GETTYSBURG, PA.

MONDAY MORNING, DEC. 3, 1855.

The editor is absent from home, on

business.

Congress meets to-day. From present indications it is likely that some delay will take place in its organization. We shall endeavor to lay the President's Message before our readers as early as possible.

The Philadelphia Argus of Wednesday contains quite a lengthy notice of "Old Penelope," and expresses the hearty wish that the gallant Democracy of Adams may soon secure not save a single one of their candidates from another in her place.

For the handsome manner in which our friends of the Argus have seen proper to allude to the editor of the Compiler in this connection, we can only thank them. They are clever, gentlemanly fellows-are the Argus folks ;print a good paper, and deserve carnest consideration at the hands of the Democracy of the old Keystone. May they live long, and continue to prosper, even beyond their highest wishes.

More Counterprits. - A number of counterfeit notes on the new Consolidated Bank of Philadelphia were put in circulation within a few days, which are said to be sufficiently well executed as to deceive those not well acquainted with the genuine note. In the country, especially where these notes are little known, great care should be exercised to avoid being

FRANK LESLIE'S NEWSPAPER.-The first number of the above Illustrated Journal was issued on Saturday last, and contains sixteen Quarto-Pages, with numerous splendid engravings illustrating events of the day; amongst which are a correct view of Dr. Kane and party abandoning their vessel; the meeting of Dr. Kane and Lieut. Hartstein in Greenland; the Burial of one of their Comrades on the Ice; View of a Ball given to Dr. Kane and party by the Greenland Ladies; and a splendid large picture of Dr. Kane and his comrades as they appeared in the Arctic Regions; taken from an ambrotype by Brady. Also, numerous other engravings, and all the news of the week. Six months subscription, 1 volume, \$2 00. In his own county he enjoys a rare personal popularity-and no one man, we learn, did more than he to produce the late gratifying and glorious result in that county, where the Know-Nothings did the general wreck of their party. Mr. Danner's nomination would be responded to, in this section of the State, with hearty good will for himself when there was a heavy political majority against him, would doubtless contribute handsomely to swell the columns of Democratic triumph which surely awaits us in 1856. From the Phila. Pennsylvanian.

Auditor General. Hon. JOKI. B. DANNER, of Adams county, is favorably mentioned in a number of the Democratic papers in the State, in connection with the nomination for Auditor General by the next Fourth of March Convention. Mr. D. is a gentleman of sterling qualities, and if nominated (his election would of course follow) he would be found attentive to duty, prompt, and efficient in its discharge, and always obliging .--Adams county, too, deserves some consideration at the hands of the Democracy of her sister counties, for having, during the storm of bigotry and intolerance in 1854, assumed a Democratic position, and in 1855 "done better."

Hon. JOEL B, DANNER, of Adams county, is named by a correspondent of the Allentown Democrat, as a suitable candidate for Auditor General of the Commonwealth. : Mr. D. is a first-rate Democrat and a highly intelligent and notive business man-in all respects well qualified for so responsible a post. To this majority should be added the Democratic ballots destroyed in one of the wards of New Orleans. The Picauune, notwithstanding its decided Know Nothing proclivities, publishes returns which are even more favorable of Wickliffe.

PREPARMENT OF POSTAGE TO BE MADE BY STAMPS ONLY .- It will be recollected that by the act of March 3, 1855, requiring the postage on all letters not free sent by mail within the United States, and not from or to a foreign country, to be prepaid, it was also enacted that from and after January 1, 1856, "the Postmaster General may require postmasters to place postage stamps upon all prepaid letters upon which such stamps may not have been placed by the writer." In view of this fact the Union says:

We learn that the Postmaster General has deeided to require postmusters to comply with, and carry into effect this provision of the law; and. if not already done, to supply themselves with postage stamps accordingly by sending their order for them to the Third Assistant Postmaster General. The suggestions were unanimously approved by the Board, and were earnestly recommended to public consideration. The distance from Pittsburg to the mouth of the Ohio is 977 miles, with an aggregate fall would create pools of an aggregate length of 132 miles. The average cost of the work is from seven to ten thousand dollars per mile, which is supposed to be about half the expense of an ordinary canal, or about one-third

Pardon of Dr. Stephen T. Beale.

