

**Revolt on Board of an American Ship.**

**TWO HUNDRED & FIFTY-ONE MEN KILLED.**—Letters have been received from Manila by the America, to the 9th inst., giving an account of a dreadful occurrence on board the American ship Waverley, conveying Coolies from China to Peru. The Captain having died, the ship put into Manila. Some disturbance took place on board, and the Chinese, to the number of 450, were driven below and the hatches closed. On their being opened again, 251 men were found dead! Some were killed by suffocation, and some by boiling water poured down upon them through the hatches by Capt. French. The following letter, addressed to Elwood Walter, Esq., Secretary of the Board of Underwriters, of New York city, tells the frightful story:

MANILLA, November 9, 1855.  
Dear Sir:—We enclose herewith those of yesterday's date, in which is an account of a tragical occurrence on board American ship "Waverley," which vessel took on board at Swatow for Callao, and put in here on the 25th ult., for an officer, Capt. Wellman having died a few days before. There are many conflicting accounts as to the amounts of sickness on board, and a notice published in the official gazette here, which we enclose, asserts that the captain stated to the health officer, in the first place, that Capt. Wellman died from dysentery, and many of the crew from the same disease. We are informed, however, that but two of them died between Swatow and this place, and that Capt. Wellman's complaint was dysentery, so that there seems to have been not the slightest necessity for ordering the ship into quarantine; and as the first officer of the "Phoenix" was quite willing to ship in her, with the consent of Capt. Honier of the "Phoenix," it is most unfortunate that the "Waverley" was not allowed to proceed at once on her voyage.

After proceeding to the anchorage ordered, distant some seven or eight miles from them, and a mile or two from Comte, preparations were being made to take the body of Capt. W. on shore, when the rising of the Coolies occurred. It would appear by evidence since collected that there were but few troublesome characters among them, and that these were the leaders, the rioting being quelled almost immediately after a few shots from the crew, which killed and wounded two or three Coolies only, the rest retreating below. The hatches were put on, and chains or other heavy things placed upon them, and remained in this state until the agents heard from the characters of the vessel, who sent one of their clerks to remonstrate with Capt. French upon so inhuman an act, which threatened to result in great loss of life. In fact, upon removing the hatches, it was thought that a number were suffocated, and upwards of forty bodies were taken out, when the Coolies were again ordered below, and the bodies thrown overboard. Eventually, and as we hear, it was found that two hundred and ninety had perished, a part, as examination has proved, from the effects of boiling water poured down the hatches by order of Capt. French and the remainder from suffocation. The officers are now in prison here, and a judicial investigation is in progress.

The Boston Post of Friday says: "The master of the ship Waverley, of Boston, who was buried at Manila, November 9, was Capt. Francis O. Wellman, brother to the late deputy collector of this port. His family reside at Chelsea, and one of his daughters faintly upon hearing of his decease, yesterday morning, in one of the schools in that town."

**Ravages of Wolves in Iowa.**

**TWO PERSONS DEVoured.**—Owing to the extreme cold weather for some time past, the wolves in Pottawattomie county, Iowa, have become dangerous neighbors. Poultry-yards and sheep-folds have been robbed to a frightful extent, and in several instances the hungry beasts have not been inclined to spare the human species. The Keokuk Post of the 11th ult. says:

About three weeks ago, a man was returning from a prayer meeting, accompanied by his two daughters, one sixteen and the other twenty-three years of age. They were all riding the same horse, when suddenly a pack of timber wolves assailed them, and being unable to escape by flight, they attempted to defend themselves, but the ferocious brutes attacked the horse, rendering him unmanageable. The oldest daughter was partly thrown and partly dragged to the ground and instantly devoured. This enabled the father and other daughter to escape. Several neighbors were soon mustered, but upon repairing to the spot nothing was found but one shoe, and a very few remnants of the unfortunate girl's clothing.

A boy of about thirteen years old left his father's house to get water at a spring which was about half a mile distant, since which time nothing has been seen of him. The pail was found near the spring; also some marks of blood, and a lock or two of hair. Several persons have been chased by these savage monsters.

**DOUBLE SUICIDE IN BELGIUM.**—A fearful case of double suicide was perpetrated late on Friday evening the 28th ult., on the railway near Antwerp. A man and woman, well attired, and supposed to have resided at Brussels, placed themselves across the line and were cut to pieces by the train.

**A MONSTER CRIMINAL.**—The English papers record the arrest of a man named Evans, on a charge of having poisoned his wife, his brother, his friend, and thirteen other persons. His wife, before marriage, was a ward in Chancery, and entitled to a large fortune. Her guardian resolutely opposed the match, and the Master in Chancery also withheld his consent for some time. Both finally yielded to the entreaties of the young lady; and yet it is believed that she was subsequently murdered by her infamous husband. He was a finished gambler, and a master-spirit of the turf, and his friend, Mr. John P. Cook, gave him his fullest confidence, and yet suffered the same awful fate. In the case of his brother, Mr. Walter Palmer, insurance on his life were effected to the extent of £23,450, and then he also, as is believed, was poisoned. Nay, it is stated, that the names of no fewer than sixteen persons are mentioned as having suffered death by poison through the agency of the prisoner.

