

One Week Later from Europe.

Sebastopol is to be razed to the ground. The Allies in Position on the Left Flank of the Russians. The Russians Making a Stand on the North Side of Sebastopol.

HALIFAX, October 9, P. M.—The steamer Canada, from Liverpool, with dates to Saturday, the 29th ult., arrived here this evening. Her advices are a week later than those received per steamer Pacific.

THE LATEST FROM THE CRIMEA. Prince Gortschakoff telegraphs, under date of September 23d: "The allies have landed 20,000 men at Eupatoria, and have now 30,000 men on the Russian bank."

The allies attacked the Russian infantry on the 22d of September, when the latter retreated. On the 25th a force of 33,000 allies debouched from Eupatoria and occupied the neighboring villages on the left flank of the Russians.

SEBASTOPOL, September 16.—The Russians are fortifying the north side of the city and are constructing new batteries.

The French were advancing their cavalry and infantry towards Bakshi Serai.

The fortifications of the South side of Sebastopol are to be razed and the basis of the harbor filled up.

A fearful tempest visited Sebastopol on the 17th ult., causing much discomfort to the allies. The allies are concentrating their forces between Balaklava and the Tchernaya.

Frightful Ravages of the Cholera in Florence.

A letter from Florence gives very terrible accounts of the ravages of the cholera. No less than 11,000 persons have, it is stated, been carried off in the month of August. The population of the city, which is on an average 100,000, is now reduced to 60,000 by death and flight.

A Balloon in a Thunderstorm.

Wonderful Escape from Death.—We mentioned yesterday, that Mons. Godard, Col. Latham and Messrs. Hoal, Crippen and Belman ascended in a balloon at Cincinnati on Monday. It appears they encountered a violent thunderstorm in the clouds, which drove the balloon on, it is stated, at the rate of 70 miles an hour, and that they attained an altitude of 17,450. Mr. Belman thus describes their descent after dark and during the storm:

Suddenly we felt our car rushing over the tops of trees, crashing and tearing the limbs as the balloon was driven along. Mons. G. gave us the valve rope, and mounting the side of the car, he ordered us to hold fast. In another moment we landed in a corn field, and by the force of the wind were dragged and bumped along the ground a distance of half a mile; or two, or whirling through the corn stalks at a fearful velocity; our heads rapped each other, and not unfrequently we saw stars all around. Up and down we went, when the car struck a tree, and Mons. Godard was hurled to the ground a distance of 30 feet; the next moment we were crashing against a tall stump of a tree, when Col. Latham and Mr. Hoal were thrown with great violence from the basket, the former on the back of his neck and shoulders, and the latter on his breast.

Mr. Crippen obeying instructions to keep in the bottom of the car, and I holding with all my might to the valve-rope, up we mounted. Fortunately we dashed into the limbs of a tall dead tree, and in an instant tree, balloon, car and aeronauts were flat on the ground. Mons. G. had his lip badly cut, and the flesh lacerated on one of his limbs; Col. Latham an ankle sprained, head, shoulders and body generally bruised; Mr. Hoal his breast crushed in, three ribs broken and otherwise badly bruised; Mr. Crippen his head and neck "kewed," and generally scratched and bruised. I was bruised somewhat, but not materially injured.

SHOCKING AFFAIR AT ST. LOUIS.—A man named Wm. Ebberling, a shoemaker by trade, in St. Louis, had for a long time, it is stated, lived unhappily with his wife. On Thursday week, the Democrat of that city says:

He was seated on his bench, working at his trade, when a dispute arose between them, and he made a sudden spring upon her, catching her by the throat, and inflicted five wounds upon her with a sharp-pointed shoe knife, which he had in his hand at the time, any one of which was sufficient to have caused death. She is not dead yet, but the physicians in attendance pronounce her recovery impossible.

He then fled from the house, followed by a large Newfoundland dog belonging to him, and proceeded to the river and jumped in for the purpose of drowning himself. He was dragged out, however, by the dog, before he had accomplished his purpose. He then caught the dog, and with the same knife with which he had stabbed his wife, and which he had never let go, deliberately cut his throat, and again jumped into the river, and succeeded in accomplishing what the more noble brat had prevented him from doing at first.

HEROISM OF A DOG IN THE CRIMEA.—The following account of the exploits of a dog in the Crimea is translated from the Gazette of Trieste, and surpasses every thing heretofore recorded of the devotion and bravery of this noble animal:

"A great sensation has been caused in the camp of the allies by the heroic deeds of a dog belonging to Colonel Newman, of the 73d Regiment of the Line. On the 10th of August, during the battle of the Tchernaya, the qudruped broke his chain, fought in the ranks of the army, saved the life of a sergeant and a soldier, and took three Russian prisoners. A ball struck his foot, but the wound only entered the animal's nose. He threw himself upon a Russian officer, flung him to the ground, and dragged him prisoner by his coat collar to the French. A physician has bound up the wound, and the four-footed hero is convalescing. He will probably receive some mark of honor, as another dog in the English army has been rewarded with a medal for his devotion to his master."

THE AMERICAN NAVY.—It is sometimes mentioned as a fact worthy of notice that the naval armament, destroyed by the Russians themselves, to prevent it from falling into the hands of their enemies, exceeded in number of guns the whole naval force of the United States.

