The Distinguishing Genius of the Age. Nature, now and then, brings forth such geniuses as Newton, Shakspeare, Talleyrand, Milton, Nelson, Napoleon, Washington, Franklin, Jefferson, Luther, Cromwell and Jackson. Their powerful intellects compelled the world to admire them.

The genius of the present age is Discovery. In the progress of the arts and sciences, this age is immeasurably superior to any former for its wonderful discoveries in the sciences ical condition. and arts. Among these, the noble science of Holloway has discovered and prepared a! remedy for the diseases of man in whatever clime destiny may have given him birth. We readers this distinguished physician, whose reputation is already engrafted on the world's history. As a physician, he has copied Naknowledged Emperor. Both in the sale of his ; medicines, and in the number of patients, that Holloway has labored to supply the human family with a permanent remedy for their disford relief. His Pills and Ointment, prepared from selections from the vegetable kingdom, with great care, will drive disease out of the system. Thousands of the most intelligent minds of all nations, men distinguished in every sphere of life -the statesman. philanthropist, conquerer, and those whose highest aim is to do good to their fellow men, unite in their praises of the remedies discovered by Professor Holloway for the removal of disease.

. In uniting in this general recommendation of the remarkable virtues of Holloway's remeday proved conclusively that, whenever the dies we only perform a Christian duty, which occasion shall demand a display of chivalry, their respective dues, and all persons having the press should never neglect. Those who are eminent for the good they do in the world, have a just claim upon the press for aid in extending the good to the extent of their power. Therefore, we have determined to express our opinion that Holloway's Pills and Ointment Greek, Theos; (Th is but one letter in the are adapted to the removal of disease, and have restored millions of the sick to health .- New York Atlas.