Gov. Pollock has pardoned Stephen T. Beale, the Philadelphia Dentist, who was convicted of an outrage upon the person of one of his female patients while under the influence of 1854, to four years and six months' imprisonment. He has, therefore, fulfilled about one year of his sentence. The Governor gives a lengthy statement of the reasons which induced him to pardon Dr. Beale, which were principally the receipt of numerous petitions from dentists, physicians, lawyers, clergymen, editors, Judges, and prominent citizens generally of this and other States; the failing health of the prisoner; the destitute condition of his aged parents, wife and children: and lastly,

The pardon concludes in the following words: "And whereas, after a full and careful exhas given rise, (without any intention to reflect upon the prosecutrix, who no doubt testified to what she believed did occur-nor to mittee to solicit subscriptions. impugn the integrity of the learned Judge who tried the case, nor the honesty of the jury who convicted the prisoner) I am now satisfied that the defendant, Dr. Stephen T. Beale, is not guilty of the crime whereof he stands charged, and was convicted upon evidence unreliable in ts character and insufficient in amount."

Theory of Disease.

AND ITS SIMPLE METBOD OF CURE.-It is not our object, at this time, to go into a detailed explanation of Professor Holloway's theory of disease, but simply to inform the American people that one of the most remarkable men of this or any former age is among them, and that his medicines have a celebrity unprecedented in the annals of the world. There is no charlatanry in his pretensions. Unless all the civilized world are deceived, the Holloway's Pills and Ointment will drive disease from the human system, under the most unfavorable circumstances, and in all climes. CIVIL WAR THREATENED .- The fact that the Secret League of Platte county, Mo., has given Mr. Park, the late editor of the Parkville Lumi. nary, who is on a business visit to Parkville, notice to leave the place immediately or he would be lynched, has been brought to the attention of the legislature of that State, by member, Mr. Blair, who, on the 13th ult., offered a resolution calling upon the Governor, and, if necessary, the President of the United States, for such aid as might be necessary to protect Mr. Park in his person and property. This motion gave rise to a protracted and sharp debate, and finally resulted in rejecting Mr. Blair's motion, upon the ground that when Alex. Koser; and Messrs. James Russel and the Parkville people need the aid of the Governor or President they could get it by asking. In the meantime great excitement prevails at Parkville. It is said the League have threatened to destroy the town if Park does not leave. Two hundred of the leading citizens have held a meeting and requested Mr. Park to remain. At the same time a committee was appointed to meet a committee of the secret body, when they came into the town, and represent the wishes and determination of the citizens of Parkville. The St. Louis Democrat says:

Much discussion took place on the streets, and Maj. Richardson, Col. Summers, Col. Burnes, Capt. Burney, and others, made speeches to the crowd in support of justice and right. When the committee of the secret organization arrived they were met by Col. Burnes, and much exciting discussion ensued, when the committee left town. Next day another committee arrived. The Resources of the Republic.

A writer in the Journal of Commerce, who seems to have paid considerable attention to the subject, contends that there is no reasonable ground for any thing like a money panic. and asks—what is the true state of the case ? In the first place, he says our country was never so rich in resource as at the present time. What are her resources? Cotton, \$150,000,000

Sundries other than above, \$50.000,000 Gold products per annum,........45,000,000

Total,\$845,000.900 From this we shall probably realize by our shipments abroad full \$50,000,000 more than our crops have, in the most prosperous years, ever before produced us. Our importations for this year will be some thirty or forty millions less than in the year 1854, and our foreign indebtedness far advanced in liquidation, the balance at the gredit of foreign houses with our bankers here being about half what it was some three or four months ago.

This is a cheering view, and it is entitled to due consideration. The country is indeed, in a high condition of prosperity, and instead of eroaking and inserting absurd stories, we should be grateful to Providence for abundant crops and the many national blessings we
