Which is Sam?

Puzzled by the astounding number of facanti-Catholic, pro-foreign, anti-foreign—each stories about the outrages of the Missourians was turned out of the office of Postmaster at laying claim to be the only original and verita- in Kansas are really ridiculous. It says: ble "American Party," the Courier and Enquirer philosophizes thus:

"Physiologists tell us that an alligator. when cut in two, keeps on manifesting for a while equal vitality in his head and tail. The one snaps, the other slaps. It has been a mooted point which extremity in this condition was the true alligator. Now 'Sam' has been often heard to say there was much of the alligator in him. He, too, has been dissected: ave, he has been quartered; nay, he has been torn into more pieces than was ever Acteon by his own hounds. They halved him in June at Philadelphia on the Twelfth Section. They quartered him in November at Cincinnati and Springfield on the Fusion Plank. And last week they cut him into mincemeat at Washington in the grand final fight for Speaker .battle. Every camp has something of him to show. His skin is already, like Ziska's, in a drumhead—the Democrats' big war tom-tom-But of all these pieces, which is 'Sain ?'-the 'Sam?' the true 'Sam?' the veritable, identical 'Sam?' Aye, there's the rub. We can't answer it. Who can?"

A Gross Mutilation of the Record. The New York Tribune, in its issue of the 21st, attempts to palm off upon its readers a most glaring and barefaced fraud-and that, too, by a mutilation of the public records. Under the head of "Kansas Affairs" we find the following editorial notice:

"The subjoined documents were transmitted to the Senate on Monday, in reply to a call on the President for certain information in regard to affairs in the Territory of Kansas."

To those, if there be any, who are ignorant of the utter recklessness of this sheet, it will be a matter of astonishment to learn that the letters of Colonel J. H. Lane and C. Robinson, in one point of view the most important part of the Kansas documents, are entirely omitted. It did not suit the purpose of the Tribune to publish an official denial of the slanderous charges which it has been making upon the President in regard to Kansas; therefore, the letters of Colonel Lane and Mr. Robinson are suppressed. Such are the shifts that abolitionism is reduced to. Colonel Lane and Dr. Robinson are the leaders of the free-State party in Kansas, and in their letters call earnestly upon President Pierce to issue his proclamation.-Washington Union.

The Right Man Come at Last; OR, THE PROGRESS OF MEDICINE.

It was with no ordinary pride and satisfaction that we lately had the honor of an introduction to one of the most eminent men of the age, the English physician, Professor Thom-As Holloway, a gentleman who has done more for the advancement of medical science than any other that can be named, not excluding such renowned "savans" as ABERCROM-BIE, RUSH, CLARK OF MAJENDIE: The Professor has been recently travelling in the United States, having visited this country for the purpose of establishing a depot for the sale of his man had his thigh broken and leg badly came enthusiastic, and, raising her veil, kissed appear in your proper person, in the said medicines in New York. It is true that our mashed. Mr. T. Warren, Sen., of this place, her. The lifting of the veil revealed her color Court, on the 21st day of April next, to answer public have long been familiar with his great reputation, but, partly owing to the heavy duty imposed upon imported medicines, and partly to the unwillingness of physicians and escaped with a slight bruising of his hand. druggists to advance the interests of a professional brother, whose superior knowledge and skill threatened to cast their own pretensions America of his wonderful remedies has not yet equalled the enormous demand which exists throughout the whole of Europe, Australia, the East Indies, and most other parts of the civilized world. It was for this reason that the Professor, a few months ago, determined to make New York the location of a great American depot for the preparation and sale of his medicines, rivaling in extent and usefulness his celebrated establishment in London. which, as all travellers know, is one of the "institutions" of that city. We have reason to congratulate ourselves, and especially our sick and afflicted fellow citizens, upon his felicitous resolution.

For proceeding, step by step, on strictly scientific principles, the Professor, at the early part of his career, attained to a discovery triumphs of the healing art. He noticed how time. much of the boasted medical knowledge of the present day was empirical, and how little was" really known of the laws of human physiology. Continuing his investigations, a happy tho't struck him, like an inspiration, and he located the seat of every disease, -no matter what its nature and diagnosis,-in the blood. The blood has vitality; -the blood is alive; it is indeed, in the language of scripture, "the life of man." If that stream of existence is impure, how can the human being be otherwise than feeble, exhausted, emaciated and afflicted by various forms of disease? To purify the blood, and keep it pure, is virtually to banish sickness from the earth. Here then is hope for the sufferer. The poor invalid, despairing of recovery, may go forth into the world a ren-ovated and strong man. Profes'r Holloway's treatment eradicates all our ailments; whether since then the wife of the Rev. Geo. Bushnell, piazza. He then returned to the bar-room and they are of the stomach, liver, kidneys, lungs, heart or skin, he refers their origin to the blood, and restores the apparently diseased organ to pristine and pefect health. Knowing this, as we do, from the experience of our friends, as well as from our own, we discharge but a Samaritan duty to the public, by a cordial recommendation of Holloway's Pills and Ointment-the former for internal derangements of the system; the latter for external application to wounds and sores, which have resisted every other so-called remedy .- New York Atlas.

The Philadelphia Daily News, which has been, for some time, in the interest of the Know Nothings, has become convinced of the weakness of the organization, and thus expresses its conviction in a late issue:

"The fact is, and it would be worse than folly to disguise it, Know Nothingism is effete. It has lost the respect and confidence of the mass of the people, and is now only the fout! ball of corrupt and unprincipled political demagogues, who seek place and power by means of its secret machinery, but in whom the people have no confidence, and never will support eruption are apparent." in any movement they may undertake.'

REPUBLATION OF ABOLITION SENTIMENTS. -Baltimore, Feb. 27.—There was a large meeting of merchants and other citizens of Baltimore held at the Merchant's Exchange, at noon to-day, at which resolutions were adopted protesting against Mr. Francis P. CINCINNATI, Feb. 28.—Hon. B. F. Wade was re-elected U. S. Senator to-day, on joint ballot, by the Legislature of this State.

A Washington correspondent of the Baltimore Sun says :- The nomination of Mr. Fillmore by the Philadelphia convention surprised no one, but there will be considerable surprise when he is elected.

The President has transmitted a special message to Congress, embodying a communication from the Secretary of the Navy, recommending an appropriation of Three Million Dollars, for the manufacture of additional arms, with all the modern improvements, and providing arms and munitions of war. The document also recommends that all the modern improvements should be applied to the implements of war now in the possession of the General Government, as also to those in the custody of the several States. IMPORTANT TO PACIFIC CORRESPONDENTS.-The Union states that Postmaster-General Campbell has adopted a plan-for publishing the names of persons to whom letters have been sent to post-offices in California and the territories of Oregon and Washington. By this system a letter can be sent to any postoffice in the Pacific region for a person whose location is utterly unknown, beyond the mere fact that he is somewhere in California or the territories of Oregon and Washington; yet, incredible as it may seem, the ultimate recep-tion of the letter by the person for whom it is intended is rendered highly probable.