VARIETY.

The total receipts at Baltimore, for the Norfolk sufferers, amount to \$49,481.

The fruit trees near Charlottesville, Va., are said to be blossoming again.

It is rumored that a celebrated phrenologist has been invited to examine the "head of navigation."

Jackson, "the American Deer," beat Frost, the English "Stag," at a foot race near London, recently. Jackson ran five miles in 26 minutes.

A "Bread League" has been formed in Charleston, Mass., by which it is expected that some reduction in the prices of the necessities of life will be effected.

P. T. Barnum delivered the address at the Chenango County Agricultural Fair, at Norwich, N. Y., on Thursday week. He made his entry to the grounds in an omnibus drawn by twenty-one yoke of cattle.

TROOPS SENT TO THE CRIMEA.—It appears, from official returns, that up to the 15th September there were shipped from Marseilles and Toulon, for the East, since the commencement of the war, 226,000 men, besides 45,000 from Algeria, Corsica, and Italy.

REVISION OF THE BIBLE.—The American Bible Union Society is holding its sixth anniversary meeting in New York. The object of this society, it is well known, is to revise the present version of the Bible, more particularly so as to make it conform to the tenets of the Baptist sect as to the ordinance of Baptism.

LYNCH LAW IN TENNESSEE.—Judge Lynch, it appears, has been at work in Tennessee. Last week, on the Cumberland mountain, a slave, who violated a white female, was dragged from jail and hanged on the nearest post, and at Lagrange another met a similar fate, for killing Mr. James, his overseer.

LIABILITY OF LANDLORDS.—The landlord of a hotel in New York has just been mulcted in \$100 damages for baggage stolen from the room of a boarder during his absence—he having locked his room and left the key with the bar-keeper.

THE PROHIBITORY LIQUOR LAW AGAIN PROPOSED.—Judge Houghton, of the New York Superior Court, has decided that the Prohibitory Liquor Law is unconstitutional, and says the Legislature had no right to pass such an act. In the case of the people vs. Stevens, the defendant admitted the offence charged against him, and was discharged.

The steamship Adriatic, now being constructed for the Collins line of ocean steamers, will be, it is said, the largest and most magnificent vessel afloat. Her measurement will be five thousand six hundred tons; her length will be three hundred and forty-five feet on the broad line; depth of hold thirty-three feet; and breadth of beam fifty feet.

MISS CLARA HASKINS was found dead in her bridal dress and chamber near Natchez, Mississippi, on the 2d ult. After being dressed by her bridesmaids, she requested them to retire for a short time, and when they returned they found her lying lifeless upon her couch, with an empty vial which had contained prussic acid still clasped in her hand. She had adopted the desperate alternative of self-destruction rather than marry a man she could not love in obedience to parental authority.

KENDALL ON ROYAL BEAUTY.—Kendall, of the New Orleans Picayune, writes home that the ladies in waiting upon Victoria at Paris were a "distressing homely set," nor does the profane republican treat royalty any better. Listen to his description of the Princess, Royal of England: "She is a fat, chubby, and coarse specimen of a girl, a homely likeness of her mother, who never set up any pretensions to beauty that I am aware of!"

SANTA ANNA'S SON IN TROUBLE.—Santa Anna's son, who figured as a colonel in his father's army, mostly in Michoacan, was taken prisoner a few days since on his way in disguise to Vera Cruz, with the intention of embarking secretly from that port. The people of the village where he was arrested determined to lynch him on the spot for some alleged crime; but he was preserved from their vengeance and sent to Vera Cruz, where he awaits his trial. He is only 25 years of age, but is charged with some horrible crimes.

A FIGHT BETWEEN DIGESTARIES.—The Louisville Courier states that a fight occurred in Richmond, Mo., the other day, between Hon. M. Oliver and Gov. King. They were separated just as the Governor was in a fair way of getting well whipped. The Governor struck the first lick. The quarrel occurred in the court-room, and originated in the examination of witnesses. The Judge fined them \$50 each.

The Knickerbocker says: "How any one can look at the human foot, composed of one hundred and forty-four bones, any quantity of elastic cartilage, a gill and a half of lubricating oil, and ten thousand other arrangements for first-class kicking, and still believe that it is a duty to receive an insult without making a man smelly of leather, is one of those eccentricities connected with the human mind, that we never could fathom."

HOLLOW'S PILLS are an excellent Family Medicine, and recommended to all sufferers with diseases of the Liver and Stomach.—The surprising effect of these wonderful Pills has naturally and from an universal favorite with the citizens of the world, as they are the best and safest remedy for all disorders of the liver and stomach; and to the bilious sufferer they are invaluable. It is indispensably admitted that these Pills have never been known to fail to cure those disorders when used in accordance with the directions which accompany each box.

Mrs. PARTINGTON on SHREKESPEARE.—There came a certain lord, neat and trimly dressed; read the. His mother interrupted her interesting son—"Isaac," said she, "I know who Mr. Shakespear refers to in that tale. It is old Zeckil Lord's son James, who was awful poor and stuck up after he got that tickle-sneeze on him now sit at Rochhill & Wilton's, 111 Chancery street, corner of Franklin Place!" The reply that he had heard of the "sneeze," and that he was "sneezy" for a "tick" "tick" himself, whenever it met the views of the government.
