

Diplomacy Unmasked.
The Liverpool Courier, in the course of a long article on our international relations, gives a downright honest English interpretation of the Central American question, when it says: "The question is not one of mere technical construction, but of high national policy. Are we or are we not to exercise a perpetual surveillance over American doings in America? Such we presume to be the concealed object of our pertinacious protectorate of the Mosquito shore, and of the Bay Islands. The subject is one to be gravely deliberated upon by the British people, because it would be far better that we started at first with a clear conception of the species of struggle into which we may be drawn, and of the moral as well as the material inducements we may have to advance or to retire." Lord Clarendon may cover up the designs of Great Britain as shrewdly as possible, but the Courier puts the question in its only true light. The "perpetual surveillance" and "pertinacious protectorate" will not be permitted by the United States.

Fillmore and the Three Degrees.
It is admitted that Mr. Fillmore has degraded his exalted position by stooping for electioneering purposes to connect himself with an oath-bound, proscriptive and secret order of bigots. So shocked is one of his own supporters by the nature of the three degrees of Know Nothingism, which he has seen recently for the first time, that he indulges in the following manly reprobation of them.—*Exchange.*
[FROM THE N. Y. MIRROR, K. N.]
We have just read, for the first time, the obligations of the three K. N. degrees and do not hesitate to pronounce them Anti-Republican, degrading and in some respects, atrocious.—Our respect for any man would be lessened by his having taken these obligations.

We give the path of these obligations, which are imposed by the most solemn oaths. Members of the first degree are compelled: "To comply, in all political matters, so far as this order is concerned, with the will of the majority, though it may conflict with their personal preferences."
In fact the political individuality of members of the first degree is utterly swallowed up. The second degree members are sworn "To support in all political matters, for all political offices, members of this order, in preference to other persons."
The third degree members are sworn to: "Vote for and support, for all political offices, third or union-degree members of this order in preference to all others."

Fillmore a Member.
The statement made at Philadelphia, that Mr. Fillmore was not a member of the American party, has been flatly contradicted by the President of the Council No. 171 of Buffalo, N. Y., who has given the assurance that he himself was present when the obligation of each of the degrees was administered to Mr. Fillmore, and that he is a member of the Know Nothing Order in good standing.
However much we may have admired Mr. Fillmore, this one act of his has obliterated all our kind feelings for the man. We had placed a much higher estimate upon his character, than to believe for one moment that he had joined such an unholy alliance with men, whose purposes and objects are to deprive a certain class of our fellow-citizens, native and adopted, of the rights guaranteed to them by the Constitution and laws of our country.—*Maryland Republican.*

A LEGISLATIVE FIGHT.—Albany, N. Y., March 12.—After the adjournment of the Assembly this afternoon, Mr. Deshler, of Erie, and Mr. Guest, of New York, had high words concerning a bill that had been before the House, when Mr. Guest made use of an expression considered insulting by Mr. Deshler, and thereupon Mr. Deshler applied his fists to the head of Mr. Guest. After recovering from the staggering effect of Mr. Deshler's blows, Mr. Guest returned to the attack, when the combatants clinched, and both being large and powerful men, they were separated with great difficulty. The damage that both parties sustained proved not to be very serious.

THE GREAT NEW YORK DEFALTER.—The report that Mr. Robert Schuyler is living in some obscure village in Germany, is said to be entirely without foundation. He died some months ago, as previously announced, at a small place near Nice. His family returned to this country in the steamship Arago, and now, as we learn by the New York Times, reside in that city. Upon the receipt of the intelligence of his death, his son-in-law went to Italy for the purpose of bringing home the family, and they all returned as stated above.

NEW VEGETABLES.—New tomatoes have been received in New York from Savannah, and are selling at \$1 50 per box. String beans have also been received, and are selling at fifty cents a peck.

BAD FOR EELS.—The Nantucket Inquirer says the excessive cold weather has been particularly severe upon the eels on the coast, which had not sufficient warning to get to their winter quarters of mud, and consequently were overtaken by the frost and frozen stiff as pickers. Hundreds of bushels of them were driven ashore, and raked up on the beach, and after being packed in barrels, shipped for the city market.

SUDDEN DEATH.—The Richmond Dispatch states that on the 17th ult. Mr. George Phillips came to Fayette C. H., in company with a lady, in a sleigh, and after getting out he went into a private house to warm. He had not been in the house twenty minutes before he fell dead from his chair.

LOANS OF THE ROTHSCHILDS.—The celebrated banking house of the Rothschilds loaned, during the past year \$515,000,000, as follows: England, \$80,000,000; Turkey, \$40,000,000; Sardinia, \$10,000,000; Austria, \$120,000,000; Russia, first loan, \$130,000,000; Russia, second loan, \$100,000,000; England, on exchange bills, \$35,000,000.

