TOWN & COUNTY.

GOOD SLEIGHING.—The sleighing in this section of Pennsylvania was never better than it is now, and, we think, was never more enjoyed. The sound of bells is seldom out of our ears, and everybody seems merry and happy. There is nothing more musical on the clear air pool dates to Saturday, the 19th inst., being of winter, when a white mantle is over old a week later. mother earth, than the sound of sleigh-bells. Pos has expressed it well in the following at 10 A. M., that Russia has unconditionally

"The tinkling of the bells, What a world of merriment their melody foretells! How they tinkle, tinkle, tinkle, In the icy air of night! While the stars that ever sprinkle All the heavens, seem to twinkle With a crystaline delight, Reeping time, time, time. In a sort of Runic rhyme,

To the tintimusbulation that so musically swells, From the bells, bells, bells, Bells, bells, bells-From the jingling and the tinkling of the bells."

BREAKING OF GROUND .- We are requested to mention that there will be a "breaking of ground" of the Gettysburg Railroad, on Monday next, the 11th inst, at 11 e'clock, where the line of the Road passes through the farm belonging to Mr. NICHOLAS HELTZEL, in Mountpleasant township. Addresses may be expected suitable to the occasion. The public are invited to attend.

SUB-CONTRACTS.—We learn that but two sections of the Railroad were given out on Monday last, although a large number of bids have been received. Messrs. THOMAS WARREN and and 15—the latter being the section nearest mother immediately interrupted her interesting son. ROBERT PAXTON, of this place, got sections 9 the borough. The other lettings have been postponed until the line of the route is definite
ly located a few changes being thought desirable. Messrs. Warren & Paxton will "break a "new rig," himself, whenever it met the views of the ground" on section 9, on Monday, the 11th inst., on the property of Nicholas Heltzel, about seven miles from this place, on the York turnpike. It is expected that an address, &c., will be had on the occasion.

TEACHERS' ASSOCIATION .-- The "Adams County Teachers' Association' intend having s series of meetings in Christ Church, commencing on Thursday. H. C. HICKOCK, Esq., the Deputy State Superintendent, will be present and address the Association. We understand that Addresses will be delivered by Dr. SCHMUCKER and other gentlemen. School Directors and all interested in the subject of Common School Education are cordially invited to attend.

INGENIOUS.—We were shown, a few days ago, an invention by Mr. D. WARREN, of this place, designed to effect the detaching of the coupling of railroal cars. It is a simple but ingenious contrivance, and must meet a great desideratum on our railroad thorough-fares .-The accidents from trains running off the track have grown so frequent that anything calculated to guard against injury to passengers resulting therefrom, must command the attention of railroad companies. - Mr. WARREN proposes to meet this want by a very simple contrivance, which, by a self-acting leverage, detaches the coupling of cars the moment the locomotive leaves the rail. Mr. WARREN designs taking out a patent for his invention, and will then bring it to the attention of Railroad Companies.—Star.

SLEIGHING VISITORS -- A large Sleighing Party of ladies and gentlemen from Emmitsburg, made its entree in this place, on Thursday evening last, and drew marked attention as the cavalcade passed down Baltimore street to the corner of Chambersburg and Washington streets, at which point they halted. and took peaceable possession of the "Eagle." where they remained, enjoying themselves by dancing, until the "wee small hours of morn," and went home with the --- horses, in the morning. We learn that there were fifty-four persons composing this grand pleasure-seeking

On Monday our town was honored with a visit from the Female High School of Hanover, under the charge of Miss DARLING; and also the scholars of the Emmitsburg Academy, under the charge of W. FRANK. PAXTON.

STILL COLD.—The mercury was down to 7 degrees below zero this morning.

READ.—Two papers worthy of careful preservation will be found on our 'outside' pages.

