From the Stallinger Snoot Wednesday Latest from Norfolk and Portsmouth, DERBIBLE RAVAGES OF THE EPIDEMIC

The news from Norfolk and Portsmouth is truly appailing. The epidemic, instead of decreasing as it was hoped it would a few days ago, is steadily becoming more and more malignant, and the daily list of victims swelling to a most frightful extent. Many who have nobly braved the disease since its first appearance in attending upon the sick and the dying have, since Saturday, fallen victims themselves. and others who hastened from their distant homes, but recently to alleviate the sufferings disease. The medical profession have lost another of their number-Dr. Geo. Mr. Gatewood, is ill. A large number of other prominent critzens are cither among the victims or the sick. The Norfolk Herald of Monday says :---

The 24 hours ending yesterday at, 2 P. M. shows; a frightfol mortality. Twenty-nine deaths are registered, and 100 more have been ordered; which is doubtless short of the actual number Between forty and fifty is said to have been the number of burials; but some were of persons who died within the preceding

mouth, and reports the distress in these places to be beyond all description. On Sunday, in Norfolk, there were forty dead bodies without coffins or any, one to bury them. The number of deaths in Norfolk on Saturday, he states, was fifty-five; on Sunday sixty, and on Monday fifty-four. Col. Furguson, President of the Howard Association, informed the Doctor that in Norfolk on Sunday there were 1.000 cases of the fever; and in Portsmouth about 400. The Doctor thinks the disease will conplace for it to attack. A committee of fourteen from Hampton came up to this city yesterday morning, en route for Washington, to ascertain whether or not Old Point can be procured for the purpose of removing the entire population of Norfolk and Portsmouth.

Mayor Fisk, of Portsmouth, is ill, and will, it is feared, die. Nurses are needed badly in Portsmouth: not one from the South has stopped there. In the Norfolk Hospital on Sunday night there were 16 deaths.

We learn with regret that our regular Norfolk correspondent, who, after aiding and assisting the sick since the disease made its first appearance, has at last been taken down. We are, therefore, without a letter from him, Dr. John Morris, of this city, still remains there, tendering his valuable services to the athlicted. We are glad to learn that, his health continues good, and that Drs. Webster and Walters, of this city, are well, and faithfully discharging their duty in Portsmouth, 17

The Richmond Despatch states that 125 cossins were to be shipped from that city yesterday to Norfolk. The Despatch estimates the total number, of deaths in Norfolk, from the commencement of the disease, up to Saturday, some six weeks, at 500, and since then about 100 more have died. In 1821, when the yellow fever was there, only 160 died during August, September and October.

The following letter is from Dr. Webster, of Baltimore, to his father:

Dear Father -The mortality in this place vesterday was truly appalling-the report of deaths being no less than thirty-one! Last night my room-mate, Dr. Ringer, of Philadelphia, was attacked with the fever. Our latest, accounts from Norfolk and Portsmouth, although they do not represent the mortality—particularly in the former city -he great as for several days previous, are still deplorable enough. We learn from Dr. Maund, of the Baltimore Board of Health, who came up in the steamer Louisiana vesterday, that none of the newspapers were issued in Norfolk, on Wednesday, but that as far as could be ascertained there were some forty deaths on that day, by fever. In Portsmouth, up to 12 o'clock noon on Wednesday, there were twenty deaths, and the new cases were on the increase. Mayor Fiske, although very ill, we are pleased to learn, is not dead as reported by way of Petersburg. It is believed he will recover. One account says he spectable portion of the citizens of Jeffersonville have been thus disgusted and turned from a is convalencing. Dr. Marshall, of Baltimore, is said to be very ill of the fever. Dr. Howell, of Richmond, and Drs. Bryant and Azpell, of Philadelphia, are also sick. Dr. Miller, of Philadelphia, who was on his return home, was taken down, on the trip up to Baltimore, and was sent to our quarantine hospital.

> We are indebted to Hon. S. L. RUSSELL for valuable Public Documents: We are sorry that Mr. R. is not yet in Congress instead of Mr. Robison, for his course there indicated that öf an apright man and an honorable politician. His vote in Congress, on this subject, when Know-Nothingism was at its highest pitch, proved his devotion to the country and the Constitution. There are many Whigs in Bedford county who feel proud to follow the example he has set them.—Bedford

GEN. CASS ON THE KNOW-NOTHING PARTY.-Gen. Cass repels an assertion in the letter of Gen. Houston, of Texas, that he (Gen. C.) approved of the platform of the American Order, as proclaimed in the Philadelphia Convention. Gen. Cass denies this, and refers to his remarks founded upon emigration, and grown prosperous and powerful by toleration." He announced in the same speech his utter repugnance to the new parties and other combinations of the enemies of the Democracy, to fasten their odious and often rejected policy upon the country. "We want no new parties-no new platforms." he said, "no new organizations—and the sooner those dangerous efforts are abandoned, the better will it be for us, and those who are to follow us in this heritage of freedom. He reiterates these views. He relinquishes none of his opposition to the secret order and its principles, and he regards the Deinscracy as the only and true American