Lieut. Charles G. Hunter, of the U. S. Navy, known as "Alvarado Hunter," died in New York on Tuesday morning.

The vitriol throwers are again at work in New York, and many ladies have had their dresses ruined at places of amusement.

W. Hubard has succeeded, at Richmond, in casting a perfect statue of Washington, in bronze.

One Week Later from Europe.
The Peace Conference in Session—Contradictory Reports—An Armistice Announced—Stirring Rumor—The United States and England—Fragments of a Wreck Passed at Sea—Breadstuffs Declined.

HALFAX, March 12.—The Cunard steamer Arabia arrived here last night at a late hour, with Liverpool dates to Saturday, the 1st inst., being one week later than previous advices. The Paris Peace Conference had three meetings, but nothing definite in regard to the proceedings had been suffered to transpire. Rumors favorable and otherwise as to the ultimate issue of the Conference were in circulation. The general impression, however, is that matters have thus far proceeded favorably. It was reported, but perhaps is doubtful, that Russia concedes to the required limitations, but that she has abandoned the protectorate over the Greek Christians. The opinion increases that immediately after a European peace is signed, a general Congress will meet ready to adjust the balance of power.

An armistice to the end of March, but not affecting the existing blockade, has been announced. The excitement respecting the American difficulty seems to be totally extinct. Omar Pacha had resigned, and his resignation was accepted. Russia and the allies, as also Sweden, continue to make active warlike preparations. Breadstuffs—Prices have considerably declined. Wheat has declined 3d, Flour 1s., and Corn 1s., with the market quiet.

FRAGMENTS OF A WRECK—CAUSE FOR PAINFUL FEARS.
A despatch had been received by Brown, Shipley & Co., agents of the Collins line at Liverpool, dated Glasgow, Feb. 27, which says: "The steamer Edinburgh, from New York, passed February 7th large quantities of broken ice. Saw in it a quantity of broken cabinet furniture, together with five ornamental doors, with white or glass handles, a ladies' work box, and other articles, such as are common in the cabins of first class steamers."

THE PEACE CONFERENCE.
The evident cordiality existing between France and Austria begins to excite uneasiness in England, and a triple league between France, Austria and Russia is surmised as being not an improbable incident in the future.

The Latest.
A despatch in the London Morning Advertiser says: "It is deemed not improbable that the result of the moves of the artful diplomatists of Russia may cause the immediate breaking up of the Conference. A very grave hitch has already occurred—though the fifth point is the last of all, it was agreed to take it up first, and accordingly, at the second meeting of the Conference, it was submitted for consideration. Counts Orloff and Brunow objected and proposed to refer it to a Congress of all the Crowned Heads of Europe, pledging themselves in the name of the Czar to abide by whatever decision that Congress might reach."

This unexpected course, it is added, produced consternation at Paris, causing a fall in French funds. It has also surprised and alarmed our own government, and Lord Cowley is expected at London to take instructions from the government on the subject. The London Times notices rumors to the same effect as the above, which caused a fall in the English funds of 1 per cent. A rally, however, occurred at the close of the market in consequence of the rumors remaining unconfirmed.

Later from California.
Oregon Affairs—Walker's Movements in Central America—Frightful News from Japan—Destruction of Jeddo by an Earthquake—30,000 Lives Lost.

NEW ORLEANS, March 12.—The steamer Prometheus, from San Juan, with dates to the 5th, and San Francisco dates to the 20th ult., has arrived. The steamer Northern Light left San Juan on the 5th for New York with \$300,000 in treasure. The San Francisco markets had slightly improved. The mines were yielding largely. A shock of an earthquake was experienced at San Francisco on the 15th, doing some slight damage. It was also felt throughout the State.

Oregon and Washington Territories were still troubled with Indian depredations. Numerous volunteer companies were being formed to resist them. The question of a State Government in Oregon was to go to the people at a special election in April.

FROM CENTRAL AMERICA.
Gen. Walker has seized all the boats of the Transit Company, annulled their charter, and granted one to another company. It was said that Costa Rica had not received Col. Schlessing, the Nicaraguan commissioner, being opposed to a foreign party in Nicaragua. Col. Kinny has published a letter in substantiation of his claim in Central America.

FROM JAPAN—JEDDO DESTROYED BY AN EARTHQUAKE.
The schooner Ray has arrived at San Francisco from Japan, bringing intelligence that Jeddo was destroyed by an earthquake on the 11th of November, one hundred thousand houses being destroyed and thirty thousand lives lost.

FRUIT PROSPECTS.—Various accounts are given respecting the effect of the severe winter upon fruit trees. In New Jersey, whence a large supply of peaches is derived, the prospects of a crop are still considered good. The New Brunswick says:—"The cold weather has not hurt the buds any yet, except in those orchards situated in low wet grounds. There the buds are somewhat injured, though not so badly as they are some years. If the buds are not blasted with cold winds and wet weather in April and May, the peaches will probably be very plentiful."