ANALYZING SOILS .- The following is a sim-

ple method of analyzing soils: Weigh a convenient quanity of the earth to be analyzed, say 1,000 grains, dried in the open air; dry the same before a fire on paper, so as not to scorch the paper; re-weigh, and the difference will be the moisture. Roast the residue: re-weigh, and the difference will be the organic matter. Pour a convenient quantity of muriatic acid on the remainder; when stirred and settled. pour it off, and add oxalate of ammonia; the precipitate will be the lime. Mix the remainder with water, and stir it well; when a little settled, pour off the turbid mix-

ous, and the deposite silicious. PICKLING ICE. - The Eighth Avenue Railroad Company sowed several hundred sacks of salt upon their track in order to melt the ice, and have found it an easy method to clear the rails after making the application. The sage of Brooklyn Heights says that ice in pipes and gutters can be speedily melted by the free use of salt water, equal in density to the best pickle-it is also a very economical process:-A bushel of salt dissolved in water will do a great deal of work in melting ice, and is the cheapest labor that can be employed .- N. Y.

ture, and the suspended contents are argillace-

Express. NEW FASHIONED SAFE-NOT FIRE-PROOF .-A few days since, a man left his home in Boston, Mass., leaving \$400 with his wife, who hid it about the fire-place for safe keeping. -Upon his return, his wife was away from home, and he kindled a fire which destroyed the money before her return. The fragments of about \$60 were found, so as to be identified, and that amount was saved.

AN HONEST BOY .- The Rev. John Pierpoint, of Pierpoint Manor, N. Y., gave away his vest testament of Jacob Trostle, late of East Berlin, P. M. to a ragged beggir boy, who called at his house Hamilton township, deceased. the other day, to getting altogether the valuable gold watch there was in one of the pockets. The boy discovered the mistake, possibly as Register's Office, Gettysburg. quick as the donor did, and returned the watch. February 1, 1855

Arrival of the Steamer Arabia. ONE WEEK LATER FROM EUROPE.

Highly Important-The Czar Accepts the Propositions of the Allies as a Basis for Negotiations-Large Decline in Breadstuffs. HALIFAX. Jan. 31.—The Cunard steamship

Arabia arrived here this evening with Liver-The London Times' Vienna correspondent

telegraphs under date of Wednesday, the 16th, accepted the propositions of the German diel. This was reported to be authentic, and

caused an immense excitement throughout To England, but the government dispatch published the next day put a different face upon Ou the affair—being in effect that Russia had only accepted the allies' proposals as basis of ne- Cou goliotion.

This slightly relaxed public confidence, and less sanguine hopes were now entertained. Doubts were expressed that Russia had merely Ger accepted the proposals to prolong the negotiations and gain time. The above is about the sum of all the news.

The prospect of a speedy return of peace swallowed up all elsc. There was a large decline in Breadstuffs, with a further downward tendency.

No franking system exists in England. -Even the Queen has to pay her penny.

The Holloway's Ointment and Pills.—Extraordinary Cure of a East Leg., communicated to Professor Holloway by E. Merchant. Esq., of the Gazette Office. Edgartown, Mass.—Sir. Daniel Nortown, of Edgartown, had a sore on his leg, which defied all ordinary remedies, and instead of improving him he only became worse. At last, he had recourse to Holloway's Ointment and Pills, a few applications of the Ointment in the Course of the Course of

cure wounds and ulcers even of twenty years standing. II MRS. PARTINGTON ON SHARESPEARS.—"There came s

Tower's Spelfer AND COMPLETE ENUNCIATOR : AND TOWER'S READERS. TIRST READER, of Primary School

Enunciator, Part I. SECOND READER, or Primary School Enunciator. Part II. THIRD READER, with Complete Exercises

FOURTH READER : a sequel to the Gradual. FIFTH READER, With Principles of Elocution practically illustrated by Elementary Exer-

Sixth Reades, with the Higher Principles of Elecution Explained and Illustrated by ap-

propriate Exercises. The Readers are prepared upon the plan of teaching only one thing at a time, and they contain a full, complete and original system. of exercises in Articulation, to which the au-

thor has an exclusive right. The Elecutionary matter is simple and comprehensive; adapted to the school-room, as only practical teachers know how to preparaand adapt it.

and adapt it.

The Selections for Reading are carefully graded from the first step to the last. The pieces are chaste, pure, and freed from all low and improper expressions; they are designed to cultivate a correct tiste, to refine the feelings, and to elevate the moral affections. They were selected and prepared by the true teacher, who alone can understand the practical wants. of the expanding heart and mind of the schoolroom pupil.

Also, Tower's Elements of Grammar for beginners, and Tower's English Grammer for advanced classes.

Teachers, School Committees, Clergymen. and all others interested in Education are invited to call and examine these Books.
