.

The Union Star has changed hands and locality-Messrs. Merrill and Smith retiring, and Rev. Sam'l Gutelius succeeding them, who intends changing its location from New - Berlin to Mitllinburg, in the new county of Snyder .- The recent division of old Union county throws New Berlin in the same county with Lewisburg, which is already bountifully supplied with newspapers. It is the old Whig organ.