By official returns to the war department the Militia force of the United States considerably exceeds two million and a half of men.—England had better be cautious.

RAILROAD ACCIDENT.—The express train West, on the Baltimore and Ohio Railroad, met with an accident at 3 P. M., on Friday, 17 miles below the city, at an embankment about 14 feet in height, which fortunately resulted in no loss of life, although the engine (35) with the tender and express car were thrown over the embankment and the engine turned over on the other side of the track, but did not get over the embankment. The engineer and fireman went over with the locomotive, and escaped with a few trifling bruises and slight scalding. The accident was caused by the breaking of a rail. None of the passengers were injured.—*Herald Argus.*

A MAMMOTH WILL.—The will of the late Mr. Thomas Cubitt, the eminent London builder, is one of the longest upon record, and extends to 285 chancery folios, covering thirty skins of parchment. The personal estate exceeds £1,000,000, and is charged with the highest amount in the scale of probate duty, the stamp being £15,000. The widow has an immediate bequest of £20,000 and an annuity of £8,000. Mr. Cubitt began life as a day laborer.

Mr. Reilly, of Franklin, who made the motion for the appointment of the Committee, requested not to be appointed Chairman.

LONGEVITY.—Mrs. Margaret Browning died in Jackson county, Ga., on the 22d ult., aged 113 years. She was born in Maryland, and removed to Georgia when she was about fifty-five years old. She had many recollections of the revolutionary struggle, being grown at the time. Her mind was unimpaired at the time of her death, but she had not walked any for five years.

At a meeting of the Bachelor's Club, held at Bachelors' Hall, on the evening of the 10th inst., Col. F. B. Picking was called to the Chair; David Troxell, Esq., George H. Swope, Esq., and Prof. J. Gillespie were appointed Vice Presidents, and Capt. C. H. Buchler Secretary, when on motion the following preamble and resolutions were unanimously adopted:

Resolved, That it is with feelings of sincere regret and painful solicitude, that we have heard of the contemplated marriage of our friend Lieut. E. G. Fainestock; that, whilst we cannot refrain from censuring conduct which we believe to be unworthy a member of our society, bringing, as it necessarily does, a reproach and a stigma upon our fraternity; yet, with a feeling of fellowship not entirely extinguished, we would give expression to our earnest sympathies in this his misfortune, proceeding as it does, from a weakness in human nature, which our past experience, in the loss of several other members, has shown to be difficult to cure.

Resolved, That the example before us is one which should teach those of us who have still proved true to our vows, to be upon our guard against the insidious wiles of the enemy, who ever upon the alert to defeat the purposes of our organization.

Resolved, That the Hall be hung in mourning for the space of three months, as a token of our own bereavement in the loss of a fellow member, and as a symbol of warning to ourselves.

Resolved, That a copy of these resolutions be entered upon the minutes, published in the newspapers of the Borough, and framed in a suitable form, suspended in a conspicuous place in the Hall; also that a copy be forwarded to the apostate member.

HOLLOWAY'S MEDICINE.—We are not in the habit generally of noticing the thousand and one medicines of the day; but when a really meritorious one is before the public, we think it due to the afflicted that the fact should be made known. We have used Holloway's Pills and Ointment in cases of Constipation, Biliousness, and Scalds, with beneficial effects; and there are cases within our knowledge of extraordinary cures performed in diseases of long standing. Professor Holloway's Ointment and Pills are among the few preparations which perform all the cures for which they are recommended. We are satisfied that for purifying the blood, regulating the stomach, and curing liver and bilious complaints, no better remedy can be found.—*Boston Dispensary.*

LET US REASON TOGETHER!
Holloway's Pills.

WHY ARE WE SICK?—It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

These Pills Purify the Blood.—These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia and Liver Complaints.—Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally.—They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. In Health.—Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses.—Learned Colleges admit that this is the best medicine ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.—No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it. Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma, Debility, Liver Complaints, Bowel Complaints, Fever and Ague, Locomotion of spirits, Coughs, Headaches, Female Complaints, Piles, Cold Diseases, Indigestion, Stomach and Gravel, Dropsy, Inflammation, Secondary Syphilis, Diarrhoea, Inflammation, General Affection, Discharge, Dropsy, Inward Weakness, Wounds of all kind.

*Sold at the Establishment of Professor HOLLOWAY, 80 Maiden Lane, New York, and 244 Strand, London, and by all respectable Druggists and Dealers in Medicines throughout the United States, and the civilized world, in Boxes, at 25 cents, 62 1/2 cents, and \$1 each. There is a considerable saving by taking the larger sizes.