**PRESENCE OF MIND IN A DOG.**—A spaniel dog took a position on the railroad track at Central Falls the other day near the station, while a train of cars was stopping for passengers at the station, and his attention being attracted in an opposite direction from the cars, the train was almost upon him before he was aware of its approach. Instead of attempting to get off the track, as a human being would have been moved by impulse to do, he dropped as quick as thought in his tracks, and lay flat upon the ground while the whole train passed over him without injuring him or even touching him.—We call this presence of mind. If it was not, what is it?—Pawucket Gazette.

What is the difference between a butcher and a gay young lady? The former kills to dress, while the latter dresses to kill.

**General Cass.**

**General Cass, at a late meeting of Democratic Senators, delivered an impressive address.** He referred to his long connection with the party now in a majority in the Senate, how steadily it had aided to maintain the Constitution, secure the just rights of each State, and preserve inviolate the integrity of the Union. He dwelt upon the sad and distracted spectacle now presented by the other political combinations in the country, and of the eminent dangers which fanaticism and intemperate zeal threaten to the repose and security of society. He spoke of the weight of years upon him, urging upon his political friends around him the necessity, at this crisis, to watch the coming of events, and stand together to defend the Constitution from the grasp of misguided men. Before taking his seat he took occasion to reiterate a determination before expressed, that he was not, nor would he be, a candidate for the Presidential chair.

**FATAL ACCIDENT.**—Mr. John Wolf, a very exemplary and highly esteemed citizen of Franklin county, who resided on the farm of Mr. Vanderan, in Guilford township, met with an accident, on Saturday week, which resulted in his speedy death. He was engaged in threshing with a machine, when he slipped from its cap, and was caught by the boot, which was literally crushed to pieces.—The spikes of the cylinder were broken and other parts by the resistance of the limb. He leaves a wife.

**FRIGHTFUL RAVAGES OF THE SMALL POX.**—We learn that this dread disease has become epidemic at Prattville, Greene county, N. Y., and it has raged there so violently that strangers have been prohibited from passing through the village. Nearly every inhabitant of the village was or had been down with the disease. Every business place was closed.—Albany Jour.

**HEAVY DAMAGES FOR SEDUCTION.**—There has been considerable excitement at Albion, N. Y., during the present sitting of the Circuit Court, growing out of a trial for seduction. The plaintiff was James Caldwell, a man in humble circumstances, residing in Barre; the defendant, Morris-Tinkham, a minor son of a wealthy farmer of Shelby. The Republican states that Tinkham became acquainted with the daughter of Caldwell, fifteen years of age, in March last, and soon after accomplished her ruin under the roof of her father. Suit for damages was brought and a verdict of \$1,700 damages rendered.

**WEBSTER CELEBRATION.**—A large number of the oldest and most influential of Mr. Webster's friends in New York, assembled on Friday evening in the Astor House, in pursuance of their resolution two years ago to hold the anniversary of his birth in perpetual remembrance. The decorations, historical and illustrative, it is said, were beyond dispute the most elegant ever seen on this side of the water. The feast was unique; wit, eloquence and interesting reminiscences crowned the festival.

**FOUR DOLLARS AND FIFTY CENTS FOR AN APPLE.**—A California letter, speaking of the extravagant spirit that prevails everywhere in the State, says: Apples (of large size, to be sure), were offered at fruit stands for sale at \$4 50 a piece; the price is not more remarkable than that there are many persons indiscreet enough to purchase and eat them at this rate. If this taste continues who will say that the orchards of Oregon shall not come to be as valuable as the gold mines of California?

**A BROTHER OF ANTHONY BURNS ON HIS TRAVELS.**—Henry Burns, brother of the notorious Anthony Burns, belongs to a gentleman on Red River, in Louisiana. His master recently gave him written permission to visit his relations in Virginia. On his way Henry was forced by ice to quit the Ohio river and travel through the State of Ohio. He stated on his arrival here that the abolitionists bothered him mightily in Ohio,—especially when they found out that he was brother to Anthony. They offered to set him up in business and raise him a large sum of money if he would abscond,—but Henry spurned their offers. He said his master had more money but upon his return than they can raise, and that his master "is bound to win."—Virginia Sentinel.

**BOOTHROD FAIRDOUGH, Esq.**—This is the name of a young aspirant for the mantle of the lamented Booth. He recently made his first appearance on any stage in New York, where he sustained the difficult role of Sir Giles Overreach, in the play of "A New Way to Pay Old Debts." The press of that city are enthusiastic in praise of his masterly delineation of that character, and predict for him a future eminence in the arduous profession in which he has embarked.

**SOMEWHAT OF A JUMPER.**—Mr. John Lawrence Bagler, in the Louisville Times, offers to be taken from \$2000 to \$5000 that he can do as follows:—Jump five feet further on a dead level than any man in Kentucky—three feet further than any man in the United States—one foot further than any man in the world—or that he can stand flat-footed upon the earth and leap a brick wall fifteen feet high and four thick.

ⓄThe reported battle in Kansas proves to have been greatly exaggerated. None were killed and only a few persons were slightly wounded.

ⓄThe cold at Moscow, in Russia, on the 20th of November, was so severe that several sentinels were found frozen to death in their sentry boxes, although they are relieved every half hour.

ⓄAN ICE BRIDGE.—Last week they were crossing on the ice from Niagara Falls to the Canada shore. The ice is said to be from 20 to 30 feet thick, and has formed up to Goat Island, a thing that has not happened for 20 years.

**For the Compiler.**

**"Sam."**

This character, of former notoriety, keeps up his lissitude to the Democratic party, with the hope of gaining some of the offices of the government. To accomplish this the same party pretends to have thrown off its secrecy. This is a mere ruse on Sam's part, the majority of the people having sustained the Democratic party in opposing the midnight doings of the K. N.'s.

There are other principles held to and advocated by the Know Nothings just as offensive to the Democratic party as the secrecy of the order. The Democratic party is composed of that class of our population who look alone to the strict and rigid construction of the constitution, and guard with a vigilant eye the rights and liberties of our poorer classes—in contradistinction to the Know Nothing party, with its cathars and pledges, with its efforts to proscribe the Catholic and foreigner, and every native born citizen who is not a member of the order. It will at once be seen that so long as our people love the constitution, its liberal principles, the rights and privileges it secures to all, rich or poor—so long as they look to the examples of Jefferson, Madison and Monroe, as worthy their practice—so long will the great mass of our citizens be Democratic—so long will they condemn and vote down religious tests, and religious (blended political) proscription. The people are sound, their constant aim is to do what is right. They have ruled this country with Democratic rulers ever since its formation. With but a few exceptions every President and Congress held in the United States has been Democratic, and certainly we have no cause to complain. Our glorious Union is now envied and looked upon with a jealous eye by all the nations of Europe. Our people are happy and prosperous.

**Americans Must Rule America.**

If one not acquainted with the tricks and fabrications of the Know Nothings, should hear their war-cry of "Americans must rule America," says the Washington Union, he would have strange feelings. Let us examine into this empty brag, and so expose a new inconsistency of the Know Nothings. Congress, in virtue of our constitution, has the right of legislating, and he who legislates "rules!" The Senate consists of 62 members, and the House of Representatives of 234. All of these are natives of this country; not a single one is of foreign birth; yet the Know Nothing cry is, "Americans must rule America!" Instead of the foreign-born citizens of our country exerting a political power equal to their specific power, they are in this respect, not represented in our national legislature at all. Our total population amounts at present to about 27,000,000, of which nearly 5,000,000 (exclusive of their children born in this country) are foreign born. If these five millions should be represented in Congress on an equal footing with the native born, of the 62 Senators fourteen, and of the 234 members of the House fifty-three should be foreign born. Yet the Know Nothings, in spite of all these facts, persist in proclaiming their hypocritical doctrine, "Americans must rule America!"

**A NEW SNOW ENTERPRISE.**—We learn that Dr. Harris, of Conneautville, is now organizing a traveling Theatre, to be exhibited under a Pavilion capable of seating three thousand persons. The Doctor has had considerable experience in this line, and is determined to get up something unique and that must prove popular. To this end he has engaged a corps of Artists of acknowledged talent, and is having a series of scenic paintings executed in the first style. He will commence active operations in the Spring and will make his second exhibition in this place. The Doctor is determined to spare no expense to make this the great feature in the coming show campaign.—Crawford Democrat.

ⓄThe other evening a poor woman while crossing the Jersey City ferry wrapped her shawl so closely around her infant to keep it from the cold that she smothered it to death. The discovery threw the mother into hysterics and fits.

ⓄBROWLEY'S PILLS may be taken with perfect safety by both sexes and all ages, their effect being purely positive; their searching properties render them invaluable for the extirpation of every disease, particularly liver and stomach complaints; bilious disorders, and indigestion. As a purifier of the system, they are unequalled, and their virtues in cases of determination of blood to the head, and asthmatic complaints, cannot be too highly commended. In short, by the use of Browley's Pills, there are few complaints which can resist their extraordinary influence.
